BILLING CODE 3510-07-F

Agency Form Under Review by the Office of Management and Budget

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: Bureau of the Census.

Title: Quarterly Survey of Residential Alterations and Repairs.

Form Number(s): SORAR-705.

Agency Approval Number: 0607-0130.

Type of Request: Extension of a currently approved collection.

Burden: 2,000 hours.

Number of Respondents: 2,000.

Avg Hours Per Response: 15 minutes.

Needs and Uses: The Census Bureau conducts the Quarterly Survey of Residential Alterations and Repairs to collect information on real-property improvements and repairs from a sample of owners or designated representatives of rental or vacant residential housing units. We mail this survey quarterly to respondents over a one-year period. We use data gathered in this survey as a component to our published estimates of expenditures for residential upkeep and improvement. Data on improvements and repairs to owner occupied housing units are gathered in the Consumer Expenditures Survey and are also incorporated into published estimates. Estimates are used by a variety of private businesses and trade associations for marketing studies, economic forecasts, and assessments of the construction industry. They also provide all levels of government with a tool to evaluate economic policy and measure progress towards established goals. For example, the Bureau of Economic Analysis uses the improvement statistics to develop the structures component of gross private domestic investment in the national income and product accounts.

Affected Public: Individuals or households, Businesses or other for-

profit, and State, local or tribal governments.

Frequency: Quarterly.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Maria Gonzalez, (202) 395-7313.

Copies of the above information collection proposal can be obtained by calling or writing Gerald Taché, DOC Forms Clearance Officer, (202) 482-3271, Department of Commerce, room 5312, 14th and Constitution Avenue, NW, Washington, DC 20230.

Written comments and recommendations for the proposed information collection should be sent to Maria Gonzalez, OMB Desk Officer, room 10201, New Executive Office Building, Washington, DC 20503.

Dated: August 15, 1995.

Gerald Taché,

Departmental Forms Clearance Officer, Office of Management and Organization.

DEPARTMENT OF DEFENSE

Office of the Secretary

Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) Demonstration Project in Europe

AGENCY: Office of the Secretary, DoD.

ACTION: Notice of a CHAMPUS demonstration project to be implemented in Europe.

SUMMARY: On September 2, 1994, 59 FR 45668, DoD published a Notice of a CHAMPUS demonstration project to be implemented in Europe. This notice is to exercise the first of two option years for the CHAMPUS Demonstration Project in Europe.

While the U.S. Military European Health Care Delivery System has gone through many changes and adjustments over the past eighteen months, made necessary in great part due to the military force reductions in Europe, the Department has noted significant improvement in health care delivery services for its beneficiaries since the initiation of the demonstration project. Service members and their families, particularly those in remote areas, have experienced improved access to health care service. Billing practices, once a source of major dissatisfaction among local providers, have been streamlined, resulting in far fewer payment delays.

A firm foundation has now been established for European-wide TRICARE Preferred Provider Network, and many host nation health care providers, of all specialties, throughout Europe, are

interested in participating. While great strides have been made, the formalization and stabilization of the network remains to be accomplished. As earliest attention has been focused primarily on remote or underserved areas which have experienced significant reduction or elimination of military medical services, the progress which has been made to date is most encouraging. Although demonstration participation is limited to family members of active duty beneficiaries, the achievement of a sound network of providers will benefit immensely all of our beneficiaries in Europe. It is our intent to continue the great strides which have been made thus far as a result of this demonstration project and to build, during the next year, on the progress which has been made during the last.

EFFECTIVE DATE: October 1, 1995.

POINT OF CONTACT: Carol Ortega, Senior Health Policy Analyst, OASD(HA)(HSF Policy), (703) 697-8975.

Dated: August 15, 1995.

L.M. Bynum,

Alternate OSD Liaison Officer, Department of Defense.

BILLING CODE 5000-04-M

Department of the Army

Environmental Assessment for Disposal and Reuse of the Crime Records Center, Fort Holabird, Maryland

AGENCY: Department of the Army, Department of Defense.

ACTION: Notice of availability.

SUMMARY: In accordance with Public Law 100-526, the Defense Authorizations and Amendments and Base Closure and Realignment Act of 1988, the Defense Base Closure and Realignment Commission recommended the partial closure of Fort Holabird, Maryland, that houses the Crime Records Center. This recommendation became law on January 5, 1989.

The environmental assessment evaluates the environmental impacts associated with the disposal and reuse of the property after the partial closure of Fort Holabird. The Crime Records Center is to be realigned to Fort Belvoir, Virginia, as recommended by the Defense Base Closure and Realignment Commission. The environmental assessment evaluated two potential alternatives that were developed by the Army in cooperation with the City of Baltimore. No preferred alternative has been selected. Alternative 1 is to offer

the 6-acre parcel for sale on a competitive basis to the private sector for industrial development similar to that in the surrounding Fort Holabird Industrial Park. It is anticipated up to three industrial/manufacturing operations could be located on the property, associated parking facilities, and infrastructure. Access to the facility would be through the Fort Holabird Industrial Park on South Road.

Alternative 2 is to offer the 6-acre parcel for sale on a competitive bid basis to the private sector for development into a low density housing (4 units per acre) development, similar to that adjacent to the site. Under this alternative, approximately 24 homes and associated infrastructure would be constructed. Access to the housing development would be from Detroit Avenue and Oak Avenue.

