1, 3–5, 7, 9, 10, 14, 16	6 5	July 8, 1968. September 20, 1967.

This incorporation by reference was approved by the Director of the **Federal Register** in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124–2207. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the Office of the **Federal Register**, 800 North Capitol Street, NW., suite 700, Washington, DC.

(j) This amendment becomes effective on September 13, 1995.

Issued in Renton, Washington, on July 28, 1995.

Darrell M. Pederson,

41798

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service. [FR Doc. 95–19120 Filed 8–11–95; 8:45 am] BILLING CODE 4910–13–U

14 CFR Part 71

[Docket No. 95-ANE-24]

Revocation of Class D and Class E Airspace; Limestone, ME

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment revokes the Class D and Class E airspace areas established at the former Loring Air Force Base, and amends the Class E airspace at the Northern Maine Regional Airport at Presque Isle, ME, to delete that portion of that airspace in the vicinity of Loring AFB. This action is necessary since Loring AFB is no longer in operation, all standard instrument approach procedures to Loring AFB have been canceled, and the air traffic control tower at Loring AFB is closed. EFFECTIVE DATE: 0901 UTC, September 14, 1995.

FOR FURTHER INFORMATION CONTACT: Joseph A. Bellabona, System Management Branch, ANE–530, Federal Aviation Administration, 12 New England Executive Park, Burlington, MA 01803–5299; telephone: (617) 238–7536;

fax: (617) 238-7596.

SUPPLEMENTARY INFORMATION:

History

On May 17, 1995, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) by removing the Class D and Class E airspace areas established at the former Loring Air Force Base (AFB) in Limestone, ME, and by revising the Class E airspace area established in the vicinity of the Northern Maine Regional Airport at Presque Isle, ME. That action was prompted by the cancellation of all standard instrument approach procedures (SIAP's) to the former Loring AFB, which followed the closing of the control tower at Loring AFB.

Interested parties were invited to participate in this rule making proceeding by submitting written comments on the proposal to the FAA. No comments were received. Class D and Class E airspace areas are published in FAA Order 7400.9B, dated July 18, 1994, and effective September 16, 1994, which is incorporated by reference in 14 CFR 71.1. Class D areas appear in paragraph 5000 of FAA Order 7400.9B, and Class E areas designated as extensions to Class D areas appear in paragraph 6004 and Class E areas extending upward from 700 feet or more above the surface of the earth appear in paragraph 6005. The Class D and Class E airspace designations in this document would be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) removes the Limestone, ME Class D area and the Limestone, ME Class E area, and revises the Presque Isle, ME Class E area by deleting the portion of that airspace in the vicinity of the former Loring AFB.

The FAA has determined that this rule involves only established body of technical regulations for which frequent and routine amendments are necessary to keep these regulations operationally current. It therefore—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a ''significant rule'' under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated economic cost will be so minimal. Since this is a rountine matter that will only affect air traffic procedure and air navigation, the FAA certifies that this rule will not have a significant

economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

If consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for part 71 continues to read as follows:

Authority. 49 U.S.C. app. 1348(a), 1354(a), 1510; E.O. 10854, 24 FR 9565, 3 CFR. 1959–1963, Comp., P. 389; 49 U.S.C. 106(g); 14 CFR 11.69.

§71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9B, Airspace Designations and Reporting Points, dated July 18, 1994, and effective September 16, 1994, is amended as follows:

Paragraph 5000 General

* * * * * *

ANE ME D Limestone, ME [Removed]

Paragraph 6004 Class E Airspace Areas Designated as an Extension to a Class D Surface Area

ANE ME E4 Limestone, ME [Removed]

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth

ANE CT E5 Preque Isle, ME [Revised]

Northern Maine Regional Airport at Presque Isle. ME

(Lat. 46°41′20″ N, long. 62°02′41″ W) Presque Isle VORTAC (Lat. 46°46′27″ N, long. 68°05′40″ W) EXCAL LOM

(Lat. 46°36′37″ N, long. 68°01′08″ W) Caribou Municipal Airport, ME (Lat. 46°52′17″ N, long. 68°01′04″ W)

That airspace extending upward from 700 feet above the surface within an 11-mile radius of Northern Maine Regional Airport at Presque Isle, and within 3 miles on each side of the EXCAL LOM 165° bearing extending

from the 11-mile radius to 9.2 miles south of the EXCAL LOM, and within 4 miles east and 8 miles west of the Presque Isle VORTAC 340° radial extending from the 11-mile radius to 16 miles northwest of the Presque Isle VORTAC, and within an 8.5-mile radius of Caribou Municipal Airport, ME; excluding that airspace outside of the United States.

