**Proposed Withdrawal and Opportunity for Public Meeting; Montana**

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice.

**SUMMARY:** The Bureau of Land Management proposes to withdraw 82.19 acres of public lands to protect recreational values along the Madison River. This notice closes the lands for up to 2 years from mining. The lands will remain open to mineral leasing. **DATES:** Comments and requests for a public meeting must be received by July 27, 1995.

**ADDRESSES:** Comments and meeting requests should be sent to the Montana State Director, BLM, P.O. Box 36800, Billings, Montana 59107.

**FOR FURTHER INFORMATION CONTACT:** Sandra Ward, BLM Montana State Office, 406-255-2949.

**SUPPLEMENTARY INFORMATION:** On April 21, 1995, a petition was approved allowing the Bureau of Land Management to file an application to withdraw the following described public lands from location and entry under the United States mining laws (30 U.S.C. Ch. 2 (1988)), but not the mineral leasing laws, subject to valid existing rights:

Principal Meridian, Montana

*Red Mountain Campground*

T. 3 S., R. 1 E.,

Sec. 2, lot 2.

*Warm Springs Creek Boat Access Site*

T. 3 S., R. 1 E.,

Sec. 10, lots 2 and 4, excluding therefrom the area contained within the state highway right-of-way lines, more particularly described in Bargain and Sale Deed recorded in Book 162, Page 148, Records of Madison County, Montana.

The areas described aggregate 82.19 acres in Madison County.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions or objections in connection with the proposed withdrawal may present their views in writing to the Montana State Director of the Bureau of Land Management.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested persons who desire a public meeting for the purpose of being heard on the proposed withdrawal must submit a written request to the Montana State Director within 90 days from the date of publication of this notice. Upon determination by the authorized officer that a public meeting will be held, a notice of the time and place will be published in the Federal Register at least 30 days before the scheduled date of the meeting.

The application will be processed in accordance with the regulations set forth in 43 CFR part 2300.

For a period of 2 years from the date of publication of this notice in the Federal Register, the land will be segregated as specified above unless the application is denied or canceled or the withdrawal is approved prior to that date. The temporary uses which may be permitted during this segregative period are the currently allowed recreational activities.

Dated: April 21, 1995.

**National Park Service****General Management Plan/ Development Concept Plans Organ Pipe Cactus National Monument, Arizona; Notice of Availability, Draft Environmental Impact Statement**

**SUMMARY:** Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (P. L. 91-190, as amended), the National Park Service, Department of the Interior, has prepared a draft environmental impact statement (DEIS) that describes and analyzes a proposed action and an alternative strategy for the general management of Organ Pipe Cactus National Monument. The official responsible for a decision on the proposed action is the Regional Director, Western Region, National Park Service.

**COMMENTS:** Comments on the DEIS must be postmarked no later than July 10, 1995. Public meetings regarding the DEIS will be held in several communities in southern Arizona and northern Sonora, Mexico, and the Tohono O'odham reservation. Written responses to the DEIS should be submitted to the Superintendent, Organ Pipe Cactus National Monument, Route 1, Box 100, Ajo, AZ 85321.

**Public Meetings:** Public meetings will be held May 8–11, 1995, in Sonoyta, Mexico, and Ajo, Phoenix, and Tucson, Arizona. Meetings to be held on the Tohono O'odham reservation will be scheduled before July 10, 1995. Meetings will be advertised via local media including newspapers and radio. Information can also be obtained from the superintendent of Organ Pipe Cactus National Monument, or the Planning Team Leader, Organ Pipe Cactus General Management Plan, National Park Service, Denver Service Center-TWE, P.O. Box 25287, Denver, CO 80225–0287, (303) 969–2210.

**Review Copies:** Copies of the DEIS will be available for review at three locations: (1) Office of Public Affairs, National Park Service, Department of the Interior, 18th and C Streets, NW, Washington, DC 20240, (202) 208–6843; (2) Western Regional Office, National Park Service, 600 Harrison St., Suite 600, San Francisco, CA 94107–1372, (415) 744–3968; (3) Headquarters, Organ Pipe Cactus National Monument, Route 1, Box 100, Ajo, AZ 85321, (520) 387–7661. A limited number of copies of the DEIS are available on request from either the superintendent or planning team leader.

**SUPPLEMENTARY INFORMATION:** The Draft General Management Plan/Development Concept Plans/Environmental Impact Statement presents a proposed action and an alternative strategy for the management, use, and preservation of Organ Pipe Cactus National Monument. The proposed action, designated in the DEIS as Alternative 1, The Preferred Future, recognizes the full range of scientific, wilderness, and recreational values of the Sonoran Desert. The proposal seeks to ensure the continued existence of threatened and endangered species and their habitat; reduce impacts to historic properties; provide facilities that would more adequately serve the needs of visitors and staff; establish trails that minimize impacts on natural and cultural resources; and reduce vandalism and the threat of vandalism, especially in the southern sections of the monument.

Major features of the proposal include increased regional, tri-national, and

inter-agency cooperative efforts, preservation treatments for several significant cultural resources, new facilities and other improvements in the Twin Peaks, Lukeville, and Quitobaquito Springs areas, and redesignation of the monument to Sonoran Desert National Park. The National Park Service also proposes to facilitate a cooperative planning effort to make the portion of State Route 85 within the monument more compatible with the wildland setting, enhance protection of monument resources, and increase visitor safety. Major consequences of implementing the proposal would be to enhance protection, understanding, and recognition of the Sonoran Desert and further strengthen relations with local communities, the Tohono O'odham Nation and Mexico. Implementing the proposed actions could also lead to an expansion of the National Wilderness Preservation System by 2,130 acres and help perpetuate the existence of endangered and sensitive species, including the Quitobaquito desert pupfish and Quitobaquito snail.

Alternative 2, A Continuation of Existing Conditions, continues the present course of action as specified in approved documents guiding park management and development. Many actions are similar to Alternative 1, except that fewer developments and programs are proposed. In general, the consequences of this alternative are also similar, but with two major exceptions. The persistent degradation of the only known habitat for the Quitobaquito desert pupfish and Quitobaquito snail could potentially jeopardize their continued existence. Secondly, unregulated traffic along State Route 85 would continue to eliminate wildlife along this corridor. Although the National Park Service would work with the state of Arizona to reduce adverse impacts, this alternative would not result in a cooperative planning effort that addresses reductions in traffic speed and volume within the monument.

The official responsible for a decision on the proposed action is the Regional Director, Western Region, National Park Service.
