

75,000 square feet of community serving uses and 75,000 square feet of visitor serving retail uses. The proposed marina would accommodate up to 700 boat ships with access to Santa Monica Bay via a new entrance channel to the main channel of Marina del Rey. This Channel would be approximately 200 feet wide and excavated to a depth of -16 feet MSL. This proposed development would result in the dredge and/or fill of 9.8 acres of degraded wetlands, 4.8 acres of which would be within the footprint of the proposed marina.

Issues

There are several potential environmental issues that will be addressed in the EIS/EIR. Additional issues may be identified during the scoping process. Issues initially identified as potentially significant include:

1. Geological issues including subsidence, seismic concerns and landform alternation.
2. Impacts to surface and groundwater hydrology and water quality.
3. Potential impacts to terrestrial, aquatic and marine biological resources.
4. Impacts to prehistoric and historic cultural resources.
5. Impacts to air quality.
6. Traffic and transportation related impacts.
7. Potential noise impacts.
8. Land use impacts.
9. Impacts to public utilities and services.
10. Socioeconomic impacts including population, housing and infrastructure costs and benefits.
11. Impact to aesthetic resources.
12. Potential impacts on public health and safety.
13. Cumulative impacts.

Alternatives

Several alternatives are being considered for restoration of the Ballona Salt Marsh as well as alternatives to the marina proposal. These alternatives will be further formulated and developed during the scoping process. In addition to the No Action Alternative (no restoration), two other alternatives for salt marsh restoration have been identified. These are a full tidal restoration for the entire restoration area and a muted tidal restoration for the entire restoration area. In addition, the EIS/EIR will consider alternatives to the Ballona Channel as a source of salt water for the restoration. The EIS/EIR will also consider alternatives to the proposed widening of Culver Boulevard.

A range of alternatives to the marina proposal will be considered in the EIS/

EIR. These alternatives will include other saltwater boating facility alternatives with or without a marina feature as well as other wetland alternatives and the No Act Alternative.

Scoping Process

A public meeting will be held to receive public comment and assess public concern regarding the appropriate scope and preparation of the Draft EIS/EIR. Participation in the public meeting by federal, state and local agencies and other interested organizations and persons is encouraged.

The Corps of Engineers will also be consulting with the U.S. Fish and Wildlife Service under the Endangered Species Act and Fish and Wildlife Coordination Act, and with the State Office of Historic Preservation under the National Historic Preservation Act. Additionally, the EIS/EIR will assess the consistency of the proposed Action with the Coastal Zone Management Act, as well as executive orders on wetlands and floodplain protection.

The public scoping meeting for the Draft EIS/EIR will be held at the Airport Marina Hotel, 8601 Lincoln Boulevard, Los Angeles, California on June 7, 1995. Two sessions, one beginning at 2:00 p.m. and the other starting at 7:00 p.m. are scheduled. Written comments will be received until June 21, 1995.

Availability of the Draft EIS

The Draft EIS is expected to be published and circulated in April of 1996, and a Public Hearing will be held after its publication.

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

ACTION: Notice of proposed information collection requests.

SUMMARY: The Director, Information Resources Group, invites comments on proposed information collection requests as required by the Paperwork Reduction Act of 1980.

DATES: An expedited review has been requested in accordance with the Act, since allowing for the normal review period would adversely affect the public interest. Approval by the Office of Management and Budget (OMB) has been requested by May 9, 1995.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Dan Chenok, Desk Officer, Department of Education, Office of Management and Budget, 725 17th Street NW., Room 3208, New Executive Office Building, Washington, DC 20503. Requests for copies of the proposed information collection request should be addressed to Patrick J. Sherrill, Department of Education, 400 Maryland Avenue SW., Room 5624, Regional Office Building 3, Washington, DC 20202-4651.

FOR FURTHER INFORMATION CONTACT:

Patrick J. Sherrill, (202) 708-9915. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 am and 8 pm, Eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION: Section 3517 of the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 3517) requires that the Director of OMB provide interested Federal agencies and persons an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations.

The Director, Information Resources Group, publishes this notice with the attached proposed information collection request prior to submission of this request to OMB. This notice contains the following information: (1) Type of review requested, e.g., expedited; (2) Title; (3) Abstract; (4) Additional Information; (5) Frequency
