

Tribal, regulatory, and industry interests and experience.

### Purpose of the Meeting

This is the third meeting of the Committee. The Committee will receive presentations by representatives of relevant regulatory and oversight organizations and by DOE, industry and stakeholder organizations associated with the Hanford site. The Committee will also hold a public comment period to receive input from the public and tour appropriate facilities at Hanford.

### Tentative Agenda

In addition to conducting deliberations related to its charge, the Advisory Committee will receive a presentation on the Nuclear Regulatory Commission's perspective on regulation of safety at DOE's nuclear facilities by the Chairman of the Nuclear Regulatory Commission. Other speakers will address the current processes for internal and external oversight of nuclear safety at DOE and the implementation and oversight of the regulatory framework at the Hanford site by DOE, the State, EPA, and others. The agenda will provide opportunities for public comment at 7:00 pm at the Red Lion Inn/Hanford House in the Columbia Meeting Room. A final agenda will be available at the meeting.

### Public Participation

The meeting is open to the public. Members of the public are welcome to make oral statements during the public comment period. Those who wish to do so should contact Catherine Volk at the address or telephone number listed above. Individuals may also register on May 15, 1995 at the meeting site. Every effort will be made to hear all those wishing to speak. Written comments are welcomed, and should be mailed to Catherine Volk, 1726 M St. NW, Suite 401, Washington, DC 20036. The Committee Co-Chairs are empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business.

### Transcripts and Minutes

A meeting transcript and minutes will be available for public review and copying four to six weeks after the meeting at the DOE Freedom of Information Public Reading Room, 1E-190, Forrestal Building, 1000 Independence Avenue, SW, Washington, DC 20585 between 9:00 a.m. and 4:00 p.m., Monday through Friday, except Federal holidays. The transcript will also be made available at the Department's Field Office Reading Room locations.

Issued at Washington, DC, on April 24, 1995.

### Federal Energy Regulatory Commission

[Docket No. CP95-327-000]

#### Transwestern Pipeline Co.; Notice of Application

April 21, 1995.

Take notice that on April 17, 1995, Transwestern Pipeline Company (Transwestern), 1400 Smith Street, Houston, Texas 77002, filed in Docket No. CP95-327-000, an application pursuant to section 7(c) of the Natural Gas Act and § 157.7(a) of the Regulations (18 CFR 157.7(a)), for a certificate of public convenience and necessity authorizing Transwestern to construct approximately 3,200 feet of 30-inch pipeline under the Rio Grande River in Valencia County, New Mexico, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Transwestern explains that on August 20, 1994, an explosion ruptured one of its two 30-inch pipelines which cross the Rio Grande River on a steel structure pipeline bridge. Transwestern says it replaced that pipeline and repaired the structural damage to the bridge under section 2.55(b) of the Commission's Regulations. The second pipeline was not replaced at that time.

Transwestern proposes to replace the second 30-inch pipeline by constructing 3,200 feet of 30-inch pipeline under the Rio Grande River at a cost of \$1,675,000. Transwestern states that it will be reimbursed the cost by its insurance carrier. Transwestern asserts that with the addition of this second line it will be able to bring its pipeline capability up to its presently certificated capacity.

Transwestern requests certificate authorization by June 30, 1995, so that construction can take place between July 15 through September 30 and the facility can be put in service in 1995. Transwestern submits that this construction time period would have minimal effect on such things as the Silvery Minnow, because of the low water flow, and would avoid disturbing two whooping cranes who overwinter in the area.
