Chicago Operations Office; Financial Assistance Award; the Electrochemical Society, Inc.

AGENCY: U.S. Department of Energy.

ACTION: Intent to Award Based on an Unsolicited Application.

SUMMARY: The Department of Energy announces that pursuant to the provisions of 10 CFR 600.14, it intends to renew Grant No. DE-FG02-87CE34012 based on an unsolicited application received from the Electrochemical Society for the Electrochemical Society Summer Fellowship Program. The determination to renew this grant is based on the following information: A technical evaluation of the proposed project was performed pursuant to 10 CFR 600.14 (d). This renewal will provide five summer fellowships during 1996, 1997 and 1998 for students engaged in electrochemical research. The research will address energy-related aspects of electrochemical science and engineering, as well as solid state science and engineering relevant to batteries and fuel cells. Photoelectrochemistry and electrochemical processes in materials will also be explored with the goal being to reduce energy consumption. The objectives of this program are to increase students' awareness of the energy efficiency and renewable energy programs at DOE, contribute new understanding of basic phenomena related to electrochemical energy conversion, and provide training for new scientists and technologists in the field electrochemistry to ensure a continuing reservoir of electrochemical expertise. The probability of achieving the anticipated objectives is extremely high. The facilities and qualifications of the key personnel are appropriate. DOE knows of no other entity which is conducting or planning to conduct such an effort. The DOE share of funding is estimated at \$45,000 for the three year project period which shall go directly to the fellowship recipients in the form of five \$3,000 scholarships each year.
