

*Frequency of response:* On occasion. Contractors and volunteers must complete the form when they begin their employment or volunteer service at a NARA facility and when their building pass expires if there are significant changes to the information provided initially. Contractor passes expire annually; volunteer passes expire after 5 years.

*Number of respondents:* 1,266.

*Reporting hours per response:* 3 minutes

*Annual reporting burden hours:* 64 hours

**6. Request Pertaining to Military Records (SF 180); Questionnaire about Military Service (NA Form 13075).**

*Description:* The information collection is the information that must be provided when requesting information from or copies of documents from a military service record stored at the National Personnel Records Center (NPRC) to allow NPRC to locate the record and respond to the request. Standard Form 180 is the principal form used to obtain information but other forms and letters may be used. NA Form 13075 is a supplemental form furnished to approximately 10 percent of the respondents to obtain additional information to search alternative sources to supply the requested information.

*Purpose:* The information is used to locate the requested record and to determine the releasability of the record under Department of Defense rules.

*Frequency of response:* On occasion.

*Number of respondents:* 713,400.

*Reporting hours per response:* 5 to 30 minutes.

*Annual reporting burden hours:* 209,616 hours.

**7. Automated researcher application.**

*Description:* The information collection is a researcher application form completed by individuals who wish to use original records in the National Archives, a regional archives, or a Presidential Library operated by NARA. The paper application form (NA Forms 14003 and 14003A) has been approved by OMB under control number 3095-0016. This submission is to request approval of an automated researcher application which will replace the paper version.

The automated researcher application is currently available in the College Park, MD National Archives facility; its use will be expanded to the other locations over the next 24 months.

*Purpose:* The information is used by NARA as a security measure to screen individuals who will have access to original records, to identify which types

of records the individual should use, and to allow further contact with the individual if additional records of interest are found or if problems with the records are discovered.

*Frequency of response:* Every three years at the National Archives and regional archives facilities; annually at Presidential libraries until the automated application is in use. More than 90 percent of respondents complete the form only one time.

*Number of respondents:* 30,000.

*Reporting hours per response:* 8 minutes.

*Annual reporting burden hours:* 4,000 hours.

**8. Item Approval Request List.**

*Description:* The information collection is a form used to order reproductions of motion picture, audio, and video holdings in the custody of the Office of the National Archives.

*Purpose:* The information is used by NARA to verify the availability of the requested items for reproduction and, when returned by the vendor, for pulling the copying masters for reproduction.

*Frequency of response:* On occasion.

*Number of respondents:* 1,500.

*Reporting hours per response:* 15 minutes.

*Annual reporting burden hours:* 375 hours.

Dated: June 22, 1995.

BILLING CODE 7515-01-P

**NUCLEAR REGULATORY COMMISSION**

[Docket No. 50-295]

**Commonwealth Edison Company; Zion Nuclear Power Station, Unit 1; Environmental Assessment and Findings of No Significant Impact**

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an exemption to Facility Operating License No. DPR-39, issued to Commonwealth Edison Company (the licensee), for operation of Zion Nuclear Power Station, Unit No. 1, located in Lake County, Illinois.

**Environmental Assessment**

*Identification of the Proposed Action*

This Environmental Assessment has been prepared to address potential environmental issues related to the licensee's application dated May 12, 1995. The proposed action would

exempt the licensee from the requirements of 10 CFR Part 50, Appendix J, Paragraph III.D.1.(a), to the extent that a one-time schedular extension would permit rescheduling of the next Type A test for Zion Nuclear Power Station, Unit 1, to the refueling outage currently scheduled to start in March 1997. Appendix J is undergoing revisions and if the revised Appendix J requirements are approved and issued prior to the March 1997 refueling outage, the next Unit 1 Type A test will be performed in accordance with the revised requirements.

*The Need for the Proposed Action*

The current containment integrated leakage rate testing requirements, pursuant to 10 CFR Part 50, Appendix J, Section III.D.1.(a), are that after the preoperational leak rate test, a set of three Type A tests must be performed at approximately equal intervals during each 10-year inservice inspection period. Furthermore, the third test of each set must be conducted when the plant is shut down for the 10-year inservice inspection. The most recent Type A test was conducted in March 1992, approximately 40 months ago. On March 31, 1993, Zion, Unit 1, was granted an exemption from the requirement of 10 CFR Part 50, Appendix J, that the third Type A test for the second 10 year inservice inspection interval be conducted while shutdown for the 10 year inservice inspections. That one-time exemption effectively decoupled the Type A testing frequency from the 10 year inservice inspection interval and allowed the next Type A test to be scheduled independent of the end of the second 10 year interval. As a result of that exemption, Zion Unit 1 was to perform its next Type A test during the September 1995 refueling outage (RFO). The exemption is needed to allow a longer interval between the Zion, Unit 1, Type A tests, which will result in a considerable cost-savings to the licensee.

*Environmental Impacts of the Proposed Action*

The proposed one-time exemption would not increase the probability or consequences of accidents previously analyzed that affect facility radiation levels or facility radiological effluents. The licensee has analyzed the results of previous Type A tests performed at Zion Nuclear Power Station, Unit 1, and has provided an acceptable basis for concluding that, with the proposed one-time extension of the Type A test interval, the containment leakage rates will still be maintained within

acceptable limits. Accordingly, the Commission has concluded that the one-time extension does not result in a significant increase in the amounts of any effluents that may be released nor does it result in a significant increase in individual or cumulative occupational radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed exemption.

