BILLING CODE 6450-01-P

[FE Docket No. PP-107]

Application for Presidential Permit, Arizona Public Service Company

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: Arizona Public Service Company (APS) has applied for a Presidential Permit in order to construct a new transmission facility at the U.S. border with Mexico.

DATES: Comments, protests or requests to intervene must be submitted on or before October 10, 1995.

ADDRESSES: Comments, protests or requests to intervene should be addressed as follows: Office of Coal & Electricity (FE-52), Office of Fuels Programs, Office of Fossil Energy, Department of Energy, 1000 Independence Avenue, SW, Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Warren E. Williams (Program Office) 202-586-9629 or Mike Skinker (Program Attorney) 202-586-6667.

SUPPLEMENTARY INFORMATION: The construction, connection, operation, and maintenance of facilities at the international border of the United States for the transmission of electrical energy is prohibited in the absence of a Presidential permit pursuant to Executive Order No. 12038. Exports of electricity from the United States to a foreign country are also regulated and require authorization under section 202(e) of the Federal Power Act.

On June 22, 1995, APS filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE) for a Presidential permit. This application has been docketed as PP-107. In its application, APS proposes to tap an existing 34.5-kilovolt (kV) line that originates at the existing Fairview Substation in Douglas, Arizona, and to extend the tap approximately 4,000 feet to the international border adjacent to Agua Prieta, Sonora, Mexico. The Fairview substation will be upgraded by adding a transformer and other equipment in order to accommodate the proposed facilities. The proposed power line structures are to be located within a state highway right-of-way.
