ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[IL107-1-6708b; FRL-5190-5]

Approval and Promulgation of Implementation Plans; Illinois

AGENCY: Environmental Protection Agency (USEPA).

ACTION: Proposed rule.

SUMMARY: The United States Environmental Protection Agency (USEPA) proposes to approve Illinois's September 26, 1994, State Implementation Plan (SIP) revision request to grant a variance from Stage II vapor control requirements to J.M. Sweeney Co. (Sweeney), located in Cicero, Cook County, Illinois. This variance has been granted because Sweeney has demonstrated that immediate compliance with the requirements at issue would impose an arbitrary and unreasonable hardship. This variance expires on March 31, 1995. In the final rules section of this **Federal Register**, the USEPA is approving this action as a direct final rule without prior proposal because USEPA views this as a noncontroversial action and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If USEPA receives comments adverse to or critical of the approval discussed above, USEPA will withdraw the approval before its effective date by publishing a subsequent rule that withdraws this final action. All public comments received will then be addressed in a subsequent rulemaking notice. Please be aware that USEPA will institute another rulemaking notice on this action only if warranted by significant revision to the rulemaking based on any comments received in response to today's action. Any parties interested in commenting on this action should do so at this time.

DATES: Comments on this proposed rule must be received on or before June 2, 1995. If no such comments are received,

USEPA hereby advises that the direct final approval will be effective July 3, 1995.

ADDRESSES: Written comments should be mailed to: J. Elmer Bortzer, Chief, Regulation Development Section, Regulation Development Branch (AR18-J), U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Delaware on January 11, 1993 and January 20, 1994. The revision consists of Sections 1 to 9, 13 to 35, 37 to 43 and Appendices A to H to Regulation 24—"Control of Volatile Organic Compound Emissions". anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.
