

rights-of-way will be restricted in the ACEC. The Wood River and Seven Mile Creek were studied for eligibility under the National Wild and Scenic Rivers Act. Neither the Wood River nor Sevenmile Creek were found eligible or suitable for designation under any of the alternatives for inclusion in the National Wild and Scenic Rivers System. This notice meets the requirements of 43 CFR 1610.7-2 for designation of areas of critical environmental concern and the requirements of the final revised Department of the Interior—Department of Agriculture Guidelines for Eligibility, Classification, and Management of Rivers (**Federal Register** Vol. 47, No. 173, page 39454).

M. Joe Tague,

District Manager, Acting.

BILLING CODE 4310-84-P

Fish and Wildlife Service

Availability of an Environmental Assessment and Receipt of an Application To Amend the San Bruno Mountain Habitat Conservation Plan Pursuant to Section 10(a) of the Endangered Species Act

AGENCY: Fish and Wildlife, Interior.

ACTION: Notice.

SUMMARY: The County of San Mateo (County) has applied to the U.S. Fish and Wildlife Service (Service) for an amendment to the San Bruno Mountain Habitat Conservation Plan (Plan) and incidental take permit PRT 2-9818 pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (Act). The proposed amendment, the Watson Communications System 1994 Master Plan project, would authorize the incidental take of the endangered mission blue butterfly (*Icaricia icarioides missionensis*) in an area of the Plan originally designated as conserved habitat. The proposed amendment was necessitated by revision of the 1983 development plan for the Radio Ridge. An environmental assessment (EA) is available for the project. This notice is provided pursuant to section 10(c) of the Act and National Environmental Policy Act regulations (40 CFR 1506.6).

DATES: Written comments on the EA and the application should be received on or before August 17, 1995.

ADDRESSES: Comments regarding the adequacy of the EA and the application should be addressed to: Field Supervisor, Sacramento Field Office, U.S. Fish and Wildlife Service, 2800 Cottage Way, Room E-1823,

Sacramento, California 95825-1846. All comments should reference the permit number PRT 2-9818. All comments, including names and addresses, received will become part of the administrative record and may be made available to the public.

FOR FURTHER INFORMATION CONTACT:

Michael Horton at the above address or telephone 916-979-2725. Individuals wishing a copy of the application or EA should contact the above individual.

SUPPLEMENTARY INFORMATION: Section 9 of the Act prohibits the "taking" of endangered species, like the mission blue butterfly. However, the Service, under limited circumstances, may issue permits to take endangered wildlife species incidental to, and not the purpose of, otherwise lawful activities. Regulations governing permits for endangered species may be found in 50 CFR 17.22.

In 1983, the Service issued the County of San Mateo (County), California a permit for the incidental take of mission blue butterfly on San Bruno Mountain. The County has requested an amendment to section 10(a)(1)(B) permit No. PRT 2-9818 for the San Bruno Mountain Habitat Conservation Plan (SBM HCP). The SBM HCP currently reflects a 1983 development plan for the Radio Ridge, which would allow the construction of 7 structures, 6 additional earth/satellite stations, and associated facilities, and would conserve 15 acres as conserved habitat. Watson Communications Systems, the property owner has proposed a number of construction activities that differ from the 1983 SBM HCP. This includes construction of 2 dwelling units, relocation of a tower, and construction of 2 new buildings, installation of 40 new dish antennae, and associated facilities. Aside from increasing the amount of habitat that would be lost by 1.2 acres, the new proposal reconfigures the developed areas. The applicant has proposed minimization measures and would provide additional funds to the HCP Trust Fund as mitigation. The County approved the 1994 Master Plan project and certified an Environmental Impact Report prepared for the project on December 20, 1994.

On August 23, 1994, the County applied to the Service for an amendment to the SBM HCP and permit PRT 2-9818. The proposed Radio Ridge amendment includes the above Watson Communications Systems project and would authorize the incidental take of the mission blue butterfly in an area originally designated in the SBM HCP as conserved habitat. In addition to the proposed amendment, (the proposed

action), the No Action Alternative was considered.

Dated: July 12, 1995.

Thomas Dwyer,

Deputy Regional Director, Region 1, Portland, Oregon.

National Park Service

Final Environmental Impact Statement/General Management Plan Haleakala National Park, Maui County, Hawaii; Record of Decision

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (Pub. L. 91-190 as amended) and regulations promulgated by the Council on Environmental Quality (40 CFR 1505.2), the Department of the Interior, National Park Service has approved a Record of Decision on the Final Environmental Impact Statement/General Management Plan (FEIS/GMP) for Haleakala National Park.

The National Park Service will implement the selected plan, identified as the proposal in the Final Environmental Impact Statement for the General Management Plan, issued in March, 1995.

Copies of the approved Record of Decision may be obtained from the Superintendent, Haleakala National Park, Box 369, Makawao, Maui, HI 96768; or by calling the park at (808) 572-9230.

Dated: June 27, 1995.

Patricia L. Neubacher,

Field Director, Pacific West Field Area.
