BILLING CODE 7590-01-P

Privacy Act of 1974, As Amended; Revisions to Existing System of Records

AGENCY: Nuclear Regulatory
Commission.

ACTION: Proposed revisions to an
existing system of records.

SUMMARY: In accordance with the
Privacy Act of 1974, as amended
(Privacy Act), the Nuclear Regulatory
Commission (NRC) is issuing public
notice of its intent to modify an existing
system of records, NRC-40, "Facility
Security Access Control Records—
NRC," to revise a number of categories
in the system notice, including
individuals covered by the system,
records contained in the system, record
source categories, authority,
retrievability, and safeguards. In
addition, the list of NRC building
locations contained in NRC's
compilation of systems of records
notices is being updated to reflect
current addresses.

EFFECTIVE DATE: The revisions will
become effective without further notice
on October 2, 1995, unless comments
received on or before that date cause a
contrary decision. If, based on NRC's
review of comments received, changes
are made, NRC will publish a new final
notice.

ADDRESSES: Send comments to the
Secretary of the Commission, U.S.
Nuclear Regulatory Commission,
Washington, DC 20555-0001, Attention:
Docketing and Services Branch. Hand
deliver comments to 11555 Rockville
Pike, Rockville, Maryland, between 7:45
am and 4:15 pm Federal workdays.
Copies of comments received may be
examined at the NRC Public Document
Room at 2120 L Street, NW., Lower
Level, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Jona
L. Souder, Freedom of Information/
Local Public Document Room Branch,
Division of Freedom of Information and
Publications Services, Office of
Administration, U.S. Nuclear Regulatory
Commission, Washington, DC 20555-
0001, telephone: 301-415-7170.

SUPPLEMENTARY INFORMATION: NRC is
proposing to amend the system notice
for NRC-40, "Facility Security Access
Control Records—NRC," to add
"approved visitors" as a new category of
individuals covered by the system.
NRC-40 currently contains information
on visitors in log entries and other
written materials not retrieved by name
or personal identifier. The records on
visitors are time consuming to complete
and review, and cumbersome to store.
The overall process is outdated. An
automated database for visitor
registrations with an advance notice
capability option available on NRC's
local area network is being developed to
alleviate this problem and to improve
processing and monitoring capabilities
of individuals entering NRC buildings.
Information in the visitor database will
be retrieved by the visitor's name,
employer's name, date of visit, and
sponsor's name.

The categories of records section in
the system is also being revised to
include information on approved
visitors and to add visitors as a record
source category. In addition, minor
changes are being made to other
sections of the system notice, including
authority, retrievability, and safeguards,
to make it more accurate and current.

A report on the proposed revisions to
this system of records, required by 5
U.S.C. 552a(r) and Office of
Management and Budget (OMB)
Circular No. A-130, is being sent to the
Committee on Governmental Affairs,
U.S. Senate; the Committee on
Government Reform and Oversight, U.S.
House of Representatives; and OMB.

The list of NRC building locations
contained in Addendum I to the NRC's
compilation of systems of records
notices that was published in the
Federal Register on July 7, 1993 (58 FR
36455), is being updated to reflect
current addresses.
