

with the Accomplishment Instructions section of Jetstream SB 57-A-JA920540.

(c) Replacing the joggled doublers as required by paragraphs (a)(1) or (b) of this AD eliminates the repetitive inspection requirements of this AD.

(d) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the airplane to a location where the requirements of this AD can be accomplished.

(e) An alternative method of compliance or adjustment of the initial or repetitive compliance times that provides an equivalent level of safety may be approved by the Manager, Brussels Aircraft Certification Office, FAA, Europe, Africa, and Middle East Office, c/o American Embassy, B-1000 Brussels, Belgium. The request shall be forwarded through an appropriate FAA Maintenance Inspector, who may add comments and then send it to the Manager, Brussels Aircraft Certification Office.

Note 2: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Brussels Aircraft Certification Office.

(f) All persons affected by this directive may obtain copies of the document referred to herein upon request to Jetstream Aircraft Limited, Prestwick International Airport, Ayrshire, KA9 2RW, Scotland, or Jetstream Aircraft Inc., Librarian, P.O. Box 16029, Dulles International Airport, Washington, D.C. 20041-6029; or may examine this document at the FAA, Central Region, Office of the Assistant Chief Counsel, Room 1558, 601 E. 12th Street, Kansas City, Missouri 64106.

Issued in Kansas City, Missouri, on August 7, 1995.

Gerald W. Pierce,

Acting Manager, Small Airplane Directorate, Aircraft Certification Service.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 9, 60, 260, 262, 264, 265, 270, and 271

[IL-64-2-5807; FRL-5277-1]

Hazardous Waste Treatment, Storage, and Disposal Facilities and Hazardous Waste Generators; Organic Air Emission Standards for Tanks, Surface Impoundments, and Containers

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; data availability.

SUMMARY: This notice announces the availability of additional data that are being considered by the EPA in revising the air emission standards for hazardous waste treatment, storage, and disposal

facilities (TSDF) that were published December 6, 1994 under the authority of the Resource Conservation and Recovery Act (RCRA), as amended (59 FR 62896). The additional data are available for public inspection at the EPA RCRA Docket Office.

DATES: Comments on these additional data will be accepted through October 13, 1995.

ADDRESSES: Docket. The additional data are available for public inspection and copying in the EPA RCRA Docket Office (5305), Room 2616, U.S. Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460. A reasonable fee may be charged for copying. Docket hours are 9 a.m. to 4 p.m. Monday through Friday excluding Federal holidays. Other RCRA docket numbers that pertain to the final rule are F-91-CESP-FFFFF, F-92-CESA-FFFFF, F-94-CESF-FFFFF, and F-94-CE2A-FFFFF.

Comments. Written comments regarding these data may be mailed to the Docket Clerk (5305), Room 2616, U.S. Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460. Please send an original and two copies of all comments, and refer to Docket Number F-95-CE3A-FFFFF. Comments on the additional data will be accepted through October 13, 1995.

FOR FURTHER INFORMATION CONTACT: For general information about this action contact the RCRA Hotline at (703) 412-9877 or toll-free at 1-800-424-9346. For information on specific technical aspects of these data contact Ms. Michele Aston, Emissions Standards Division (MD-13), U.S. EPA, Research Triangle Park, N.C. 27711, telephone (919) 541-2363, telefax (919) 541-3470.

SUPPLEMENTARY INFORMATION: On December 6, 1994, the EPA published in the **Federal Register** (59 FR 62896) under authority of the Resource Conservation and Recovery Act (RCRA), as amended, standards requiring the use of air emission controls on certain tanks, surface impoundments, and containers at hazardous waste treatment, storage, and disposal facilities (TSDF). These standards are codified in 40 CFR parts 264 and 265 under subpart CC (referred to as the "subpart CC standards").

Since publication of these final standards, the EPA has been involved in a review of its standards to identify areas in which regulatory measures can be made less burdensome without compromising environmental benefits. For the subpart CC standards, this effort has identified certain requirements of the final standards for which less extensive regulatory requirements may suffice. The EPA is considering revising

the published standards to reflect the requirements described in the additional data. The sections of the published rule that are addressed by these additional data are: applicability, waste determination procedures, standards for tanks, standards for surface impoundments, standards for containers, inspection and monitoring requirements, recordkeeping requirements, and reporting requirements.

The EPA will consider these new data in the regulatory decision-making process for this regulation. Therefore, the new data are being placed into the RCRA docket for public inspection and review. To clearly distinguish these new data, they have been placed under a new docket number: F-95-CE3A-FFFFF. The EPA will consider all comments on the new data received by the close of the comment period when making a final regulatory determination on the regulatory requirements for this regulation.

These items are not the exclusive list of the provisions which the EPA is considering revising. The EPA is planning to publish a technical correction notice to the rule within the next two months, and may also propose additional changes to the rule in the near future.

List of Subjects

40 CFR Parts 264 and 265

Air pollution control, Container, Control device, Hazardous waste, Incorporation by reference, Inspection, Miscellaneous unit, Monitoring, Reporting and recordkeeping requirements, Standards, Surface impoundment, Tank, Waste determination.

Dated: August 9, 1995.

Richard Wilson,

Acting Assistant Administrator for Air and Radiation.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

Television Broadcasting Services; Bend, OR

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; denial of petition.

SUMMARY: This document denies the petition for reconsideration filed by

3-J Broadcasting Company, seeking review of the action taken by the Chief, Allocations Branch, on July 18, 1994, returning its petition for rule making by letter as unacceptable for consideration. 3-J Broadcasting Company petitioned for a waiver of the *ATV Freeze Order* (52 FR 28346, July 29, 1987) and the allotment of Channel 38 to Bend, Oregon, as the community's fourth local television service. The Commission has determined that 3-J Broadcasting Company has not met the criteria for grant of its waiver request. With this action, this proceeding is terminated.

FOR FURTHER INFORMATION CONTACT: Leslie K. Shapiro, Mass Media Bureau, (202) 418-2180.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's *Memorandum Opinion and Order*, adopted July 24, 1995, and released August 4, 1995. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Reference Center (Room 239), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased

from the Commission's copy contractor, International Transcription Service, Inc., (202) 857-3800, 2100 M Street, NW., Suite 140, Washington, DC 20037.
