and Community Service*

Issuing Notice: Training Conference
Evaluation.

Title of Forms: Training Conference
Evaluation.

Need and Use: CNS's legislation authorizes it to provide technical assistance to agencies and non-profit organizations which sponsor CNS programs and projects. Information gathered in this information collection will be used to plan and make changes in future training conferences for sponsors and directors of CNS programs.

Type of Request: Reinstatement of a previously approved data collection for which approval has expired.

Respondent's Obligation to Reply:
Voluntary.

Frequency of Collection: Once a year.

Estimated Number of Responses:
2,687.

Average Burden Hours per Response:
0.25 hours.

*Estimated Annual Reporting or
Disclosure Burden:* 672 hours.

Regulatory Authority: 42 U.S.C. 4993
and 42 U.S.C. 12653.

Dated: September 1, 1995.

Lance Potter,

Director, Office of Evaluation.

DEPARTMENT OF DEFENSE

Corps of Engineers

Intent To Prepare a Draft Environmental Impact Statement (DEIS) for the Morganza, Louisiana, to the Gulf of Mexico Feasibility Study

AGENCY: U.S. Army Corps of Engineers,
DoD.

ACTION: Notice of intent.

SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act (NEPA) of 1969, as amended, the U.S. Army Corps of Engineers (COE) will prepare a draft environmental impact statement (EIS) to analyze the direct and indirect beneficial and adverse impacts of implementing a proposed hurricane protection project in Terrebonne and Lafourche Parishes, Louisiana. The purposes of the proposed action are to provide protection to existing development from tropical storm and hurricane-induced tidal flooding such as that which occurred during Hurricane Andrew, and to protect coastal wetlands from hurricane surges in a portion of Terrebonne Parish, Louisiana. The proposed action would consist of upgrading many existing forced-drainage-system levees; using permitted and/or installed flood-control features (e.g., floodgates); constructing some new levees and water-control structures; and closing the water-control structures and flood gates in a coordinated manner in the event of tropical storm or hurricane tidal surges.

FOR FURTHER INFORMATION CONTACT:

Questions regarding the EIS may be directed to Mr. Robert Martinson, CELMN-PD-RS, U.S. Army Corps of Engineers, P.O. Box 60267, New Orleans, Louisiana 70160-0267, telephone: (504) 862-2582.

Questions regarding the proposed action may be directed to Mr. Troy Constance, CELMN-PD-FB, U.S. Army Corps of Engineers, P.O. Box 60267, New Orleans, Louisiana 70160-0267, telephone: (504) 862-2742.

SUPPLEMENTARY INFORMATION: A similar flood protection plan has been proposed by the South Terrebonne Tidewater Management and Conservation District (STTMCD). A Notice of Intent to prepare an EIS for the STTMCD plan under the COE Regulatory Program was issued on April 7, 1993 (**Federal Register**, Volume 58, Number 65, pp. 18084-18085). Because the underlying purposes of the two proposed actions are the same, and in the interest of cost effectiveness, one EIS will be prepared rather than two.

Proposed Action

The STTMCD proposed action would consist of upgrading many existing forced-drainage-system levees from near Larose at the eastern end to Waterproof on the western end; using permitted and/or installed flood-control features (e.g., floodgates) in the area; constructing some new levees and water-control structures, particularly in the Lake gates in a coordinated manner in the event of tropical storm or

hurricane tidal surges. The flood gates and water control structures would normally be left open for navigation and tidal ingress and egress. Several communities, including the City of Houma, Dulac, Chauvin, and Montegut, would receive protection from the proposed action.

Alternatives

The no-action alternative must be evaluated. Additionally, several levee alignments around the Lake Boudreaux area will be evaluated, including the STTMCD plan. Non-structural solutions to protecting existing development will also be evaluated.

On May 12, 1993, the COE held a formal NEPA scoping meeting at Houma, Louisiana, for the previously announced regulatory EIS. Fifty-two individuals registered at the meeting. Questions and issues of concern were solicited at the meeting and a summary of the results was made available to participants on April 12, 1994. One of the main areas of concern brought out during the 1993 scoping was potential impacts to Lake Boudreaux, surrounding marshes, and associated marine organisms. Additional meetings with local interests from the various bayou areas will be held in the near future, and leadership and work group meetings will continue to be held to keep the public informed and involved.

The COE does not plan to hold additional formal NEPA scoping meetings at this time, but meetings will continue to be held throughout the planning process, as discussed above.

A draft EIS is scheduled to be available for public review during January 1998.

Kenneth H. Clow,

Colonel, U.S. Army, District Engineer.

Department of the Air Force

Notice of Intent to Prepare an EIS for a Proposed Golf Course

The Department of the Air Force is issuing this notice to advise the public that an environmental impact statement (EIS) will be prepared for a golf course adjacent to Luke Air Force Base in Arizona.

Luke Air Force Base (AFB) will prepare an EIS on a proposal to construct and operate a golf course and related facilities including a clubhouse, cart storage building, and maintenance building. The golf course will occupy 155 acres in Maricopa County, Arizona, on the northeast corner of Northern

Avenue and Reems Road west of Phoenix. The proposed site, which will soon be deeded to Luke AFB, was used for agricultural purposes in the past. Currently, the site is undergoing construction of the Dysart Drain Improvement Project, which includes a 160-acre detention basin designed to alleviate flooding of the military base property and facilities.

