7 CFR Part 993

[Docket No. FV95-993-11FR]

Dried Prunes Produced in California; Expenses and Assessment Rate

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Interim final rule with request for comments.

SUMMARY: This interim final rule authorizes expenditures and establishes an assessment rate under Marketing Order No. 993 for the 1995-96 crop year. Authorization of this budget enables the Prune Marketing Committee (Committee) to incur expenses that are reasonable and necessary to administer the program. Funds to administer this program are derived from assessments on handlers.

DATES: Effective beginning August 1, 1995, through July 31, 1996. Comments received by August 31, 1995, will be considered prior to issuance of a final rule.

ADDRESSES: Interested persons are invited to submit written comments concerning this action. Comments must be sent in triplicate to the Docket Clerk, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, room 2523-S, Washington, DC 20090-6456, FAX 202-720-5698. Comments should reference the docket number and the date and page number of this issue of the **Federal Register** and will be available for public inspection in the Office of the Docket Clerk during regular business hours.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Agreement and Order No. 993, both as amended (7 CFR part 993), regulating the handling of dried prunes produced in California. The marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the Act.

The Department of Agriculture (Department) is issuing this rule in conformance with Executive Order 12866.

This interim final rule has been reviewed under Executive Order 12778, Civil Justice Reform. Under the provisions of the marketing order now in effect, California prunes are subject to assessments. It is intended that the assessment rate as issued herein will be applicable to all assessable prunes handled during the 1995-96 crop year, which begins August 1, 1995, and ends July 31, 1996. This interim final rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with the Secretary a petition stating that the order, any provisions of the order, or any obligation imposed in connection with the order is not in accordance with law and requesting a modification of the order or to be exempted therefrom. Such handler is afforded the opportunity for a hearing on the petition. After the hearing the Secretary would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business has jurisdiction in equity to review the Secretary's ruling on the petition, provided a bill in equity is filed not later than 20 days after the date of the entry of the ruling.

Pursuant to the requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this rule on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of

business subject to such actions in order that small businesses will not be unduly or disproportionately burdened.

Marketing orders issued pursuant to the Act, and the rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 1,360 producers of California dried prunes under this marketing order, and approximately 20 handlers. Small agricultural producers have been defined by the Small Business Administration (13 CFR 121.601) as those having annual receipts of less than \$500,000, and small agricultural service firms are defined as those whose annual receipts are less than \$5,000,000. The majority of California dried prune producers and handlers may be classified as small entities.

The budget of expenses for the 1995-96 crop year was prepared by the Prune Marketing Committee, the agency responsible for local administration of the marketing order, and submitted to the Department of Agriculture for approval. The members of the Committee are producers and handlers of California dried prunes. They are familiar with the Committee's needs and with the costs of goods and services in their local area and are thus in a position to formulate an appropriate budget. The budget was formulated and discussed in a public meeting. Thus, all directly affected persons have had an opportunity to participate and provide input.

The assessment rate recommended by the Committee was derived by dividing anticipated expenses by expected shipments of dried California prunes. Because that rate will be applied to actual shipments, it must be established at a rate that will provide sufficient income to pay the Committee's expenses.

The Committee met June 22, 1995, and unanimously recommended a 1995-96 budget of \$275,280, \$5,080 more than the previous year. Budget items for 1995-96 which have increased compared to those budgeted for 1994-95 (in parentheses) are: Executive salaries, \$87,980 (\$83,850), clerical salaries, \$19,440 (\$18,650), office rent, \$22,000 (\$21,500), postage and messenger, \$5,500 (\$5,000), rental of equipment, \$3,000 (\$500), purchase of equipment, \$5,000 (\$4,500), acreage survey, \$10,500 (\$10,000), and reserve for contingencies, \$19,310 (\$19,250). Items which have decreased compared to the amount budgeted for 1994-95 (in parentheses) are: Employee benefits \$15,400

(\$15,800), repairs and maintenance, \$3,000 (\$4,000), stationary and printing, \$4,000 (\$6,500), and Committee travel, \$9,000 (\$9,500). All other items are budgeted at last year's amounts.

The Committee also unanimously recommended an assessment rate of \$1.55 per salable ton, \$0.05 less than the previous year. This rate, when applied to anticipated shipments of 177,600 salable tons, will yield \$275,280 in assessment income, which will be adequate to cover budgeted expenses. Any funds not expended by the Committee during a crop year may be used, pursuant to § 993.81(c), for a period of five months subsequent to that crop year. At the end of such period, the excess funds are returned or credited to handlers.

While this action will impose some additional cost on handlers, the costs are in the form of uniform assessments on handlers. Some of the additional costs may be passed on to producers. However, these costs will be offset by the benefits derived by the operation of the marketing order. Therefore, the Administrator of the AMS has determined that this action will not have a significant economic impact on a substantial number of small entities.

After consideration of all relevant matter presented, including the information and recommendations submitted by the Committee and other available information, it is hereby found that this rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it is also found and determined upon good cause that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice prior to putting this rule into effect and that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register** because: (1) The Committee needs to have sufficient funds to pay its expenses which are incurred on a continuous basis, (2) the crop year begins on August 1, 1995, and the marketing order requires that the rate of assessment for the fiscal period apply to all assessable California prunes handled during the crop year; (3) handlers are aware of this action which was unanimously recommended by the Committee at a public meeting and is similar to other budget actions issued in past years; and (4) this interim final rule provides a 30-day comment period, and all comments timely received will be considered prior to finalization of this action.

SUPPLEMENTARY INFORMATION:

Background

As a result of the Uruguay Round Agreements, approved by Congress in section 101 of the Uruguay Round Agreements Act (Pub. L. 103–465), the President, by Presidential Proclamation No. 6763, established a tariff-rate quota for imported beef.

Briefly, under a tariff-rate quota, the United States applies one tariff rate, known as the in-quota tariff rate, to imports of a product up to a particular amount, known as the in-quota quantity, and another, higher rate, known as the over-quota tariff rate, to imports of the product in excess of the given amount. Of course, the preferential, in-quota tariff rate would be applicable only to the extent that the in-quota quantity for the country involved had not been exceeded.

The specific imported beef, as well as the various countries, eligible for the in-quota tariff rate are set forth in Additional U.S. Note 3, Schedule XX, Chapter 2, of the Harmonized Tariff Schedule of the United States. The eligible countries which may export such beef to the United States and avail themselves of the preferential, in-quota tariff rate include Australia, New Zealand and Japan.

As part of the implementation of the tariff-rate quota for beef, the United States, specifically, the United States Trade Representative (USTR), is offering these exporting countries that have an allocation of the in-quota quantity the opportunity to use export certificates for their qualifying beef exports to the United States. Although countries that have an allocation of the in-quota quantity are referred to in the statutory law as “participating countries”, for purposes of this interim rule, a participating country constitutes an allocated country that has been authorized to participate in the export certificate program. Notably, New Zealand has already requested the opportunity to participate in the export certificate program.

While a country does not need to participate in the export certificate program in order to receive the in-quota
