BILLING CODE 6560-50-P

DEPARTMENT OF THE INTERIOR

41 CFR Chapter 114

RIN 1090-AA53

Internal Directives and Procedures Governing Property Management Program

AGENCY: Department of the Interior, Office of the Secretary.

ACTION: Final rule.

SUMMARY: The Department of the Interior has amended the internal directives and procedures governing its property management program. The Department of the Interior is now deleting text from the Code of Federal Regulations. This text, which does not affect the public, is being deleted because it duplicates the text in other internal directives. The intended effect is to eliminate duplicate regulations and thereby simplify the regulatory structure.

EFFECTIVE DATE: This rule is effective September 5, 1995.

FOR FURTHER INFORMATION CONTACT: Robert E. Lomax, Office of Acquisition and Property Management, ms 5512-MIB, U.S. Department of the Interior, Washington, DC 20240, Phone: (202) 208-3337.

SUPPLEMENTARY INFORMATION: These property management regulations govern the internal actions of the Department of the Interior and its bureaus. Inasmuch as the content of these regulations is set forth in greater detail in the Department of the Interior's internal Property Management Directives (IPMD), the Department has determined that it is no longer necessary to maintain these regulations in 41 CFR Chapter 114.

This rule was not subject to Office of Management and Budget review under E.O. 12866. Because these procedures govern only internal management actions of the DOI, this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

The DOI has further determined that these regulations will not significantly affect the environment.

An environmental impact statement is not required under the National Environmental Policy Act of 1969. Because the Department, by removing these regulations, is simply relying on more comprehensive internal directives which are already in place, the Department for good cause, within the meaning of 5 U.S.C. 553(b)(B), finds that notice and public comment on the rule are not required. Finally, the DOI has determined that the rule has no federalism implications affecting the relationship between the national government and the states as outlined in Executive Order 12612.

This rule does not contain information collection requirements which require approval by the office of Management and Budget under 44 U.S.C. 3501 *et seq.*

The primary author of this document is Robert E. Lomax, Chief, Division of Property Management, Office of Acquisition and Property Management, U.S. Department of the Interior.

BILLING CODE 4310-RF-M

**FEDERAL EMERGENCY
MANAGEMENT AGENCY**

44 CFR Part 65

**Changes in Flood Elevation
Determinations**

AGENCY: Federal Emergency
Management Agency, FEMA.

ACTION: Final rule.

SUMMARY: Modified base (1% annual chance) flood elevations are finalized for the communities listed below. These modified elevations will be used to calculate flood insurance premium rates for new buildings and their contents.

EFFECTIVE DATE: The effective dates for these modified base flood elevations are indicated on the following table and revise the Flood Insurance Rate Map(s) (FIRMs) in effect for each listed community prior to this date.

ADDRESSES: The modified base flood elevations for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the following table.

FOR FURTHER INFORMATION CONTACT: Michael K. Buckley, P.E., Chief, Hazard Identification Branch, Mitigation Directorate, 500 C Street SW., Washington, DC 20472, (202) 646-2756.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency makes the final determinations listed below of modified base flood elevations for each community listed. These modified elevations have been published in newspapers of local circulation and ninety (90) days have elapsed since that publication. The Associate Director has resolved any appeals resulting from this notification.

The modified base flood elevations are not listed for each community in this notice. However, this rule includes the address of the Chief Executive Officer of the community where the modified base flood elevation determinations are available for inspection.

The modifications are made pursuant to section 206 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 *et seq.*, and with 44 CFR part 65.

For rating purposes, the currently effective community number is shown and must be used for all new policies and renewals.

The modified base flood elevations are the basis for the floodplain management measures that the community is required to either adopt or to show evidence of being already in effect in order to qualify or to remain qualified for participation in the National Flood Insurance Program.

These modified elevations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, state or regional entities.

These modified elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

The changes in base flood elevations are in accordance with 44 CFR 65.4.

National Environmental Policy Act. This rule is categorically excluded from the requirements of 44 CFR Part 10,

Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act. The Associate Director, Mitigation Directorate, certifies that this rule is exempt from the requirements of the Regulatory Flexibility Act because modified base flood elevations are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are required to maintain community eligibility in the National Flood Insurance Program. No regulatory flexibility analysis has been prepared.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 12612, Federalism. This rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

Executive Order 12778, Civil Justice Reform. This rule meets the applicable standards of section 2(b)(2) of Executive Order 12778.

List of Subjects in 44 CFR Part 65

Flood insurance, Floodplains, Reporting and recordkeeping requirements. Accordingly, 44 CFR part 65 is amended as follows:

PART 65—[AMENDED]

1. The authority citation for part 65 continues to read as follows:
