Congressional staff members will be invited to provide their views on pending legislation that may affect the nuclear waste program. The Board also will hear about the National Academy of Sciences report on release standards for Yucca Mountain and the DOE's reaction to the report. The Electric Power Research Institute will provide an analysis of different proposed standards. At the end of the day, there will be a round-table discussion of strategic developments and concerns.

Performance assessment will be covered on the second day of the meeting, including a detailed look at the OCRWM's Total System Performance Assessment 1995 for the Yucca Mountain site. Additional presentations and a round-table discussion on making the best use of performance assessment will conclude the day's activities.
