These meetings will be open to the public on a space available basis for the purpose of planning for the future.

If, in the course of discussion, it becomes necessary for the Committee to discuss nonpublic commercial or financial information of intrinsic value, the committee will go into closed session pursuant to subsection (c)(4) of the Government in the Sunshine Act, 5 U.S.C. 552b.

Additionally, discussion concerning purely personal information about individuals, such as personal biographical and salary data or medical information, may be conducted by the committee in closed session, in accordance with subsection (c)(6) of U.S.C. 552b.

Any interested persons may attend as observers, on a space available basis, but seating is limited in meeting rooms and it is suggested that individuals wishing to attend notify the staff of the President's Committee in advance at (202) 682–5409 or write to the Committee at 1100 Pennsylvania Avenue, NW, Suite 526, Washington, DC 20506.

Dated: August 30, 1995.

Yvonne M. Sabine,

Director, Council and Panel Operations, National Endowment for the Arts.

BILLING CODE 7537-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 070-925]

Consideration of Amendment Request for Decommissioning the Cimarron Corporation Facility in Crescent, Okla., and Opportunity for Hearing

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of Consideration of Amendment Request for Decommissioning the Cimarron Corporation Facility in Crescent, Oklahoma, and Opportunity for Hearing.

The U.S. Nuclear Regulatory Commission is considering issuance of an amendment to Special Nuclear Material License No. SNM–928, issued to the Cimarron Corporation (the Licensee), for the decommissioning of its former nuclear fuel fabrication facility in Crescent, Oklahoma.

The Licensee requested the amendment in a letter dated May 4, 1995, requesting that License No. SNM–928 be amended to incorporate the decommissioning plan (DP) for the

Cimarron facility submitted to NRC in April 1995. Radioactive contamination at the Cimarron facility resulted from operations to produce enriched uranium reactor fuels conducted from 1965 through 1977. The Licensee also submitted a site characterization report in support of the DP. The license amendment would authorize the Licensee to decommission the Cimarron facility in accordance with the DP.

The NRC will require the Licensee to remediate the Cimarron facility to meet NRC's criteria, and, during the decommissioning activities, to maintain effluents and doses as low as reasonably achievable.

Prior to the issuance of the proposed amendment, NRC will have made findings required by the Atomic Energy Act of 1954, as amended, and NRC's regulations. These findings will be documented in a Safety Evaluation Report and an Environmental Assessment.

The NRC hereby provides notice that this is a proceeding on an application for a license amendment falling within the scope of Subpart L, Informal Hearing Procedures for Adjudications in Materials Licensing Proceedings, of NRC's rules and practice for domestic licensing proceedings in 10 CFR part 2. Pursuant to § 2.1205(a), any person whose interest may be affected by this proceeding may file a request for a hearing in accordance with § 2.1205(c). A request for a hearing must be filed within thirty (30) days of the date of publication of this Federal Register notice.

The request for a hearing must be filed with the Office of the Secretary either:

- 1. By delivery to the Docketing and Service Branch of the Office of the Secretary at One White Flint North, 11555 Rockville Pike, Rockville, MD 20852–2738; or
- 2. By mail or telegram addressed to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Attention: Docketing and Service Branch.

In addition to meeting other applicable requirements of 10 CFR part 2 of the NRC's regulations, a request for a hearing filed by a person other than an applicant must describe in detail:

- 1. The interest of the requestor in the proceeding;
- 2. How that interest may be affected by the results of the proceeding, including the reasons why the requestor should be permitted a hearing, with particular reference to the factors set out in § 2.1205(g);

- 3. The requestor's areas of concern about the licensing activity that is the subject matter of the proceeding; and
- 4. The circumstances establishing that the request for a hearing is timely in accordance with § 2.1205(c).

In accordance with 10 CFR 2.1205(e), each request for a hearing must also be served, by delivering it personally or by mail, to:

- 1. The applicant, Cimarron Corporation, Kerr-McGee Center, P.O. Box 25861, Oklahoma City, OK, 73125, Attention: Mr. Jess Larsen, and
- 2. The NRC staff, by delivery to the Executive Director for Operations, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852, or by mail, addressed to the Executive Director for Operations, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

For further details with respect to this action, the application for amendment request is available for inspection at the Commission's Public Document Room, 2120 L Street NW., Washington, DC 20555.

Dated at Rockville, MD, this 23rd day of August 1995.

For the Nuclear Regulatory Commission. **Michael F. Weber.**

Chief, Low-Level Waste and Decommissioning Projects Branch, Division of Waste Management, Office of Nuclear Material

[Docket No. 50-344]

Safety and Safeguards.

Portland General Electric Co.; Trojan Nuclear Power Station; Federal Court Decision and Opportunity for Public Comments

On July 20, 1995, the United States Court of Appeals for the First Circuit issued a decision granting a petition by the Citizens Awareness Network ("CAN") for review of a decision by the Nuclear Regulatory Commission. See Citizens Awareness Network, Inc. v. NRC. No. 94-1562, 1995 WL 419188 (1st Cir., July 20, 1995). The First Circuit found that the Commission erred when it rejected CAN's request for a hearing on the component removal project ("CRP") that Yankee Atomic Electric Power Company ("YAEC") is carrying out as part of decommissioning the Yankee Nuclear Power Station, located in Rowe, Massachusetts. The Court held that "CAN was entitled to a hearing under section 189a [of the Atomic Energy Act of 1954] in connection with the NRC decision to permit YAEC's early CRP." Slip op. at 26. The Court also held that
