

guidelines issued by the technical working group on DNA analysis methods.

The meeting is open to the public on a first-come, first seated basis. Anyone wishing to address the DAB must notify the Designated Federal Employee (DFE) in writing at least twenty-four hours before the DAB meets. The notification must include the requestor's name, organizational affiliation, a short statement describing the topic to be addressed, and the amount of time requested. Oral statements to the DAB will be limited to five minutes and limited to subject matter directly related to the DAB's agenda, unless otherwise permitted by the Chairman.

Any member of the public may file a written statement for the record concerning the DAB and its work before or after the meeting. Written statements for the record will be furnished to each DAB member for their consideration and will be included in the official minutes of a DAB meeting. Written statements must be type-written on 8½" × 11" xerographic weight paper, one side only, and bound only by a paper clip (not stapled). All pages must be numbered. Statements should include the Name, Organizational Affiliation, Address, and Telephone number of the author(s). Written statements for the record will be included in minutes of the meeting immediately following the receipt of the written statement, unless the statement is received within three weeks of the meeting. Under this circumstance, the written statement will be included with the minutes of the following meeting. Written statements for the record should be submitted to the DFE.

Inquiries may be addressed to the DFE, Dr. Randall S. Murch, Chief, Scientific Analysis Section, Laboratory Division, Tenth Street Northwest, Washington, DC 20535, (202) 324-4416, FAX (202) 324-1462.

Dated: August 23, 1995.

Randall S. Murch,

Chief, Scientific Analysis Section, Federal Bureau of Investigation.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (95-08)]

NASA Advisory Council (NAC), Minority Business Resource Advisory Committee (MBRAC); Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public Law 92-463, as amended, the National Aeronautics and Space Administration announces a forthcoming meeting of the NASA Advisory Council, Minority Business Resource Advisory Committee.

DATES: September 27, 1995, 9 a.m. to 4 p.m.

ADDRESSES: NASA Headquarters, Room 9H40, Washington, DC 20546.

FOR FURTHER INFORMATION CONTACT: Mr. Ralph C. Thomas, III, Office of Small and Disadvantaged Business Utilization, National Aeronautics and Space Administration, Room 9K70, 300 E Street SW., Washington, DC 20546, (202) 358-2088.

SUPPLEMENTARY INFORMATION: The meeting will be open to the public up to the seating capacity of the room. The agenda for the meeting is as follows:

- Call to Order
- Reading of Minutes
- Update on NASA SDB Program
- Overview of proposed Space Shuttle contract consolidations
- Public Comment
- Proposed MBRAC Recommendations
- Subcommittee Reports
- New Business
- Adjourn

It is imperative that the meeting be held on this date to accommodate the scheduling priorities of the key participants. Visitors will be requested to sign a visitor's register.

Dated: August 24, 1995.

Danalee Green,

Chief, Management Controls Office.

[Notice (95-080)]

Notice of Prospective Patent License

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of prospective patent license.

SUMMARY: NASA hereby gives notice that Alan Neuman Productions, Inc., of Los Angeles, California, has requested an exclusive license to practice the invention described and claimed in U.S. Patent Application No. 08/298, 699, NASA Case No. MSC-22,360-1 entitled "Absorbent Pads for Containment, Neutralization and Clean-Up of Spills Containing Chemically Reactive Agents," which was filed on August 31, 1994, by the United States of America as represented by the Administrator of

the National Aeronautics and Space Administration. Written objections to the prospective grant of a license should be sent to Mr. Hardie R. Barr, Patent Attorney, NASA Johnson Space Center.

DATES: Responses to this Notice must be received by October 30, 1995.

FOR FURTHER INFORMATION CONTACT: Mr. Hardie R. Barr, NASA Johnson Space Center, Mail Code HA, Houston, TX 77058; telephone number (713) 483-1003.

Dated: August 22, 1995.

Edward A. Frankle,

General Counsel.

Notice of Prospective Patent License

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of prospective patent license.

SUMMARY: NASA hereby gives notice that LinCom Corporation of Houston, Texas, has requested a partially exclusive license to practice the invention described and claimed in U.S. Patent No. 5,311,422, entitled "General Purpose Architecture for Intelligent Computer Aided Training." This patent is assigned to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. Written objections to the prospective grant of a license should be sent to Mr. Hardie R. Barr, Patent Attorney, NASA Johnson Space Center.

DATES: Responses to this Notice must be received by October 30, 1995.

FOR FURTHER INFORMATION CONTACT:

Mr. Hardie R. Barr, NASA Johnson Space Center, Mail Code HA, Houston, TX 77058; telephone number (713) 483-1003.

