BILLING CODE 4910-62-P

Federal Highway Administration

[FHWA Docket No. 95-23]

Uniform Relocation Act, Certification Pilot Program in Florida

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice and request for comments.

SUMMARY: The Florida Department of Transportation (FDOT) proposes to comply with the Uniform Relocation Assistance and Real Property Acquisition Policies Act (Uniform Act) on Federal-aid highway projects in two of its districts through use of a certification procedure permitted by the Uniform Act. The FDOT would comply with the Uniform Act by conducting its right-of-way program in accordance with State laws determined by the FHWA, the Federal lead agency for the Uniform Act, to have the same purpose and effect as the Uniform Act. Comments are requested on the FDOT's proposed certification and on the determination sought from the FHWA concerning the purpose and effect of the State laws relied on by the FDOT.

DATES: Comments are requested by September 11, 1995.

ADDRESSES: Submit written, signed comments to FHWA Docket No. 95-23 Federal Highway Administration, Room 4232, HCC-10, Office of Chief Counsel, 400 Seventh Street, SW., Washington, DC 20590. All comments received will be available for examination at the above address between 8:30 a.m. and 3:30 p.m., e.t., Monday through Friday, except Federal holidays. Those desiring notification of receipt of comments must include a self-addressed, stamped envelope/postcard.

FOR FURTHER INFORMATION CONTACT: Marshall Schy, Chief, Policy Development Branch, Office of Right-of-Way, HRW-11, (202) 366-2035; or Reid Alsop, Office of Chief Counsel, HCC-31, (202) 366-1371, Federal Highway Administration, 400 Seventh Street, SW., Washington, D.C. 20590. Office hours are from 7:45 a.m. to 4:15 p.m., e.t., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION: The Uniform Act (42 U.S.C. 4601-4655) provides relocation benefits to persons

forced to move by Federal or federally-assisted programs or projects. It also establishes policies relating to the acquisition of real property for such programs or projects. The FHWA has been designated the Federal Government's lead agency for implementing the Uniform Act.

Sections 210 and 305 of the Uniform Act (42 U.S.C. 4630 and 4655) require State agencies that receive Federal financial assistance for programs or projects that will result in the acquisition of real property or the displacement of persons to provide "assurances" that they will comply with the Act's provisions. Section 103 of the Uniform Act (42 U.S.C. 4604) provides that, in lieu of those assurances, a State agency may comply by certifying (and receiving the FHWA's determination) that it will be operating under State laws that "will accomplish the purpose and effect" of the Uniform Act.

The FDOT has applied for the establishment of a certification pilot program that would cover Uniform Act compliance on Federal-aid highway projects for a period of two years. The pilot program would be limited to the FDOT's Districts 2 and 4. District 2 includes the area encompassed by the counties of Alachua, Baker, Bradford, Clay, Columbia, Dixie, Duvall, Gilchrist, Hamilton, Lafayette, Levy, Madison, Nassau, Putnam, St. Johns, Suwannee, Taylor, and Union. District 4 includes the area encompassed by the counties of Broward, Indian River, Martin, Palm Beach, and St. Lucie.

In its certification application the FDOT relies on the authority in sections 120.543 and 339.05 of the Florida statutes, and on the existing FDOT right-of-way procedures. The two statutory provisions grant the FDOT broad authority to comply with Federal (Uniform Act) requirements. The FDOT right-of-way procedures govern the FDOT's compliance with the provisions of the Uniform Act. Accordingly, if the certification pilot program is approved, it is anticipated that the level of benefits and assistance provided to property owners and displaced persons will remain virtually unchanged since the FDOT will continue to operate under the same State laws and procedures that currently govern its compliance with the Uniform Act. The primary changes are expected to be the elimination of FHWA approvals or oversight of Uniform Act implementation in the two FDOT districts and the simplified administration associated with the State operating under its own procedures.

If the certification pilot program is approved, the FHWA, under section 103(c) of the Uniform Act, could still

withhold project approvals or rescind acceptance of the FDOT's certification if the FDOT failed to comply with the certification or with the State law upon which the certification was based.

In accordance with section 103(b)(3) of the Uniform Act, the FHWA is providing an opportunity for public review and comment before making a determination concerning the "purpose and effect" of such State laws. Following the expiration of the comment period the FHWA will make a determination concerning the purpose and effect of the applicable State laws, and will either approve or disapprove the FDOT certification request.

Authority: 42 U.S.C. 4604.

Issued on: August 3, 1995.

Rodney E. Slater,

Federal Highway Administrator.

BILLING CODE 4910-22-P

National Highway Traffic Safety Administration

[Docket No. 95-61; Notice 1]

Notice of Receipt of Petition for Decision That Nonconforming 1992 Volvo 740 GL and 940 GL Sedan and Wagon Passenger Cars Are Eligible for Importation

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Notice of receipt of petition for decision that nonconforming 1992 Volvo 740 GL and 940 GL Sedan and Wagon passenger cars are eligible for importation.

SUMMARY: This notice announces receipt by the National Highway Traffic Safety Administration (NHTSA) of a petition for a decision that 1992 Volvo 740 GL and 940 GL sedans and wagons that were not originally manufactured to comply with all applicable Federal motor vehicle safety standards are eligible for importation into the United States because (1) they are substantially similar to vehicles that were originally manufactured for importation into and sale in the United States and that were certified by their manufacturer as complying with the safety standards, and (2) they are capable of being readily altered to conform to the standards.

