COUNCIL ON ENVIRONMENTAL QUALITY

Review of Climate Change Action Plan

AGENCY: Council on Environmental Quality.

ACTION: Request for public comment; notice of meeting.

SUMMARY: The Council on Environmental Quality (CEQ) is seeking comments from the public as part of its efforts to review and update the Climate Change Action Plan (CCAP). CEQ invites interested parties to provide comments on all aspects of the existing CCAP, and suggestions for its modification, for consideration by the Council as it conducts its biennial review of the plan. Comments should be submitted to CEQ at the address provided below by September 25, 1995.

FOR FURTHER INFORMATION CONTACT: Stephen R. Seidel, Special Coordinator for Climate Change, Council on Environmental Quality, 722 Jackson Place, NW, Washington, D.C. 20503. 202-395-3706.

SUPPLEMENTARY INFORMATION: In October 1993, President Clinton announced this nation's Climate Change Action Plan (CCAP). The CCAP had as its goal to

return greenhouse gas emissions to 1990 levels by the year 2000. To accomplish this objective, the plan laid out nearly 50 initiatives that relied extensively on innovative voluntary partnerships between the private sector and government aimed at producing cost-effective reductions in greenhouse gas emissions. It primarily focused on the creation of market incentives, rather than the imposition of new regulatory measures. The plan was comprehensive in scope. It covered all major greenhouse gases, contained activities in all major sectors emitting these compounds, focused on both reducing emissions and enhancing sinks, and contained measures aimed at reducing energy demand and expanding alternative sources of supply. Key elements of the plan are being undertaken by the Department of Energy, Department of Transportation, the Department of Agriculture, and the Environmental Protection Agency.

The CCAP also serves as a key element of the U.S. effort to meet its obligation to mitigate climate change under the Framework Convention on Climate Change.

The plan also called for biennial reviews of its implementation to determine what, if any, revisions might be required. The first such review of the plan has recently been initiated with a goal of issuing a report by December of this year. This notice is aimed at soliciting public comment on the plan and its implementation, and any suggestions for its modification.

Comments may address any aspect of the CCAP. The following issues are indicative of those that may be addressed during this review and for which comment is explicitly encouraged:

- To what extent have individual actions under the CCAP resulted in actions to reduce greenhouse gas emissions or to enhance sinks? What modifications in existing actions appear warranted?
- What additional cost-effective opportunities exist to achieve reductions in emissions or enhancements of sinks of greenhouse gases prior to the year 2000?
- What actions, not now included in the plan, might be possible that would achieve significant emission reductions or sink enhancements after the year 2000? How would they be implemented and what would be their likely costs and impacts on reducing greenhouse gas emissions or enhancing sinks?
- To what extent are modifications in the 1990 and 2000 baseline cases

(assuming no action was taken) required to reflect more recent information? What impact will such modifications have on the plan?

—Is the general approach of the action plan, which relies extensively on voluntary measures, appropriate in the near-term or in the period after the year 2000? What other general approaches exist and what would be the advantages and disadvantages of any alternative strategies?

—To what extent are modifications in the existing plan's 1990 and 2000 baseline cases (assuming no action was taken) required to reflect more recent information? What impact will such modifications have on the plan?

Written comments should be submitted in triplicate by September 25, 1995 to the address specified above. Comments will be kept on file and available for public inspection at CEQ's offices. A public meeting to present comments will be held on September 22, 1995 in the Truman Room at 726 Jackson Place, NW, Washington, DC at 9:00 a.m. Parties interested in making presentations should contact the CEQ official listed above ten days prior to the date of the hearing.

Dated: August 21, 1995.

Elisabeth Blaug,

Associate General Counsel, Council on Environmental Quality.

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

ACTION: Notice of proposed information collection requests.

SUMMARY: The Director, Information Resources Group, invites comments on proposed information collection requests as required by the Paperwork Reduction Act of 1980.

DATES: An expedited review has been requested in accordance with the Act, since allowing for the normal review period would adversely affect the public interest. Approval by the Office of Management and Budget (OMB) has been requested by August 31, 1995.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Dan Chenok, Desk Officer, Department of Education, Office of Management and Budget, 725 17th Street NW., Room 3208, New Executive Office Building, Washington, DC 20503.

Requests for copies of the proposed information collection request should be addressed to Patrick J. Sherrill, Department of Education, 600 Independence Avenue, SW., Room 5624, Regional Office Building 3, Washington, DC 20202-4651.

FOR FURTHER INFORMATION CONTACT:

Patrick J. Sherrill, (202) 708-9915.

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION: Section 3517 of the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 3517) requires that the Director of OMB provide interested Federal agencies and persons an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations.

The Director, Information Resources Group, publishes this notice with the attached proposed information collection request prior to submission of this request to OMB. This notice contains the following information: (1) Type of review requested, e.g., expedited; (2) Title; (3) Abstract; (4) Additional Information; (5) Frequency of collection; (6) Affected public; and (7) Reporting and/or Recordkeeping burden. Because an expedited review has been requested, a description of the information to be collected is also included as an attachment to this notice.

Dated: August 17, 1995.

Gloria Parker,

Director, Information Resources Group.

Office of The Secretary

Type of Review: Expedited

Title: Pre-Form Survey of Participants in the 1995 Goals 2000 Teacher Forum

Frequency: One Time

Affected Public: Individual or households; State, Local or Tribal Government

Reporting Burden:

DEPARTMENT OF ENERGY

Floodplain and Wetlands Involvement for the Proposed High Explosives Waste Water Treatment Facility at the Los Alamos National Laboratory

AGENCY: Department of Energy (DOE).

ACTION: Notice of floodplain and wetlands involvement.

SUMMARY: DOE is giving notice of floodplain and wetlands involvement for a proposal to improve its treatment of wastewater from high explosives (HE) research and development activities. The proposed High Explosives Wastewater Treatment Facility (HEWTF) project would focus on greatly reducing the amount of wastewater needing treatment. This would entail extensive process modifications, including installation of new equipment and improvements in existing systems. The thrust of these modifications would be to prevent hazardous chemicals and HE from entering the wastewater stream and to curtail water use in the HE operations. The result would be a reduction in wastewater discharges of approximately 90 percent from the current volume being discharged to wetlands located in the vicinity of the proposed facility in Los Alamos County, New Mexico. Remaining discharges would be primarily from stormwater run-off. In accordance with 10 CFR Part 1022, DOE will prepare a floodplain and wetlands assessment and include it in the Environmental Assessment (EA) being prepared for the proposed action.

DATES: Comments are due to the address below no later than September 8, 1995.

ADDRESSES: Comments should be addressed to:

Elizabeth Withers, Acting NEPA Compliance Officer, Office of Environment and Projects, Department of Energy, Los Alamos Area Office, 528 35th Street, Los Alamos, NM 87544, (505) 667-8690