Dated: August 22, 1995.

Edward A. Frankle,

General Counsel.

BILLING CODE 7510-01-M

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-498 and 50-499]

Houston Lighting & Power Company, City Public Service Board of San Antonio, Central Power and Light Company, City of Austin, Texas; South Texas Project, Units 1 and 2; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an exemption from the Commission's regulations at 10 CFR Part 50, Appendix J to Houston Lighting & Power Company (HL&P) acting on behalf of itself and for the City Public Service Board of San Antonio (CPS), Central Power and Light Company (CPL), and City of Austin, Texas (COA) (the licensees), for operation of the South Texas Project, Units 1 and 2, located in Matagorda County, Texas.

Environmental Assessment*Identification of the Proposed Action*

The proposed action would grant an exemption from a requirement of Section III.D.3 of Appendix J to 10 CFR Part 50, which requires that Type C tests shall be performed during each reactor shutdown for refueling but in no case at intervals greater than 2 years. This exemption would allow the licensee to perform the required Type C tests while the plant is at power.

The proposed action is in accordance with the licensee's application for exemption dated May 25, 1995.

The Need for the Proposed Action

Section III.D.3 of Appendix J to 10 CFR Part 50 states that Type C tests shall be performed during each reactor shutdown for refueling but in no case at intervals greater than 2 years. However, the licensee states that during shutdown, resources are at a premium. The licensee, therefore, desires the option to perform Type C testing at times other than during shutdown. The proposed exemption would allow the option to perform Type C testing at power. Minimal safety benefit would be realized by only performing the Type C tests during each reactor shutdown for refueling because the conditions of the testing are the same regardless of when it is performed. Without this exemption, the licensee would not be allowed to reduce an unintentional regulatory burden that has minimal impact on safety.

Environmental Impacts of the Proposed Action

The Commission has completed its evaluation of the proposed action and concludes that the exemption would not significantly increase the probability or amount of expected containment leakage, and that containment integrity would thus be maintained.

The change will not increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be released offsite, and there is no significant increase in the allowable individual or cumulative occupational radiation exposure. Accordingly, the Commission concludes that there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed action does involve features located entirely within the restricted area as defined in 10 CFR Part 20. It does not affect nonradiological plant effluents and has no other environmental impact. Accordingly, the Commission concludes that there are no significant nonradiological environmental impacts associated with the proposed action.

Alternatives to the Proposed Action

Since the Commission has concluded there is no measurable environmental impact associated with the proposed action, any alternatives with equal or greater environmental impact need not be evaluated. As an alternative to the proposed action, the staff considered denial of the proposed action. Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the "Final Environmental Statement related to the operation of South Texas Project, Units 1 and 2," dated August 1986.

Agencies and Persons Consulted

In accordance with its stated policy, on July 5, 1995, the staff consulted with the Texas State official, Arthur C. Tate of the Bureau of Radiation Control, Texas Department of Health, regarding the environmental impact of the proposed action. The State official had no comments.

Finding of no Significant Impact

Based upon the environmental assessment, the Commission concludes

that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated May 25, 1995, which is available for public inspection at the Commission's Public Document Room, The Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Wharton County Junior College, J.M. Hodges Learning Center, 911 Boling Highway, Wharton, TX 77488.

Dated at Rockville, Maryland, this 23rd day of August 1995.

For the Nuclear Regulatory Commission.

Thomas W. Alexion,

Project Manager, Project Directorate IV-1, Division of Reactor Projects, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

Nuclear Safety Research Review Committee

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of meeting.

The Nuclear Safety Research Review Committee (NSRRC) will hold its next meeting on September 25-26, 1995. The location of the meeting will be in Room T-2B3, Two White Flint North (TWFN) Building, 11545 Rockville Pike, Rockville, MD.

The meeting will be held in accordance with the requirements of the Federal Advisory Committee Act (FACA) and will be open to public attendance. The NSRRC provides advice to the Director of the Office of Nuclear Regulatory Research (RES) on matters of overall management importance in the direction of the NRC's program of nuclear safety research. The main purposes of this meeting are (a) to review the NRC's current safety research program plans and priorities based on user needs; (b) to discuss the nature and role of regulatory safety research in support of NRC regulatory responsibility; and (c) to discuss the NSRRC role in items (a) and (b).

The planned schedule is:

Monday, September 25

9:30-9:45 Introductory remarks

9:45-12:00 Nature and role of NRC research

1:15-5:30 Continued discussion on the nature and role of NRC research
