

Government under cost-sharing contracts when evaluating proposed subcontractors or consenting to a subcontract during contract administration, where the subcontractor is a wholly-owned subsidiary of the prime. The vulnerability consists of the subsidiary earning a large amount of fee, which could be returned to the prime through stock dividends or other intercompany transactions. This could circumvent the objective of a cost-sharing contract.

1516.303-77 Administrative requirements.

(a) The initial Procurement Request shall reflect the total estimated cost of the cost-sharing contract. The face page of the contract award shall indicate the total estimated cost of the contract, the Contractor's share of the cost, and the Government's share of the cost.

(b) The manner of cost-sharing and how it is to be accomplished shall be set forth in the contract. Additionally, contracts which provide for cost-sharing shall require the contractor to maintain records adequate to reflect the nature and extent of their cost-sharing as well as those costs charged the Agency. Such records may be subject to an Agency audit.

3. Section 1516.307 is amended to add paragraph (c) to read as follows:

1516.307 Contract clauses.

* * * * *

(c) The Contracting Officer shall insert the clause at 1552.216-75, Estimated Cost and Cost-Sharing, in solicitations and contracts where the total incurred costs are shared by the contractor on a straight percentage basis. The Contracting Officer may develop other clauses, as appropriate, following the same approach, but reflecting different cost-sharing arrangements negotiated on specific contract actions.

4. Subpart 1516.3 is amended by adding section 1516.370 to read as follows:

1516.370 Solicitation provision.

The solicitation document shall state whether any cost-sharing is required, and may set forth a target level of cost-sharing. Although technical considerations are normally most important, the degree of cost-sharing may be considered in a selection decision when cost becomes a determinative factor in a selection decision.

5. Part 1552 is amended to add section 1552.216-75 to read as follows:

1552.216-75 Estimated cost and cost-sharing.

As prescribed in 1516.307(c), insert a clause to read substantially the same as follows:

Estimated Cost and Cost-Sharing (Aug 1995)

(a) The total estimated cost of performing the work under this contract is \$_____. The Contractor's share of this cost shall not exceed \$_____. The Government's share of this cost shall not exceed \$_____.

(b) For performance of the work under the contract, the Contractor shall be reimbursed for not more than _____ percent of the cost of performance determined to be allowable under the Allowable Cost and Payment clause. The remaining balance of allowable cost shall constitute the Contractor's share.

(c) Fee shall not be paid to the prime contractor under this cost-sharing contract.

(d) The Contractor shall maintain records of all costs incurred and claimed for reimbursement as well as any other costs claimed as part of its cost share. Those records shall be subject to audit by the Government.

(e) Costs contributed by the Contractor shall not be charged to the Government under any other contract, grant or agreement (including allocation to other contracts as part of an independent research and development program) nor be included as contributions under any other Federal contract.

(End of Clause)