The project is being proposed so that the detention basin provides multiple purpose benefits. It is common practice in the Southwest to place recreational facilities, such as golf courses, in detention basins. Surveys show a high demand for golf by the Luke AFB population, which includes approximately 30,000 active duty and family members as well as military retirees and Department of Defense civilian employees that work at the base. Currently, the eligible members of the Luke AFB population have no military golf alternatives. The competitive environment for golf in the Phoenix metropolitan area make golf unaffordable to many military members as market rates range from \$40 to \$100 per round during winter months when weather in the area is most conducive for golf.

All potential significant environmental effects will be discussed in the EIS. These include air quality impacts from fugitive dust and various construction emissions generated during the construction period, an analysis of the potential effects caused by increased traffic volume in the area, and the potential for contamination of the detention basin by pesticides and fertilizers used in golf course maintenance.

The only alternative to this action is the no-action alternative, which leaves the site serving as a detention basin without a golf course.

The proposed action would not commence until after completion of the Dysart Drain Improvement Project, which is scheduled for 1997. It is estimated that the time frame for construction of the golf course and its related facilities would take 13 months.

Prior to any construction efforts, and accompanying preparation of the EIS, a public involvement plan will be implemented to solicit public opinion of the proposed action. A public scoping meeting is scheduled for 7:00 p.m. on Tuesday, September 12, 1995 at the Litchfield Park Recreation Center Community Room, 100 South Old Litchfield Road.

To ensure that all significant issues regarding the proposed action and the EIS are identified, comments and questions are invited from all interested

parties, and should be addressed to Luke AFB at the address below:

Lisa Q. Carlson, Natural Resources Planner, 56 CES/CEVN, 14002 West Marauder Street, Luke Air Force Base, Arizona 85309-1125, Telephone (602) 856-3823

Patsy J. Conner,

Air Force Federal Register Liaison Officer.

BILLING CODE 3910-01-P

Department of the Navy

Community Redevelopment Authority and Available Surplus Buildings and Land at Military Installations Designated for Closure: Naval Station, Long Beach, CA

AGENCY: Department of the Navy, DOD.

ACTION: Notice.

SUMMARY: This Notice provides information regarding the redevelopment authority established to plan the reuse of the former Naval Station, Long Beach, CA, the surplus property that is located at that base closure site, and the timely election by the redevelopment authority to proceed under the Base Closure Community Redevelopment and Homeless Assistance Act of 1994.

FOR FURTHER INFORMATION CONTACT: John J. Kane, Director, Department of the Navy, Real Estate Operations Division, Naval Facilities Engineering Command, 200 Stovall Street, Alexandria, VA 22332-2300, telephone (703) 325-0474, or LCDR April Heinze, Base Closure Manager, Southwest Division, Naval Facilities Engineering Command, 1420 Kettner Blvd., suite 507, San Diego, CA 92101-2404, telephone (619) 556-0259. For detailed information regarding particular properties identified in this Notice (i.e., acreage, floor plans, condition, exact street address, etc.), contact Lieutenant Commander Kevin Barre, Base Transition Coordinator, Long Beach Naval Shipyard, Building 5, Long Beach, CA 90822-5080, telephone (310) 547-6875.

SUPPLEMENTARY INFORMATION: In 1991, the Naval Station, Long Beach, CA, was designated for closure pursuant to the Defense Base Closure and Realignment Act of 1990, Public Law 101-510, as amended. This notice relates to three parcels of the property which formed a part of that installation, i.e., the Savannah/Cabrillo family housing complex, the Ocean Boulevard parcel, and the Navy Mole and transportation corridor parcel. On March 4, 1993, and April 21, 1994, respectively, the land and facilities located at the Savannah/

Cabrillo complex and the Ocean Boulevard parcel were determined to be surplus to the needs of the federal government and available for use by state and local governments, representatives of the homeless and other interested parties. In August 1995, the Navy Mole and transportation corridor were also determined to be surplus to the needs of the federal government.

Election to Proceed Under New Statutory Procedures

Subsequently, the Base Closure Community Redevelopment and Homeless Assistance Act of 1994 (Public Law 103-421) was signed into law. Section 2 of the Act gives the redevelopment authority at base closure sites the option of proceeding under new procedures with regard to the manner in which the redevelopment plan for the base is formulated and how requests are made for future use of the property by homeless assistance providers and non-federal public agencies. Accordingly, this notice of information regarding the redevelopment authority fulfills the **Federal Register** publication requirement of Section 2(e)(3) of the Base Closure Community Redevelopment and Homeless Assistance Act of 1994.

Also, pursuant to paragraph (7)(B) of Section 2905(b) of the Defense Base Closure and Realignment Act of 1990, as amended by the Base Closure Community Redevelopment and Homeless Assistance Act of 1994, the following information regarding the surplus property at the former Naval Station, Long Beach, is published in the **Federal Register**:

Redevelopment Authority

The redevelopment authority for the Savannah/Cabrillo housing complex, Ocean Boulevard parcel, and the Mole and transportation corridor at the former Naval Station, Long Beach, for purposes of implementing the provisions of the Defense Base Closure and Realignment Act of 1990, as amended, is the City of Long Beach. The City has established a local community advisory committee to provide recommendations to the City concerning the redevelopment plan. This committee is known as the "Naval Properties Reuse Committee." Day-to-day operations of the committee are handled by Mr. Gerald Miller. The address of the committee is Economic Development Bureau, City of Long Beach, 200 Pine Avenue, Suite 400, Long Beach, CA 90802, Telephone (310) 570-3851, facsimile (310) 570-3897.
