

vehicle safety standards shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115 (formerly section 114 of the Act), and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable Federal motor vehicle safety standards.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

Wallace Environmental Testing Laboratories, Inc. of Houston, Texas ("Wallace") (Registered Importer 90-005) has petitioned NHTSA to decide whether 1994 and 1995 Dodge Ram pickup trucks manufactured in Mexico are eligible for importation into the United States. The vehicles that Wallace believes are substantially similar are 1994 and 1995 Dodge Ram pickup trucks that were manufactured for sale in the United States and certified as conforming to all applicable Federal motor vehicle safety standards.

The petitioner claims that it carefully compared non-U.S. certified 1994 and 1995 Dodge Ram pickup trucks to their U.S. certified counterparts, and found the vehicles to be substantially similar with respect to compliance with most Federal motor vehicle safety standards.

Wallace submitted information with its petition intended to demonstrate that non-U.S. certified 1994 and 1995 Dodge Ram pickup trucks, as originally manufactured, conform to many Federal motor vehicle safety standards in the same manner as their U.S. certified counterparts, or are capable of being readily altered to conform to those standards.

Specifically, the petitioner claims that non-U.S. certified 1994 and 1995 Dodge Ram pickup trucks are identical to their U.S. certified counterparts with respect to compliance with Standard Nos. 101 *Controls and Displays*, 102 *Transmission Shift Lever Sequence* * * *, 103 *Defrosting and Defogging*

Systems, 104 *Windshield Wiping and Washing Systems*, 106 *Brake Hoses*, 107 *Reflecting Surfaces*, 108 *Lamps, Reflective Devices and Associated Equipment*, 109 *New Pneumatic Tires*, 111 *Rearview Mirror*, 113 *Hood Latch Systems*, 115 *Vehicle Identification Number*, 116 *Brake Fluid*, 118 *Power Window Systems*, 124 *Accelerator Control Systems*, 201 *Occupant Protection in Interior Impact*, 202 *Head Restraints*, 203 *Impact Protection for the Driver From the Steering Control System*, 204 *Steering Control Rearward Displacement*, 205 *Glazing Materials*, 206 *Door Locks and Door Retention Components*, 207 *Seating Systems*, 210 *Seat Belt Assembly Anchorages*, 211 *Wheel Nuts, Wheel Discs and Hubcaps*, 212 *Windshield Retention*, 214 *Side Impact Protection*, 216 *Roof Crush Resistance*, 219 *Windshield Zone Intrusion*, 301 *Fuel System Integrity*, and 302 *Flammability of Interior Materials*.

Additionally, the petitioner states that non-U.S. certified 1994 and 1995 Dodge Ram pickup trucks MPVs comply with the Bumper Standard found in 49 CFR Part 581.

Petitioner also contends that the vehicles are capable of being readily altered to meet the following standards, in the manner indicated:

Standard No. 105 *Hydraulic Brake Systems*: Inscription of the word "Brake" on the brake failure indicator light.

Standard No. 114 *Theft Protection*: Installation of a warning buzzer to be activated when the driver's door is opened with the key left in the ignition.

Standard No. 120 *Tire Selection and Rims for Motor Vehicles other than Passenger Cars*: Installation of a tire information placard.

Standard No. 208 *Occupant Crash Protection*: Installation of a driver's side air bag and knee bolster. The petitioner stated that the vehicles are equipped with Type 2 lap and shoulder belts at each outboard seating position and a Type 1 lap belt at each center seating position.

Standard No. 209 *Seat Belt Assemblies*: Replacement of the Type 2 lap and shoulder belts at each outboard seating position with U.S.-model components that bear the required markings.

Interested persons are invited to submit comments on the petition described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5109, 400 Seventh Street SW., Washington, DC 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the **Federal Register** pursuant to the authority indicated below.

Authority: 49 U.S.C. 30141(a)(1)(A) and (b)(1); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: August 21, 1995.

Marilynne Jacobs,

Director, Office of Vehicle Safety Compliance.
