## National Oceanic and Atmospheric Administration

### Coastal Zone Management: Federal Consistency Appeal by Vieques Marine Laboratories From an Objection by the Commonwealth of Puerto Rico

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

**ACTION:** Notice of appeal and request for comments.

Mr. Charles R. Connelly, on behalf of the Vieques Marine Laboratories, Inc. (Appellant), filed with the Secretary of Commerce (Secretary) a notice of appeal pursuant to section 307(c)(3)(A) of the Coastal Zone Management Act of 1972 (CZMA), as amended, 16 U.S.C. 1451 *et seq.*, and the Department of Commerce's implementing regulations, 15 CFR part 930, subpart H. The appeal is taken from an objection by the Puerto Rico Planning Board (PRPB) to the Appellant's proposal to develop a mariculture shrimp farm in Puerto Ferro, Vieques, Puerto Rico. The proposed project site is located in one of the critical coastal wildlife areas of Puerto Rico. The Appellant has certified that the project, for which a U.S. Army Corps of Engineers permit must be obtained, is consistent with Puerto Rico's coastal management program (CMP).

The CZMA provides that a timely objection by a state, (including Puerto Rico), precludes any federal agency from issuing licenses or permits for the activity unless the Secretary finds that the activity is either "consistent with the objectives" of the CZMA (Ground I) or "necessary in the interest of national security" (Ground II). Section 307(c)(3)(A). To make such a determination, the Secretary must find that the proposed project satisfies the requirements of 15 CFR 930.121 or 930.122.

The Appellant requests that the Secretary override the PRPB's consistency objections based on Grounds I and II. To make the determination that the proposed activity is "consistent with the objectives" of the CZMA, the Secretary must find that: (1) The proposed activity furthers one or more of the national objectives or purposes contained in section 302 or section 303 of the CZMA, (2) the adverse effects of the proposed activity do not outweigh its contribution to the national interest, (3) the proposed activity will not violate the Clean Air Act or the Federal Water Pollution Control Act, and (4) no reasonable alternative is available that would permit the activity to be conducted in a manner consistent with Puerto Rico's CMP. 15 CFR 930.121. To make the determination that the proposed activity is "necessary in the interest of national security" the Secretary must find that a national defense or other national security interest would be significantly impaired if the activity is not permitted to go forward as proposed. 15 CFR 930.122.

Public comments are invited on the findings that the Secretary must make as set forth in the regulations at 15 CFR 930.121. Comments are due within 30 days of the publication of this notice and should be sent to Ms. Pamela B. Lawrence, Attorney-Adviser, Office of the Assistant General Counsel for Ocean Services, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, 1305 East-West Highway, Room 6111, Silver Spring, MD 20910. Copies of comments will also be forwarded to the Appellant and the PRPB.

All nonconfidential documents submitted in this appeal are available for public inspection during business hours at the offices of the PRPB and the Office of the Assistant General Counsel for Ocean Services.

**SUPPLEMENTARY INFORMATION:** FWS (P45H) requests Modification 5 to scientific research and enhancement Permit 747 under the authority of the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and NMFS regulations governing listed fish and wildlife permits (50 CFR parts 217-227). The applicant requests authorization for an increased annual take of juvenile, endangered, Sacramento River winter-run chinook salmon (*Oncorhynchus tshawytscha*) to increase the understanding of juvenile salmonid rearing and outmigration and to assist with the evaluation of juvenile salmonid abundance and outmigration timing in the vicinity of the Red Bluff Research Pumping Facility. Modification 5 would be valid for the duration of the permit. Permit 747 expires on December 31, 1995.

On December 22, 1994, notice was published (59 FR 66006) that an application had been filed by DWR for a scientific research permit (P578) to take juvenile and adult, endangered, Sacramento River winter-run chinook salmon (*Oncorhynchus tshawytscha*) as authorized by the above laws and regulations. On January 30, 1995, DWR withdrew their scientific research permit application. DWR is now proposing to direct their research in 1995 at non-listed fish by beginning the project in the spring after the juveniles of this listed species outmigrate to the ocean.

Those individuals requesting a hearing on FWS's modification application (see **ADDRESSES**) should set out the specific reasons why a hearing on this particular application would be appropriate. The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in this application summary are those of the applicant and do not necessarily reflect the views of NMFS.
