#### SUPPLEMENTARY INFORMATION

##### Overview

VOA is the preeminent authority on the pronunciation of foreign names and places for American media. VOA seeks assistance to complete its interactive, digital audio system to provide its professional staff with fast and accurate pronunciations for international names commonly found in international news. This system provides users with precise visual and audio guidance using a specially-designed international phonetic alphabet and spoken pronunciations by VOA's language experts. The prototype currently in use at VOA uses Foxpro for Windows with a SoundBlaster 16 sound card and runs on a stand-alone IBM compatible computer. With modification, it could run on Macintosh or a network. VOA's current index has 50,000 entries updated daily. The guide provides text references for honorifics, second reference and other useful information. The index can be expanded and tailored for specialized needs.

##### Guidelines

This solicitation is for a proposal for joint creation of a commercial reference system based on the prototype currently in use at VOA. VOA maintains the integrity of the data base on a 24 hour basis through the expertise of its own editors and language experts.

A proposal should clearly state how the applicant would work with VOA to develop hardware and software to facilitate commercial access to the VOA Pronunciation Guide. Proposals may include an on line service, network and/or stand-alone product.

Proposals should address hardware options to implement practical data entry, storage and retrieval, compression system and software as well as project management. Proposals should include geographical marketing areas. Applicants should refer to the Program Objectives, Goals and Implementation section of the Solicitation Package for greater detail regarding special conditions and other program information.

**Review Process**

VOA will acknowledge receipt of all proposals and will review them for technical eligibility. Proposals will be deemed ineligible if they do not fully adhere to the guidelines stated herein and in the Solicitation Package. Eligible proposals will be forwarded to the USIA Office of Contracts for review. The VOA Director will have final authority on choice of successful applicant.

**Review Criteria**

Technically eligible applications will be competitively reviewed according to the criteria stated below. These criteria are not rank ordered and all carry equal weight in the proposal evaluation.

1. Accommodation of VOA objectives: The concept and current application of the VOA Pronunciation Guide are served by the proposal.

2. Institutional Record and Capacity: The proposal should demonstrate an ability by the applicant to provide sufficient hardware and software capacity and expertise to develop and maintain technical integrity of the system, and define the extent of public access available. The proposal should also demonstrate ability to provide support services including marketing, billing, project management and data capacity.

3. Impact: Ability to make the Pronunciation Guide available to potential users outside the United States is demonstrated. VOA seeks the widest possible availability. Ability to provide benefit to VOA in terms of services, exchanges, or cash should be evident.

**Notice**

The terms and conditions published in the RFP are binding and may not be modified by any VOA representative. Explanatory information provided by VOA that contradicts published language will not be binding. Issuance of RFP does not constitute a commitment on the part of the Government to go forward with the project.

**Notification**

All applicants will be notified of the results of the review process on or about December 13, 1995.

Dated: July 17, 1995.

Director, Voice of America.
