Customs Regulatory Audit, in conjunction with other Customs disciplines, will determine if any verification effort is necessary to establish the accuracy of the details

submitted. The extent of the verification will be determined by Regulatory Audit, and if an audit is required, established Regulatory Audit procedures will be followed.

Eligibility Criteria

In order to qualify for this test of reconciliation, importers must have reason to believe they may invoke the IRS regulations to make upward adjustments to the price of the imported merchandise. Importers must provide, on an entry-by-entry basis, the electronic entry of merchandise and the electronic entry summary of required information (ABI). Other requirements and conditions are as follows:

2. Participants' tax year must end between October 31, 1995 and March 31, 1996.
3. Customs decision to allow a company to participate in the test program will be made in consultation with the Internal Revenue Service.
4. Each participant must provide U.S. Customs with the methodology that will be used to arrive at the final price of the imported merchandise.
5. Each participant agrees that appraisal is under section 402(f) of the Tariff Act of 1930, as amended by the Trade Agreements Act of 1979, if, in fact, an upward section 482 adjustment is made for tax purposes.
6. Entries involving merchandise under this test will not be eligible for drawback.

Selectivity Criteria

The Office of Regulatory Audit, in conjunction with other Customs disciplines, will review the application to ensure the eligibility requirements are met. All applicants who meet the eligibility criteria will be allowed to participate, provided no other Customs office objects.

Objectives of the Test

- The objectives of this test are:
1. To work with the trade community to further compliance in the value area regarding related party transactions.
 2. To allow companies intending to make Internal Revenue Service Section 482 adjustments, which may ultimately result in an upward adjustment to the price for merchandise, the opportunity to reconcile their business operations regarding U.S. Customs and Internal

Revenue Service requirements applicable to related party transactions.

3. To determine if reconciliation is a viable method to ensure a coordinated and consistent Customs response to Internal Revenue Section 482 adjustments which result in the upward adjustment of the Customs valuation under Section 1059A.

5. To test the type of information needed by Customs to process a reconciliation.

Test Evaluation Criteria

The criteria which will be used to evaluate whether or not reconciliation is a viable means to allow importers which make upward adjustments to the price of imported merchandise will be based on measurable outcomes which include:

1. The number of participants;
2. Customs resources expended to administer and monitor the program;
3. Customs resources expended to verify final reconciliation entry claims and the methodologies applied;
4. Amount of additional revenue collected;
5. Survey of participants on the conduct of the test and its effect on their business operations; and
6. IRS and Census satisfaction with the results of the test.
