This program helps to ensure that requested data can be provided in the desired format, reporting burden is minimized, reporting forms are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Unemployment Insurance Service of the Employment and Training Administration is soliciting comments concerning the proposed new collection of data for the evaluation of the Emergency Unemployment Compensation Program. A copy of the proposed information collection request can be obtained by contacting the employee listed below in the contact section of this notice.

DATES: Written comments must be submitted on or before October 16, 1995. If you anticipate submitting written comments, but find it difficult to do so within the length of time allowed by this notice, you should request an extension from the contact person listed below as soon as possible. SUPPLEMENTARY INFORMATION:

I. Background

The collection of survey data and State administrative records is being done to support an evaluation of the Emergency Unemployment Compensation (EUC) program implemented in 1991. The EUC program paid federally-financed extended unemployment insurance benefits from November 1991, through April 1994. More than \$28 billion in benefits were paid in the program.

II. Current Actions:

The data collection effort will consist of a telephone survey of 4,000 individuals, and acquiring administrative data records from twenty-three States. The interview will take roughly thirty minutes and gather information on an EUC recipient's characteristics and behavior. Computer Assisted Telephone Interviewing (CATI) will be used to conduct the survey in order to reduce the burden on respondents and provide greater accuracy. All respondents will be informed that the information they provide will be kept strictly confidential. All data will be collected by a private contractor and only information that will preclude any individual's identification will be provided to the U.S. Dept. of Labor. This data collection process from individuals and States will occur only once. The total burden of conducting the survey and collecting administrative records from twenty-three States is estimated to be 4,520 hours.

Public comments are being solicited to address the accuracy of the burden estimates and ways to minimize burden, including the use of automated collection techniques or the use of other forms of information technology.

Type of Review: New.

Agency: Employment and Training Administration.

Title: Data Collection Instruments for the Evaluation of the Emergency Unemployment Compensation Program.

Frequency: One Time.

Affected Public: Individuals or households and State Government.

Number of Respondents: 4,000 and 23 States.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Signed at Washington, DC., this 9th day of August 1995.
