DEPARTMENT OF COMMERCE

International Trade Administration

[A-588-054]

Tapered Roller Bearings, Four Inches or Less In Outside Diameter, and Components Thereof, From Japan; Amendment to Affirmation of the Results of Redetermination Pursuant to Court Remand

AGENCY: Import Administration/ International Trade Administration, Department of Commerce.

SUMMARY: On January 18, 1995, the Department published the affirmation of its redetermination on remand of the final results of administrative review of the antidumping finding on tapered roller bearings, four inches or less in outside diameter, and certain components thereof (TRBs) from Japan (56 FR 26054, June 6, 1991) (*The Timken Company v. United States* (Slip Op. 94-41 (March 7, 1994)) (*Timken*). The results covered the period August 1, 1987, through July 31, 1988, and TRBs produced by Koyo Seiko Co., Ltd., and distributed by its subsidiary, Koyo Corporation of U.S.A. (collectively, Koyo), and by NSK Ltd., and distributed by its subsidiary, NSK Corporation (collectively, NSK). Based on the correction of a ministerial error, we have changed the margin for Koyo from 49.63 percent to 47.39 percent.

EFFECTIVE DATE: June 18, 1994.

FOR FURTHER INFORMATION CONTACT: Chip Hayes or John Kugelman, Office of Antidumping Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230, telephone: (202) 482-5253.

SUPPLEMENTARY INFORMATION:

Background

On January 18, 1995, the Department published in the **Federal Register** (60 FR 3624) the redetermination on remand of the final results of administrative review of the antidumping finding on TRBs from Japan pursuant to an affirmation from the Court of International Trade (CIT) in *Timken*. After publication of our redetermination of the final results,

ministerial errors were discovered regarding a failure to include changes that had been implemented in the Koyo programming from an earlier remand order by the CIT. We have corrected these errors by reinserting those programming changes for this remand.

Amended Redetermination of Final Results of Review

As a result of our corrections of the clerical errors, we have determined that a weighted-average margin of 47.39 percent exists for Koyo.

Given the fact that final margins have been published for subsequent administrative reviews of this proceeding, the dumping margins determined in this amended redetermination of final results notice will have no impact on the current cash deposit rates. The dumping margin for NSK, as stated in the January 18, 1995, redetermination on remand of the final results of this administrative review (60 FR 3624), remains in effect for assessment purposes.

Accordingly, the Department will continue the suspension of liquidation of the subject merchandise. Furthermore, absent an appeal, the Department will amend the final results of the administrative review of the antidumping finding on tapered roller bearings, four inches or less in outside diameter, and certain components thereof from Japan to reflect the amended margins of 47.39 percent for Koyo and 16.28 percent for NSK for the period August 1, 1987 through July 31, 1988, in the Department's redetermination on remand, as affirmed by the CIT.

Dated: May 5, 1995.

Susan G. Esserman,

Assistant Secretary for Import Administration.

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of finding; interim permit; request for comments.

SUMMARY: NMFS hereby issues an interim permit to those fisheries that have negligible impacts on marine

mammal stocks listed as threatened or endangered under the Endangered Species Act (ESA). This action allows the incidental, but not intentional, taking of these marine mammals in commercial fishing operations. Vessel owners in the specified fisheries must be registered under section 118 of the MMPA to be eligible for the interim permit for taking.

EFFECTIVE DATES: Effective September 1, 1995. Comments on the issuance of the interim permits must be received by October 16, 1995.

ADDRESSES: Send comments on the interim permits to Chief, Marine Mammal Division, Office of Protected Resources, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910. A copy of the negligible impact findings referred to in this notice may be obtained by writing to the above address.

SUPPLEMENTARY INFORMATION: Section 101(a)(5)(E) of the MMPA requires the authorization of the taking incidental to commercial fishing of individuals from marine mammal stocks listed as threatened or endangered under the ESA if it is determined that: (1) Incidental mortality and serious injury will have a negligible impact on the affected species or stock, (2) a recovery plan for that species or stock has been or is being developed, and (3) where required under section 118, a monitoring program has been established, vessels engaged in such fisheries are registered, and a take reduction plan has been or is being developed.

On June 16, 1995, NMFS published in the **Federal Register** proposed regulations to implement section 101(a)(5)(E) and section 118 of the MMPA in the **Federal Register**, and a proposed list of fisheries (LOF) that categorized all U.S. commercial fisheries into three groups based on the frequency of incidental mortality and serious injury of marine mammals (60 FR 31666). That notice also explained that separate permits would be required for fishers to incidentally take marine mammals from stocks listed as threatened or endangered under the ESA. On July 19, 1995, NMFS published a notice to correct errors in the proposed
