**DEPARTMENT OF LABOR**

**Employment and Training Administration**

**Notice of Changes in Status of Extended Benefit (EB) Periods for the States of Alaska and Rhode Island**

This notice announces changes in benefit period eligibility under the EB Program for the States of Alaska and Rhode Island.

*Summary*

The following changes have occurred since the publication of the last notice regarding States' EB status:

- July 8, 1995—Alaska's 13-week insured unemployment rate for the week ending June 17, 1995 fell below 6.0 percent and was less than 120 percent of the average for the corresponding period for the prior two years, causing the State to trigger "off" EB effective July 8, 1995.
- July 8, 1995—Rhode Island triggered "off" EB. The EB trigger mechanisms for Rhode Island had been below the thresholds necessary to be triggered "on" to EB since the week beginning April 23, 1995. However, Section 203(b)(1)(A) of the Federal-State Extended Unemployment Compensation Act of 1970 specifies that no EB period shall last for less than 13 consecutive weeks, regardless of whether or not the necessary thresholds are met. That 13-week period ended for Rhode Island on July 8, 1995.

**Information for Claimants**

The duration of benefits payable in the EB Program, and the terms and conditions on which they are payable,

are governed by the Federal-State Extended Unemployment Compensation Act of 1970, as amended, and the operating instructions issued to the States by the U.S. Department of Labor. In the case of a State ending an EB period, the State employment security agency will furnish a written notice to each individual who is filing claims for Extended Benefits informing them of the ending of the EB period and its effect on the individual's right to Extended Benefits (20 CFR 615.13(c)(4)).

Persons who believe they may be entitled to EB benefits, or who wish to inquire about their rights under the programs, should contact the nearest State employment service office or unemployment compensation claims office in their locality.

Signed at Washington, D.C., on August 10, 1995.

**Timothy M. Barnicle,**

*Assistant Secretary of Labor for Employment and Training.*

BILLING CODE 4510-30-M

**Labor Surplus Area Classification Under Executive Orders 12073 and 10582; Annual List of Labor Surplus Areas**

**AGENCY:** Employment and Training Administration, Labor.

**ACTION:** Notice.

**DATES:** The annual list of labor surplus areas is effective until replaced by the new list to be effective October 1, 1995.

**SUMMARY:** The purpose of this notice is to announce the annual list of labor surplus areas.

**FOR FURTHER INFORMATION CONTACT:** William J. McGarrity, Labor Economist, USES, Employment and Training Administration, 200 Constitution Avenue, NW., Room N-4470, Attention: TEESS, Washington, DC 20210. Telephone: 202-219-5185.

**SUPPLEMENTARY INFORMATION:** Executive Order 12073 requires executive agencies to emphasize procurement set-asides in labor surplus areas. The Secretary of Labor is responsible under that Order for classifying and designating areas as labor surplus areas. Executive agencies should refer to Federal Acquisition Regulation Part 20 (48 CFR Part 20) in order to assess the impact of the labor surplus area program on particular procurements.

Under Executive Order 10582 executive agencies may reject bids or offers of foreign materials in favor of the lowest offer by a domestic supplier, provided that the domestic supplier

undertakes to produce substantially all of the materials in areas of substantial unemployment as defined by the Secretary of Labor. The preference given to domestic suppliers under Executive Order 10582 has been modified by Executive Order 12260. Federal Acquisition Regulation Part 25 (48 CFR Part 25) implements Executive Order 12260. Executive agencies should refer to Federal Acquisition Regulation Part 25 in procurements involving foreign businesses or products in order to assess its impact on the particular procurements.

The Department of Labor regulations implementing Executive Orders 12073 and 10582 are set forth at 20 CFR Part 654, Subparts A and B. Subpart A requires the Assistant Secretary of Labor to classify jurisdictions as labor surplus areas pursuant to the criteria specified in the regulations and to publish annually a list of labor surplus areas. Pursuant to those regulations the Assistant Secretary of Labor is publishing the annual list of labor surplus areas.

Subpart B of Part 654 states that an area of substantial unemployment for purposes of Executive Order 10582 is any area classified as a labor surplus area under Subpart A. Thus, labor surplus areas under Executive Order 12073 are also areas of substantial unemployment under Executive Order 10582.

The areas described below have been classified by the Assistant Secretary as labor surplus areas pursuant to 20 CFR 654.5(b) (48 FR 15615 April 12, 1983) and are effective August 21, 1995 through September 30, 1995.

The list of labor surplus areas is published for the use of all Federal agencies in directing procurement activities and locating new plants or facilities.

Signed at Washington, D.C. on August 8, 1995.

**Timothy M. Barnicle,**

*Assistant Secretary.*

[FR Doc. 95-20418 Filed 8-16-95; 8:45 am]

BILLING CODE 4510-30-P

**Mine Safety and Health Administration**

**Petitions for Modification**

The following parties have filed petitions to modify the application of mandatory safety standards under section 101(c) of the Federal Mine Safety and Health Act of 1977.

