

Proposed Rules

Federal Register

Vol. 60, No. 171

Tuesday, September 5, 1995

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 117

[CGD08-95-017]

RIN 2115-AE47

Drawbridge Operation Regulation; Sabine River, LA

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: At the request of the Kansas City Southern Railway Company, the Coast Guard is proposing a change to the regulation governing the operation of the swing span railroad bridge over the Sabine River, mile 36.2 near Ruliff, Texas, by permitting the draw to remain closed to navigation at all times. The draw presently opens on call with 24 hours advance notice, however, there is no significant navigation on the waterway and there have been no requests to open the bridge for passage of marine traffic for over 44 years with the exception of a single request made in 1995.

DATES: Comments must be received on or before November 6, 1995.

ADDRESSES: Comments should be mailed to Commander(ob), Eighth Coast Guard District, 501 Magazine Street, New Orleans, Louisiana 70130-3396 or may be delivered to Room 1313 at the same address between 8 a.m. and 3:30 p.m., Monday through Friday except Federal holidays. The comments and other materials referenced in this notice will be available for inspection and copying in room 1313 at this address. Normal office hours are between 8 a.m. and 3:30 p.m., Monday through Friday, except holidays.

FOR FURTHER INFORMATION CONTACT: Mr. John Wachter, Bridge Administration Branch, (504) 589-2965.

SUPPLEMENTARY INFORMATION:

Request for Comments: Interested parties are invited to participate in the rulemaking by submitting written views,

comments, or arguments. Persons submitting comments should include their names and addresses, identify the bridge and give the reason for concurrence with or any recommended change in this proposal. Persons desiring acknowledgment that their comments have been received should enclose a stamped, self-addressed postcard or envelope.

The Coast Guard plans no public hearing. Persons may request a public hearing by writing to Mr. John Wachter at the address under "ADDRESSES." The request should include reasons why a hearing would be beneficial. If it determines that the opportunity for oral presentations will aid this rulemaking, the Coast Guard will hold a public hearing at a time and place announced by a later notice in the **Federal Register**.

The Commander, Eighth Coast Guard District, will evaluate all communications received and determine a course of final action on this proposal. The proposed regulation may be changed in the light of comments received.

Drafting Information. The drafters of this regulation are Mr. John Wachter, Project Officer and Lieutenant Elisa Holland, Project Attorney.

Background and Purpose: Upon request by the bridge owner, the Coast Guard is proposing to permit the draw of the swing span railroad bridge over the Sabine River, mil. 36.2, near Ruliff, TX to remain permanently closed. Navigation requiring openings is nonexistent and the bridge has not been opened for passage of navigation for 44 years.

Discussion of Proposed Rules

There is no commercial navigation on the waterway in the vicinity of the bridge crossing. Vertical clearance of the bridge in the closed position is 4 feet above mean high water and 18 feet above low water. The occasional small recreational boat which uses the waterway can transit the bridge without requiring an opening. The single request in 1995 was made for a boat that was constructed upstream of the bridge over a period of several years. The private individual that constructed the vessel needed to move it to the mouth of the river for sale to a prospective buyer. The bridges were opened to pass this vessel. There are no known similar projects planned. This bridge is on the KCS

Main Line from Kansas City, Missouri to Beaumont and Houston, Texas and also forms an integral part of Union Pacific Railroad's transcontinental line from Los Angeles to New Orleans. This line carries over 30 million gross tons of freight each year. There is also a fiber optic cable mounted to the bridge which serves as part of a nationwide communications link. Permitting the permanent closure of the draw would result in a significant savings in maintenance costs and avoidance of an exorbitant cost of removing the cable with no adverse effect on navigational traffic.

Regulatory Evaluation

This proposal is not a significant regulatory action under Section 3(f) of Executive Order 12866 and does not require an assessment of potential cost and benefits under section 6(a)(3) of that order. It has not been reviewed by the Office of Management and Budget under that order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040); February 26, 1979).

The Coast Guard expects the economic impact of this rule to be so minimal that a full Regulatory Evaluation under paragraph 10e of the regulatory policies and procedures of DOT is unnecessary.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Coast Guard must consider whether this proposal, if adopted, will have a significant economic impact on a substantial number of small entities. "Small entities" may include (1) small businesses and not-for-profit organizations that are independently owned and operated and are not dominant in their fields and (2) government jurisdictions with populations of less than 50,000.

