BILLING CODE 6717-01-P

[Project No. 1218, Georgia]

Georgia Power Company; Notice of Scoping Pursuant to the National Environmental Policy Act of 1969

August 21, 1995.

Pursuant to the Energy Policy Act of 1992, and as part of the license application, the Georgia Power Company (Georgia Power) intends to prepare an Environmental Assessment (EA) to file with the Federal Energy Regulatory Commission for the Flint River Hydroelectric Project. Two public Scoping meetings will be held, pursuant to the National Environmental Policy Act of 1969, to identify the scope of environmental issues that should be analyzed in the EA. At the scoping meetings, Georgia Power will summarize the environmental issues tentatively identified for analysis in the EA; (2) solicit from the meeting participants all available information, especially qualified data, on the resources at issue; and (3) encourage statements from experts and the public on issues that should be analyzed in the EA.

All interested individuals, organizations, and agencies are invited and encouraged to attend and assist in

identifying and clarifying the scope of environmental issues that should be analyzed in the EA.

To help focus the discussions, a scoping document was sent out on August 10, 1995, as part of the Initial Stage Consultation Document (ISCD). Copies of the Scoping Document and ISCD will also be available at the meetings.

Georgia Power will conduct a site visit and scoping meetings on September 12, 1995. The site visit will begin at 10:00 a.m. at the Georgia Power—Albany Operating Headquarter in Albany, Georgia. A scoping meeting for federal, state and local resource agencies will be held at the Georgia Power—Albany Operating Headquarters at 2:00 p.m. The evening scoping meeting will be held on September 12 at 7 p.m. at the Ramada Inn, in Albany, Georgia. The site visit and scoping meetings are open to all interested parties.

Meeting Procedures

The meeting will be conducted according to the procedures used at Commission scoping meetings. Because this meeting will be a NEPA scoping meeting, the Commission will not conduct another NEPA scoping meeting when the application and EA are filed with the Commission in September 1999. Instead, Commission staff will attend the meetings held on September 12, 1995.

The meetings will be recorded by a stenographer and, thereby, will become a part of the formal record of the proceedings on the Flint River Project. Individuals presenting statements at the meetings will be asked to identify themselves for the record.

Concerned parties are encouraged to offer verbal guidance during public meetings. Speaking time allowed for individuals will be determined before each meeting, based on the number of persons wishing to speak and the approximate amount of time available for the session, but all speakers will be provided at least five minutes to present their views.

Persons choosing not to speak but wishing to express an opinion, as well as speakers unable to summarize their positions within the allotted time, may submit written statements for inclusion in the public record.

Written scoping comments may also be mailed to Georgia Power Company, 333 Piedmont Avenue NE, Bin 10170, Atlanta, Georgia 30308-3374. All correspondence should clearly show the following caption on the first page: Scoping Comments, Flint River Project, FERC No. 1218, Georgia.
