Clean Air Act Approval and Promulgation of State Implementation Plan for North Dakota; Revisions to the Air Pollution Control Rules

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State implementation plan (SIP) revisions submitted by the State of North Dakota with letters dated June 26, 1990, June 30, 1992, and April 29, 1994. The revisions address air pollution control rules regarding general provisions; emissions of particulate matter and organic compounds; new source performance standards (NSPS); national emission standards for hazardous air pollutants (NESHAPs); construction and operating permit programs; prevention of significant deterioration (PSD) of air quality; and control of emissions from oil and gas well production facilities. The April 29, 1994 submittal also addressed the following two issues which will be acted on in separate documents: Revisions to the PSD rules with respect to PM₁₀ increments; and revisions to the visibility monitoring chapter of the SIP. Further, EPA is proposing to approve the State's construction permit and federally enforceable State operating permit (FESOP) programs under section 112(l) of the amended Clean Air Act (Act) for the purposes of creating federally enforceable permit conditions for sources of hazardous air pollutants (HAPs).

In the Final Rules Section of this **Federal Register**, EPA is acting on the State's SIP revisions as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for EPA's actions is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated and the direct final rule will become effective. If EPA receives adverse comments, the direct final rule will be withdrawn and all public

comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this document should do so at this time.

DATES: Comments on this proposed rule must be received in writing by September 20, 1995.

ADDRESSES: Written comments on this action should be addressed to Amy Platt, 8ART-AP, at the EPA Regional Office listed below. Copies of the State's submittal and documents relevant to this proposed rule are available for inspection during normal business hours at the following locations: Air Programs Branch, Environmental Protection Agency, Region VIII, 999 18th Street, suite 500, Denver, Colorado 80202-2405; and North Dakota State Department of Health and Consolidated Laboratories, Environmental Health Section, 1200 Missouri Avenue, Bismarck, North Dakota, 58502-5520.

FOR FURTHER INFORMATION CONTACT: Amy Platt, Environmental Protection Agency, (303) 293-1769.

SUPPLEMENTARY INFORMATION: See the information provided in the Direct Final action which is located in the Rules Section of this **Federal Register**.

Dated: July 14, 1995.