DATES: The closing date for comments on the petition is September 11, 1995.

ADDRESSES: Comments should refer to the docket number and notice number, and be submitted to: Docket Section, Room 5109, National Highway Traffic Safety Administration, 400 Seventh St.,

SW, Washington, DC 20590. [Docket hours are from 9:30 am to 4 pm]

FOR FURTHER INFORMATION CONTACT:

George Entwistle, Office of Vehicle Safety Compliance, NHTSA (202-366-5306).

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 30141(a)(1)(A) (formerly section 108(c)(3)(A)(i)(I) of the National Traffic and Motor Vehicle Safety Act (the Act)), a motor vehicle that was not originally manufactured to conform to all applicable Federal motor vehicle safety standards shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115 (formerly section 114 of the Act), and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable Federal motor vehicle safety standards.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR Part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

J.K. Motors of Kingsville, Maryland ("J.K.") (Registered Importer 90-006) has petitioned NHTSA to decide whether 1992 Volvo 740 GL and 940 GL sedans and wagons are eligible for importation into the United States. The vehicles which J.K. believes are substantially similar are 1992 Volvo 740 GL and 940 GL sedans and wagons that were manufactured for importation into, and sale in, the United States and certified by their manufacturer as conforming to all applicable Federal motor vehicle safety standards.

The petitioner claims that it carefully compared non-U.S. certified 1992 Volvo 740 GL and 940 GL sedans and wagons to their U.S. certified counterparts, and found the vehicles to be substantially similar with respect to compliance with most Federal motor vehicle safety standards.

J.K. submitted information with its petition intended to demonstrate that non-U.S. certified 1992 Volvo 740 GL and 940 GL sedans and wagons, as originally manufactured, conforms to many Federal motor vehicle safety standards in the same manner as their U.S. certified counterparts, or are capable of being readily altered to conform to those standards.

Specifically, the petitioner claims that non-U.S. certified 1992 Volvo 740 GL and 940 GL sedans and wagons are identical to their U.S. certified counterparts with respect to compliance with Standards Nos. 102 *Transmission Shift Level Sequence* * * *, 103 *Defrosting and Defogging Systems*, 104 *Windshield Wiping and Washing Systems*, 105 *Hydraulic Brake Systems*, 106 *Brake Hoses*, 107 *Reflecting Surfaces*, 109 *New Pneumatic Tires*, 113 *Hood Latch Systems*, 116 *Brake Fluid*, 124 *Accelerator Control Systems*, 201 *Occupant Protection in Interior Impact*, 202 *Head Restraints*, 203 *Impact Protection for the Driver From the Steering Control System*, 204 *Steering Control Rearward Displacement*, 205 *Glazing Materials*, 206 *Door Locks and Door Retention Components*, 207 *Seating Systems*, 209 *Seat Belt Assemblies*, 210 *Seat Belt Assembly Anchorages*, 211 *Wheel Nuts, Wheel Discs and Hubcaps*, 212 *Windshield Retention*, 214 *Side Impact Protection*, 216 *Roof Crush Resistance*, 219 *Windshield Zone Intrusion*, 301 *Fuel System Integrity*, and 302 *Flammability of Interior Materials*.

Additionally, the petitioner states that non-U.S. certified 1992 Volvo 740 GL and 940 GL sedans and wagons comply with the Bumper Standard found in 49 CFR Part 581.

Petitioner also contends that these vehicles are capable of being readily altered to meet the following standards, in the manner indicated:

Standard No. 101 *Controls and Displays*: (a) substitution of a lens marked "Brake" for a lens with an ECE symbol on the brake failure indicator lamp; (b) recalibration of the speedometer/odometer from kilometers to miles per hour.

Standard No. 108 *Lamps, Reflective Devices and Associated Equipment*: (a) Installation of U.S.-model headlamps and front sidemarkers; (b) installation of U.S.-model taillamp lenses which incorporate rear sidemarkers; (c) installation of a high mounted stop lamp.

Standard No. 110 *Tire Selection and Rims*: installation of a tire information placard.

Standard No. 111 *Rearview Mirror*: replacement of the passenger side

rearview mirror with a U.S.-model component.

Standard No. 114 *Theft Protection*: installation of a warning buzzer microswitch and a warning buzzer in the steering lock assembly.

Standard No. 115 *Vehicle Identification Number*: installation of a VIN plate that can be read from outside the left windshield pillar, and a VIN reference label on the edge of the door or latch post nearest the driver.

Standard No. 118 *Power Window Systems*: installation of a relay in the power window system so that the window transport is inoperative when the ignition is switched off.

Standard No. 208 *Occupant Crash Protection*: (a) installation of a seat belt warning buzzer; (b) installation of knee bolsters to augment the vehicles' air bag based passive restraint system, which otherwise conforms to the standard. The petitioner states that in addition to a driver's side air bag, the vehicles are equipped with side impact protection systems, with manual lap and shoulder belts in the front and rear outboard seating positions, and with a manual lap belt in the center seating positions.

Interested persons are invited to submit comments on the petition described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5109, 400 Seventh Street, SW., Washington, DC 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the **Federal Register** pursuant to the authority indicated below.

Authority: 49 U.S.C. 30141(a)(1)(A) and (b)(1); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: August 4, 1995.

Marilynne Jacobs,

Director, Office of Vehicle Safety Compliance.