With regard to potential nonradiological impacts, the proposed exemption only involves Type A testing of the containment. It does not affect nonradiological plant effluents and has no other environmental impact. Accordingly, the Commission concludes that there are no significant nonradiological environmental impacts associated with the proposed exemption.

*Alternatives to the Proposed Action*

Since the Commission has concluded there is no measurable environmental impact associated with the proposed exemption, any alternatives with equal or greater environmental impact need not be evaluated. As an alternative to the proposed action, the staff considered denial of the proposed action. Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

*Alternative Use of Resources*

This action does not involve the use of resources not previously considered in connection with the Nuclear Regulatory Commission's Final Environmental Statement dated December 1972, related to the operation of the Zion Nuclear Power Station, Unit 1.

*Agencies and Persons Consulted*

In accordance with its stated policy, on June 7, 1995, the NRC staff consulted with the Illinois State Official, Mr. Frank Niziolek; Head, Reactor Safety Section, Division of Engineering; Illinois Department of Nuclear Safety; regarding the environmental impact of the proposed action. The State official had no comments.

**Finding of No Significant Impact**

Based upon the environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed exemption.

For further details with respect to this action, see the licensee's letter dated May 12, 1995, which is available for public inspection at the Commission's Public Document Room, The Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Waukegan Public Library, 128 N. County Street, Waukegan, Illinois 60085.

Dated at Rockville, Maryland, this 26th day of June 1995.

For the Nuclear Regulatory Commission.

**BILLING CODE 7590-01-M**

**Governor's Designees Receiving Advance Notification of Transportation of Nuclear Waste**

On January 6, 1982 (47 FR 596 and 47 FR 600), the Nuclear Regulatory Commission (NRC) published in the Federal Register, as final, certain amendments to 10 CFR parts 71 and 73 (effective July 6, 1982), which require advance notification to Governors or their designees concerning transportation of certain shipments of nuclear waste and spent fuel. The advance notification covered in part 73 is for spent nuclear reactor fuel shipments and the notification for part 71 is for large quantity shipments of radioactive waste (and of spent nuclear reactor fuel not covered under the final amendment to 10 CFR part 73).

The following list updates the names, addresses and telephone numbers of those individuals in each State who are responsible for receiving information on nuclear waste shipments. The list will be published annually in the Federal Register on or about June 30, to reflect any changes in information.

**INDIVIDUALS RECEIVING ADVANCE NOTIFICATION OF NUCLEAR WASTE SHIPMENTS**

State and Part 71	Part 73
Alabama: Col. Gene Mitchell, Director Alabama Department of Public Safety, P.O. Box 1511, Montgomery, AL 36102-1511, (334) 242-4378.	Same.
Alaska: Doug Dasher, Alaska Department of Environmental Conservation, Northern Regional Office, 610 University Avenue, Fairbanks, AK 99709-3643, (907) 451-2184.	Same.

**INDIVIDUALS RECEIVING ADVANCE NOTIFICATION OF NUCLEAR WASTE SHIPMENTS—Continued**

State and Part 71	Part 73
Arizona: Aubrey V. Godwin, Director, Arizona Radiation Regulatory Agency, 4814 South 40th Street, Phoenix, AZ 85040, (602) 255-4845, 24 hours: (602) 223-2212.	Same.
Arkansas: Greta J. Dicus, Director, Division of Radiation Control and Emergency Management Programs, Arkansas Department of Health, 4815 West Markham Street, Little Rock, AR 72205-3867, (501) 661-2301, 24 hours: (501) 661-2136 or 661-2000.	Same.
California: L. Denno, Chief, Enforcement Services Division, California Highway Patrol, 444 North Third Street, Suite 310, Sacramento, CA 95814, (916) 445-3253.	Same.
Colorado: Captain Allan M. Turner, Hazardous Materials Section, Colorado State Patrol, 700 Kipling Street, Suite 1000, Denver, CO 80215-5865, (303) 239-4546, 24 hours: (303) 239-4501.	Same.
Connecticut: Commissioner Sidney J. Holbrook, Department of Environmental Protection, 79 Elm Street, Hartford, CT 06106-5127, (203) 424-3001, 24 hours: (203) 566-3333.	Same.
Delaware: Karen L. Johnson, Secretary, Department of Public Safety, P.O. Box 818, Dover, DE 19903, (302) 739-4321, 24 hours: (302) 739-5851.	Same.
Florida: Harlan Keaton, Manager, Environmental Radiation Program, Office of Radiation Control, Department of Health and Rehabilitative Services, P.O. Box 680069, Orlando, FL 32868-0069, (407) 297-2095.	Same.
Georgia: Al Hatcher, Director, Transportation Division, Public Service Commission, 1007 Virginia Avenue, Suite 310, Hapeville, GA 30354, (404) 559-6600.	Same.
Hawaii: James K. Ikeda, Acting Deputy Director for Environmental Health, State Department of Health, P.O. Box 3378, Honolulu, HI 96801, (808) 548-4424.	Same.
Idaho: Captain David C. Rich, Department of Law Enforcement, Idaho State Police, 700 South Stratford Drive, P.O. Box 700, Meridian, ID 83680-0700, (208) 884-7206.	Same.
Illinois: Thomas W. Ortciger, Director, Illinois Department of Nuclear Safety, 1035 Outer Park Drive, 5th Floor, Springfield, IL 62704, (217) 785-9868, 24 Hours: (217) 785-9900.	Same.
