

transportation objective. Although we still have concerns, instituting the identified environmental controls for construction and long term operation would make the proposed project acceptable.

**Peer Review Meeting on Eastern
Columbia Plateau Sole Source Aquifer
Determination**

AGENCY: Environmental Protection Agency.

ACTION: Notice of meeting.

SUMMARY: This notice announces a peer review meeting sponsored by the U.S. Environmental Protection Agency's (EPA's) Science Policy Council (SPC). This meeting is a peer review of scientific information underlying the sole source aquifer determination for the Eastern Columbia Plateau that will be made by the Regional Administrator of EPA's Region 10.

DATES: The meeting will held on July 26-27, 1995. Members of the public may attend as observers.

ADDRESSES: The meeting will be held at the Sheraton Tacoma Hotel in Tacoma, Washington. Eastern Research Group, Inc., an EPA contractor, is providing logistical support for the meeting. To attend the meeting as an observer, contact Laurie Nutter, Eastern Research Group, Inc., 110 Hartwell Avenue, Lexington, Massachusetts, 02173-3198, Tel: 617/674-7320, Fax: 617/674-2906 by July 17, 1995. Space is limited.

FOR FURTHER INFORMATION CONTACT: For technical inquiries, contact Martha Sabol, U.S. EPA, Region 10, 1200 Sixth Avenue, Seattle, WA 98101, Telephone (206) 553-1593. For other information

about the peer review, contact Pam Pentz, U.S. EPA (8501), 401 M Street, SW, Washington, DC 20460, Telephone: (202) 260-6600.

SUPPLEMENTARY INFORMATION: On August 26, 1994, EPA proposed that the Eastern Columbia Plateau Aquifer System be designated as a sole source aquifer. EPA proposed the action in response to a January 1993 petition from the Palouse-Clearwater Environmental Institute of Moscow, Idaho. The petition requests EPA to make a determination under Section 1424(e) of the Safe Drinking Water Act that the aquifer system is the sole or principal source of drinking water for the area and which, if contaminated, would create a significant hazard to public health.

The original comment period was to close on October 14, 1994, but in response to public requests EPA extended the comment period twice: first until January 17, 1995, and then until February 17, 1995. Four public hearings were held throughout the proposed area (September 18, September 19, November 15, and November 16).

EPA received extensive comments, including many that cited technical grounds for taking issue with the vertical and lateral boundaries of the proposed area. On April 13, 1995, the Regional Administrator for Region 10, announced that EPA would undertake a peer review of technical information underlying the sole source aquifer designation in the Eastern Columbia Plateau aquifer system. EPA is asking the peer reviewers, who are experts in hydrogeology to evaluate EPA's technical analysis of certain issues relating to the Eastern Columbia Plateau aquifer system. Specifically, EPA is asking the peer reviewers to provide expert comment on the boundaries of the aquifer system, the vertical flow between the basalt units, and the applicability of the documents that EPA used in the development of its technical analysis. Following this meeting, EPA will use information and analyses developed by the peer reviewers, along with other considerations, to make a determination as to the sole source aquifer designation for the Eastern Columbia Plateau.

Dated: June 30, 1995.

Joseph K. Alexander,

Acting Assistant Administrator for Research and Development.