The only alternative to the proposed action is the no-action alternative. Implementation of the no-action alternative would result in the facility remaining fenced, maintained by the Army and closed to the public. The Army would patrol the area periodically, maintain security, infrastructure and utilities, and structures to prevent deterioration of systems. Land management activities would continue to the extent necessary to prevent nuisance conditions. The proposed disposal/reuse of the 6-acre Crime Records Center parcel of Fort Holabird does not constitute a major federal action significantly affecting the human environment.

DATES: Written public comments and suggestions will be accepted on or before September 20, 1995.

ADDRESSES: Copies of the Environmental Assessment and Finding of No Significant Impact can be obtained by writing to the U.S. Army Corps of Engineers, Attn: Ms. Maria de la Torre (CENAB-PL-EM), P.O. Box 1715, Baltimore, Maryland 21203-1715, within 30 days of the date of publication of this notice.

FOR FURTHER INFORMATION CONTACT: Ms. Maria de la Torre at 410-962-4698.

Dated: August 15, 1995.

Raymond J. Fatz,

Acting Deputy Assistant Secretary of the Army (Environment, Safety and Occupational Health), OASA (IL&E).

BILLING CODE 3710-08-M

Record of Decision on the Final Environmental Impact Statement, Fort Devens, Massachusetts

AGENCY: Department of the Army, DoD.

ACTION: Notice of availability.

SUMMARY: In compliance with the National Environmental Policy Act and its implementing regulations promulgated by the President's Council on Environmental Quality, the Army has prepared a Record of Decision (ROD) pertaining to the Final Environmental Impact Statement (FEIS) for disposal and reuse of property at Fort Devens, Massachusetts. In the ROD the Army states its intention to retain a Reserve Enclave on the Main and South Posts of Fort Devens, and to dispose of the remaining excess property. Consistent with the President's Five-Point Initiative to Revitalize Base Closure Communities, which is intended to foster economic development and job creation, the Army will dispose of the property consistent with the requests received through the federal screening process; and transfer all remaining property to the Local Redevelopment Authority, the Massachusetts Government Land Bank, for use in conformance with the Reuse Plan and Bylaws approved by the Communities of Ayer, Harvard and Shirley.

Based on the ROD, the Army will initiate the property disposal process at Fort Devens consistent with the methodology described in the Environmental Impact Statement.

FOR FURTHER INFORMATION CONTACT: Ms. Susan E. Brown, New England Division, U.S. Army Corps of Engineers, 424 Trapelo Road, Waltham, MA 02254-9149 or call (617) 647-8536.

Dated: August 15, 1995.

Raymond J. Fatz,

Acting Deputy Assistant Secretary of the Army (Environment, Safety and Occupational Health), OASA (IL&E).

BILLING CODE 3710-08-M

DEPARTMENT OF ENERGY

Record of Decision; York County Energy Partners Cogeneration Facility, York County, Pennsylvania

AGENCY: Department of Energy.

ACTION: Record of Decision; York County Energy Partners Cogeneration Facility of the Clean Coal Technology Demonstration Program in North Codorus Township, York County, Pennsylvania.

SUMMARY: The Department of Energy (the Department) has prepared an Environmental Impact Statement (DOE/EIS-0221) to assess the environmental and human health impacts associated

with construction and operation of the York County Energy Partners, L.P. (YCEP) Cogeneration Facility on a 38-acre (15.4-hectare) parcel in North Codorus Township, York County, PA. After careful consideration of these impacts, along with Clean Coal Technology Program goals and objectives, the Department has decided to provide \$75 million (approximately 17 percent of total project cost) in federal funding support for the design, construction, and operation of a nominal 250-megawatt coal-fired, cogeneration facility demonstrating utility-scale atmospheric circulating fluidized bed (ACFB) technology.

Concerns were expressed by the Pennsylvania Game Commission regarding effects on wildlife habitats and by the Pennsylvania Bureau for Historic Resources on adverse impacts to historic properties. The Department met with the Pennsylvania Game Commission and received a list of mitigation measures the Commission believes would be adequate to mitigate the impacts to wildlife habitats on Game Commission lands. The Department also negotiated a Memorandum of Agreement with the Pennsylvania Bureau for Historic Resources that requires YCEP to perform nontraditional mitigation measures. To resolve issues related to volatile organic compound (VOC) emissions from the cooling tower, the Pennsylvania Department of Environmental Resources (PADER) incorporated mandatory monitoring requirements into the project's air permit, which was issued on July 25, 1995. These requirements, and any subsequent mitigation actions required through regulations, will be enforced through the air permit.

The Department's decision to provide cost-shared federal funding for the YCEP Cogeneration Facility is contingent on YCEP fulfilling its obligations to complete the actions described in this Record of Decision and in the Mitigation Action Plan prepared by the Department for this YCEP project.

FOR FURTHER INFORMATION CONTACT: For further information on the Department's activities related to this project, please contact Dr. Suellen A. Van Ooteghem, Environmental Project Manager, Morgantown Energy Technology Center, 3610 Collins Ferry Road, Morgantown, WV 26507-0880 or call (304) 285-5443.

For further information on the Department's National Environmental Policy Act process, please contact Carol M. Borgstrom, Director, Office of NEPA Policy and Assistance (EH-42), U.S. Department of Energy, 1000