**1. Chenoa Coal, Inc.**

[Docket No. M-95-102-C]

Chenoa Coal, Inc., Box 101, Regina, Kentucky 41559 has filed a petition to modify the application of 30 CFR 75.1710-1 to its No. 3 Mine (I.D. No. 15-17656) located in Floyd County, Kentucky. The petitioner proposes to operate the following electric face equipment without canopies: One Joy 14CM-1 Continuous Miner; one Long Airdox Roof Bolter; two Joy 21 SC Shuttle Cars; and two 482 S & S Scoops. The petitioner states that due to ascending and descending grades creating dips in the coal bed, installation of canopies on this equipment would create hazardous conditions to the equipment operator and as well as to other employees in the mine.

**2. Coal Miners, Inc.**

[Docket No. M-95-103-C]

Coal Miners, Inc., Route 2, Box 130, Equality, Illinois 62934 has filed a petition to modify the application of 30 CFR 75.350 to its Eagle Valley Mine (I.D. No. 11-02846) located in Gallatin County, Illinois. The petitioner requests a modification to permit the use of air coursed through belt haulage entries to be used to ventilate active working places for a time period of 180 days from the date belt haulage is initiated in the Davis Seam. The petitioner proposes to install a low-level carbon monoxide detection system as an early warning fire detection system in the supply road with branches extended to the beltline at certain locations and located so that the air is monitored at each belt drive and tailpiece, and at intervals not to exceed 2,000 feet along each conveyor belt entry. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as would the mandatory standard.

**3. Old Hickory Coal Company**

[Docket No. M-95-104-C]

Old Hickory Coal Company, P.O. Box 305, Madison, West Virginia 25130 has filed a petition to modify the application of 30 CFR 77.1304(a) to its Peat's Branch No. 3 Mine (I.D. No. 46-06750) located in Logan County, West Virginia. The petitioner proposes to blend recycled oil, a petroleum-based lubrication oil recycled from equipment at the mine, with fuel oil to create a blasting agent (ANFO). The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as would the mandatory standard.

**4. Hobet Mining, Inc.**

[Docket No. M-95-105-C] and [Docket No. M-95-106-C]

Hobet Mining, Inc., P.O. Box 305, Madison, West Virginia 25130 has filed a petition to modify the application of 30 CFR 77.1304(a) to its No. 7 Surface Mine (I.D. No. 46-02249) located in Logan County, West Virginia, and its No. 21 Surface Mine (46-04670) located in Boone County, West Virginia. The petitioner proposes to blend recycled oil, a petroleum-based lubrication oil recycled from equipment at the mine, with fuel oil to create a blasting agent (ANFO). The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as would the mandatory standard.

**5. Heatherly Mining, Inc.**

[Docket No. M-95-107-C]

Heatherly Mining, Inc., P.O. Box 550, Henryetta, Oklahoma 74437 has filed a petition to modify the application of 30 CFR 75.1700 to its Pollyanna No. 8 Mine (I.D. No. 34-01787) located in Le Flore County, Oklahoma. The petitioner proposes to plug and mine through oil and gas wells. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as would the mandatory standard.

**6. Lambert Coal Company**

[Docket No. M-95-108-C]

Lambert Coal Company, P.O. Box 394, Nora, Virginia 24272 has filed a petition to modify the application of 30 CFR 75.1710 to its Mine No. 44 (I.D. No. 44-05210) located in Dickenson County, Virginia. The petitioner proposes to operate the following electric face equipment without canopies: One Simmons Rand 500 Continuous Miner; one Simmons Rand TD-2AM Dual Head Roof Bolter; two S & S 21SC Shuttle Cars; one S & S 74 Scoop; and one S & S 484 Scoop. The petitioner states that the use of canopies on this electric face equipment would create a hazard to the equipment operator.

**7. Key West Mining, Inc.**

[Docket No. M-95-109-C]

Key West Mining, Inc., P.O. Box 768, Grundy, Virginia 24614 has filed a petition to modify the application of 30 CFR 75.362 to its Mine No. 3 (I.D. No. 44-03264) located in Buchanan County, Virginia. The petitioner requests relief from the standard requiring on-shift examinations of underground conveyor belts in its entirety. The petitioner states that the area cannot be traveled safely due to deteriorating roof conditions in the No. 1 conveyor belt entry starting at a location approximately 170 feet from the surface and extending for a distance of approximately 90 feet. As an alternative, the petitioner proposes to visually examine the 90 feet area affected from either side of the adverse roof conditions; to have firefighting equipment with fog nozzles stationed on both sides of the adverse roof conditions; to install a mine phone and belt control switch on the inby end of the adverse roof conditions; and to have a certified person at the inby end of the adverse roof conditions at all times to conduct tests of the carbon monoxide level every 30 minutes while the No. 1 belt is in operation. The petitioner states that application of the standard would result in a diminution of safety to the miners. In addition, the petitioner