Issued in Burlington, MA, on August 4, 1995.

John J. Boyce,

Acting Manager, Air Traffic Division, New England Region.

14 CFR Part 71

[Docket No. 95-ANE-23]

Establishment of Class E Airspace; Portland, ME

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment will establish Class E airspace in the vicinity of the Portland International Jetport, Portland, ME, that coincides with the hours that the associated radar approach control facility is not in operation. This action does not change the designated boundaries or altitudes of the Portland Class C airspace, but only establishes the necessary Class E airspace to provide sufficient controlled airspace for those aircraft operating under instrument flight rules (IFR) in the vicinity of the Portland International Jetport when the Portland Air Traffic Control Tower (ATCT) and Terminal Radar Control Approach Facility (TRACON) are not in operation.

EFFECTIVE DATE: 0901 UTC, September 14, 1995.

FOR FURTHER INFORMATION CONTACT:

Joseph A. Bellabona, System Management Branch, ANE–530, Federal Aviation Administration, 12 New England Executive Park, Burlington, MA 01803–5299; telephone: (617) 238–7536; fax: (617) 238–7596.

SUPPLEMENTARY INFORMATION:

History

On May 17, 1995, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) by establishing Class E airspace in the vicinity of the Portland International Jetport, Portland, ME. That action was prompted by the need to establish the necessary Class E airspace to provide sufficient controlled airspace for those aircraft operating under instrument flight rules (IFR) in the vicinity of the

Portland International Jetport when the Portland Air Traffic Control Tower (ATCT) and Terminal Radar Control Approach Facility (TRACON) are not in operation. Since the Portland Class C airspace is predicated on an operational ATCT and serviced by a TRACON, Class E airspace must be defined for the hours when that facility is not in operation. This action does not change the designated boundaries or altitudes of the Portland Class C airspace. The hours of operation for the Portland ATCT are published by a Notice to Airman (NOTAM) and thereafter in the Airport/ Facility Directory.

Interested parties were invited to participate in this rule making proceeding by submitting written comments on the proposal to the FAA. No comments were received. Class E airspace areas designated as a surface area for an airport are published in Paragraph 6002 of FAA Order 7400.9B, dated July 18, 1994, and effective September 16, 1994, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation in this document would be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) establishes Class E airspace at the Portland International Jetport, Portland, ME.

The FAA has determined that this rule involves only an established body of technical regulations for which frequent and routine amendments are necessary to keep these regulations operationally current. It therefore: (1) Is not a "significant regulatory action" under Executive Order 12866 (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated economic cost will be so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, the FAA certifies that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. app. 1348(a), 1354(a) 1510; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963, Comp., p. 389; 49 U.S.C. 106(g); 14 CFR 11.69.

§71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9B, Airspace Designations and Reporting Points, dated July 18, 1994, and effective September 16, 1994, is amended as follows:

Paragraph 6002 Class E Airspace Areas Designated as a Surface Area for an Airport

ANE ME E2 Portland International Jetport, ME [New]

Portland International Jetport, ME (Lat. 43°38′46″ N, long. 70°18′31″ W)

Within a 5-mile radius of the Portland International Jetport. This Class E airspace area is effective during the specific dates and times established in advance by a Notice to Airman. The effective dates and times will thereafter be continuously published in the Airport/Facility Directory.

Issued in Burlington, MA, 0n August 4, 1995.

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Part 1117

Reporting Choking Incidents to the Consumer Product Safety Commission Pursuant to the Child Safety Protection Act; Revision to Interpretative Rule

AGENCY: Consumer Product Safety Commission.

ACTION: Revision to final interpretative rule.

SUMMARY: The Child Safety Protection Act ("CSPA") requires manufacturers, distributors, retailers, and importers of marbles, small balls, latex balloons, and toys or games that contain such items or other small parts, to report to the Commission when they learn of choking incidents involving such products. On February 27, 1995, the Commission issued a rule interpreting the reporting requirements of the CSPA, but left open the question of whether the reporting requirement applies to toys or games that are exempt from the Commission's