Since the proposed rule also considers the need of local commercial fishing vessels, the economic impact is expected to be minimal. Therefore, the Coast Guard certifies under 5 U.S.C. 605(b) that this proposal, if adopted, will not have a significant economic impact on a substantial number of small entities.

Collection of Information: This rule contains no collection of information requirements under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*).

Federalism Implications: This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that the proposed rulemaking does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environment: The Coast Guard considered the environmental impact of this proposal and concluded that, under section 2.B.2 of Commandant Instruction M16475.1B, this proposal is categorically excluded from further environmental documentation. A "Categorical Exclusion Determination" is available in the docket for inspection or copying where indicated under ADDRESSES.

List of Subjects in 33 CFR Part 117

Bridges.

For the reasons set out in the preamble, the Coast Guard proposes to amend Part 117 of Title 33, Code of Federal Regulations, as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

1. The authority citation for Part 117 continues to read as follows:

Authority: 33 U.S.C. 499; 49 CFR 1.46; 33 CFR 1.05-1(g); section 117.255 also issued under the authority of Pub. L. 102-587, 106 Stat. 5039.

2. Section 117.493 is revised to read as follows:

§ 117.493 Sabine River.

(a) The draw of the Southern Pacific railroad bridge, mile 19.3 near Echo, shall open on signal if at least 24 hours notice is given.

(b) The draw of the Kansas City Southern Railway bridge, mile 36.2 near Ruliff and the draw of the S12 bridge, mile 40.8, at Starks, need not be opened for the passage of vessels.

Dated: August 16, 1995.

R.C. North,

*Read Admiral, U.S. Coast Guard,
Commander, Eighth Coast Guard District.*

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[NC-71-1-6960b; FRL-5269-6]

Approval and Promulgation of Implementation Plans North Carolina: Approval of Revisions to the North Carolina State Implementation Plan

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: On October 14, 1994, the State of North Carolina, through the North Carolina Department of Environment, Health and Natural Resources, submitted revisions to the North Carolina State Implementation Plan (SIP). This revision is the adoption of an amendment to an existing air quality rule that was the subject of public hearings held on March 28 and 30, 1994. In the final rules section of this **Federal Register**, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the EPA views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: To be considered, comments must be received by October 5, 1995.

ADDRESSES: Written comments on this action should be addressed to Mr. Randy Terry at the EPA Regional Office listed below.

Copies of the documents relative to this action are available for public inspection during normal business hours at the following locations. The interested persons wanting to examine these documents should make an appointment with the appropriate office at least 24 hours before the visiting day.

Air and Radiation Docket and Information Center (Air Docket 6102), U.S. Environmental Protection Agency, 443, 401 M Street SW., Washington, DC 20460.
Environmental Protection Agency, Region 4 Air Programs Branch, 345

Courtland Street NE., Atlanta, Georgia 30365.
North Carolina Department of Environmental, Health, and Natural Resources, Division of Environmental Management, Raleigh, North Carolina 27626-0535.

FOR FURTHER INFORMATION CONTACT: Mr. Randy Terry, Regulatory Planning and Development Section, Air Programs Branch, Air, Pesticides, and Toxics Management Division, Region 4 Environmental Protection Agency, 345 Courtland Street, Atlanta, Georgia 30365. The telephone number is 404/347-3555, extension 4212.

SUPPLEMENTARY INFORMATION: For additional information see the direct final rule which is published in the rules section of this **Federal Register**.

Dated: July 25, 1995.

Patrick M. Tobin,

Acting Regional Administrator.

BILLING CODE 6050-50-P

40 CFR Part 52

[AK-8-1-6733b; FRL-5286-9]

Approval and Promulgation of State Implementation Plans: Alaska

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Oregon for the purpose of establishing a Small Business Stationary Source Technical and Environmental Compliance Assistance Program. The SIP revision was submitted by the State to satisfy the Federal mandate of the Clean Air Act (CAA), to ensure that small businesses have access to the technical assistance and regulatory information necessary to comply with the CAA. In the Final Rules Section of this **Federal Register**, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If the EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not
