

(e) The Plan will not be required to pay any fees or commissions in connection with the redemption of the stock or the administration of the note.

(f) Boatmen's will hold certificates representing the stock in an escrow account until TSC pays the redemption price for the stock in full.

(g) The Plan will increase its liquidity and investment yield by disposing of an asset and receive cash to promote greater asset diversification.

Notice to Interested Persons

Because Mr. Hardgree is the only participant in the Plan who will be affected by the proposed transactions, it has been determined that there is no need to distribute the notice of pendency to interested persons. Therefore, comments and requests for a public hearing are due 30 days from the date of publication of this notice of proposed exemption in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Ms. Jan D. Broady of the Department, telephone (202) 219-8881. (This is not a toll-free number.)

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest of disqualified person from certain other provisions of the Act and/or the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(b) of the act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) Before an exemption may be granted under section 408(a) of the Act and/or section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan;

(3) The proposed exemptions, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and/or the Code,

including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction; and

(4) The proposed exemptions, if granted, will be subject to the express condition that the material facts and representations contained in each application are true and complete and accurately describe all material terms of the transaction which is the subject of the exemption. In the case of continuing exemption transactions, if any of the material facts or representations described in the application change after the exemption is granted, the exemption will cease to apply as of the date of such change. In the event of any such change, application for a new exemption may be made to the Department.

Signed at Washington, DC, this 31st day of August, 1995.

Ivan Strasfeld,

*Director of Exemption Determinations
Pension and Welfare Benefits Administration,
U.S. Department of Labor.*

NUCLEAR REGULATORY COMMISSION

[Docket No. 070-925]

Consideration of Amendment Request for Decommissioning the Cimarron Corporation Facility in Crescent, Okla., and Opportunity for Hearing

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of Consideration of Amendment Request for Decommissioning the Cimarron Corporation Facility in Crescent, Oklahoma, and Opportunity for Hearing.

The U.S. Nuclear Regulatory Commission is considering issuance of an amendment to Special Nuclear Material License No. SNM-928, issued to the Cimarron Corporation (the Licensee), for the decommissioning of its former nuclear fuel fabrication facility in Crescent, Oklahoma.

The Licensee requested the amendment in a letter dated May 4, 1995, requesting that License No. SNM-928 be amended to incorporate the decommissioning plan (DP) for the

Cimarron facility submitted to NRC in April 1995. Radioactive contamination at the Cimarron facility resulted from operations to produce enriched uranium reactor fuels conducted from 1965 through 1977. The Licensee also submitted a site characterization report in support of the DP. The license amendment would authorize the Licensee to decommission the Cimarron facility in accordance with the DP.

The NRC will require the Licensee to remediate the Cimarron facility to meet NRC's criteria, and, during the decommissioning activities, to maintain effluents and doses as low as reasonably achievable.

Prior to the issuance of the proposed amendment, NRC will have made findings required by the Atomic Energy Act of 1954, as amended, and NRC's regulations. These findings will be documented in a Safety Evaluation Report and an Environmental Assessment.

The NRC hereby provides notice that this is a proceeding on an application for a license amendment falling within the scope of Subpart L, Informal Hearing Procedures for Adjudications in Materials Licensing Proceedings, of NRC's rules and practice for domestic licensing proceedings in 10 CFR part 2. Pursuant to § 2.1205(a), any person whose interest may be affected by this proceeding may file a request for a hearing in accordance with § 2.1205(c). A request for a hearing must be filed within thirty (30) days of the date of publication of this **Federal Register** notice.

The request for a hearing must be filed with the Office of the Secretary either:

1. By delivery to the Docketing and Service Branch of the Office of the Secretary at One White Flint North, 11555 Rockville Pike, Rockville, MD 20852-2738; or
2. By mail or telegram addressed to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Attention: Docketing and Service Branch.

In addition to meeting other applicable requirements of 10 CFR part 2 of the NRC's regulations, a request for a hearing filed by a person other than an applicant must describe in detail:

1. The interest of the requestor in the proceeding;
2. How that interest may be affected by the results of the proceeding, including the reasons why the requestor should be permitted a hearing, with particular reference to the factors set out in § 2.1205(g);

3. The requestor's areas of concern about the licensing activity that is the subject matter of the proceeding; and

4. The circumstances establishing that the request for a hearing is timely in accordance with § 2.1205(c).

In accordance with 10 CFR 2.1205(e), each request for a hearing must also be served, by delivering it personally or by mail, to:

1. The applicant, Cimarron Corporation, Kerr-McGee Center, P.O. Box 25861, Oklahoma City, OK, 73125, Attention: Mr. Jess Larsen, and

2. The NRC staff, by delivery to the Executive Director for Operations, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852, or by mail, addressed to the Executive Director for Operations, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

For further details with respect to this action, the application for amendment request is available for inspection at the Commission's Public Document Room, 2120 L Street NW., Washington, DC 20555.

Dated at Rockville, MD, this 23rd day of August 1995.

For the Nuclear Regulatory Commission.

Michael F. Weber,

Chief, Low-Level Waste and Decommissioning Projects Branch, Division of Waste Management, Office of Nuclear Material Safety and Safeguards.

[Docket No. 50-344]

Portland General Electric Co.; Trojan Nuclear Power Station; Federal Court Decision and Opportunity for Public Comments

On July 20, 1995, the United States Court of Appeals for the First Circuit issued a decision granting a petition by the Citizens Awareness Network ("CAN") for review of a decision by the Nuclear Regulatory Commission. See *Citizens Awareness Network, Inc. v. NRC*, No. 94-1562, _____ F.3d _____, 1995 WL 419188 (1st Cir., July 20, 1995). The First Circuit found that the Commission erred when it rejected CAN's request for a hearing on the component removal project ("CRP") that Yankee Atomic Electric Power Company ("YAEC") is carrying out as part of decommissioning the Yankee Nuclear Power Station, located in Rowe, Massachusetts. The Court held that "CAN was entitled to a hearing under section 189a [of the Atomic Energy Act of 1954] in connection with the NRC decision to permit YAEC's early CRP." Slip op. at 26. The Court also held that
