[Docket No. RP95-411-000]

Panhandle Eastern Pipe Line Company; Notice of Proposed Changes in FERC Gas Tariff

August 4, 1995.

Take notice that on August 1, 1995, Panhandle Eastern Pipe Line Company (Panhandle) tendered for filing to become part of its FERC Gas Tariff, First Revised Volume No. 1, Seventeenth Revised Tariff Sheet Nos. 4, 5, 6, 7 and 8, and First Revised Sheet No. 15 which are proposed to become effective September 1, 1995.

Panhandle states that its filing implements, in accordance with Section 18.7 of the General Terms and Conditions of First Revised Volume No. 1 of Panhandle's FERC Gas Tariff, the recovery of Gas Supply Realignment (GSR) Costs by means of GSR Reservation Surcharges applicable to service under Rate Schedules FT, EFT, SCT and LFT and the comparable component applicable to interruptible rates under Rate Schedules IT and EIT.

Panhandle states that the costs included for recovery herein are costs which resulted from Panhandle having to terminate its existing gas supply contracts in connection with implementing Order No. 636, et seq., which, among other things, required Panhandle to restructure its services and

operations to provide its sales customers the choice of reducing and terminating their obligations under their existing sales contract.

Panhandle states that the purpose of this filing is to provide for Panhandle's recovery of \$1,753,014 of Gas Supply Realignment (GSR) Costs, (actual payments with associated carrying charges from date of payment to September 1, 1995) as defined in Section 18.7(b)(1) of the General Terms and Conditions of Panhandle's FERC Gas Tariff, First Revised Volume No. 1 (General Terms and Conditions), plus \$273,274 of levelized carrying charges calculated for the three year period these charges are to be in effect. The GSR Costs sought to be recovered in the present filing, which are associated with three gas supply termination agreements, were not included in Panhandle's prior GSR Cost Recovery filing in Docket No. RP94-325-000.

Panhandle states that the amounts included for recovery as GSR Reservation Surcharges under Rate Schedules FT, EFT, SCT and LFT and the amounts included for recovery under Rate Schedules IT and EIT have been calculated using the methods described which are consistent with the Commission's orders and pronouncements regarding the recovery of GSR Costs, and most particularly the so-called Natural discount attribution policies. Although Panhandle previously has objected to and sought rehearing of the application of that policy to its filings, Panhandle recognizes that the Natural approach is the Commission's current policy and Panhandle's present rate derivation conforms to it. Panhandle's use of that method is in compliance with prior Commission orders and is without prejudice to Panhandle's right to adjust the charges to shippers included in this filing by direct bill, surcharge or such other method as the Commission may permit, in the event of reversal, vacation or modification of that policy.

Panhandle states that a copy of this filing has been served on all customers affected by this filing and applicable state regulatory agencies.

Any person desiring to be heard or to protest this filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before August 11, 1995. Protests will be considered by the Commission in determining the appropriate action to be

taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
