SUPPLEMENTARY INFORMATION:

Background and Purpose

On August 9, 1995, the Coast Guard published a Notice of proposed rulemaking (NPRM) in the **Federal Register** (60 FR 40543). The proposal was to establish a temporary safety zone in all waters of Hempstead Harbor, shore to shore, within a 300 yard radius of a fireworks barge anchored approximately 300 yards north of Bar Beach, Port Washington, New York, at or near 40°49'52" N Latitude, 073°39'10" W longitude (NAD 1983). The safety zone was to be in effect from 9 p.m. until 10:15 p.m. on September 10, 1995, unless extended or terminated sooner by the Captain of the Port New York. No comments were received in response to the NPRM.

On August 14, 1995, Fireworks by Grucci, Inc. informed the Coast Guard that the location of the fireworks program was changed from Hempstead Harbor to a point on land in the vicinity of Bar Beach, Port Washington, New

York. The fireworks program will no longer require a safety zone. Therefore, this rulemaking is no longer necessary and the Coast Guard is terminating further rulemaking under docket number CGD01-95-123.

Dated: September 6, 1995.

T.H. Gilmour,

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed rulemaking.

SUMMARY: The EPA proposes approval of the State implementation plans (SIP) submitted by the State of Connecticut for the purpose of bringing about the attainment of the national ambient air quality standard (NAAQS) for carbon monoxide (CO). The implementation plans were submitted by the State to satisfy the requirements of Sections 187(a)(2)(A), 187(a)(3), 187(a)(7) and 211(m) of the Clean Air Act for an approvable nonattainment area CO SIP for Connecticut's portion of the New York-New Jersey-Connecticut CO nonattainment area. This action is being taken under Section 110 of the Act. The rationale for the approval is set in this document, additional information is available at the address indicated below.

DATES: Comments on this proposed action must be received in writing by October 16, 1995.

ADDRESSES: Comments may be mailed to Susan S. Studlien, Director, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region I, JFK Federal Bldg. (AAA), Boston, MA 02203. SUPPLEMENTARY INFORMATION: On January 12, 1993, January 14, 1993, April 7, 1994, and August 1, 1995, the Connecticut Department of Environmental Protection (DEP) submitted a revision to its State Implementation Plan (SIP) for air quality. The revision is designed to satisfy the requirements of Sections 187(a)(2)(A), 187(a)(3), 187(a)(7) and 211(m) of the Clean Air Act, as amended in 1990 (CAA).

I. Background

The air quality planning requirements for moderate CO nonattainment areas are set out in Sections 186-187 and Section 211(m) of the Clean Air Act (Act) Amendments of 1990 (CAAA). These requirements pertain to the classification of CO nonattainment areas and to the submission requirements of the SIP's for these areas, respectively. The EPA has issued a "General Preamble" describing EPA's preliminary views on how EPA intends to review SIP's and SIP revisions submitted under Title I of the Act. See generally 57 FR 13498 (April 16, 1992) and 57 FR 18070 (April 28, 1992). Because EPA is describing its interpretations here only in broad terms, the reader should refer to the General Preamble for a more detailed discussion of the interpretations of Title I advanced in today's proposal and the supporting rationale. In today's rulemaking action on the Connecticut CO SIP, EPA is proposing to apply its interpretations taking into consideration the specific factual issues presented. Thus, EPA will consider any timely submitted comments before taking final action on today's proposal.

Those States containing CO nonattainment areas with design values greater than 12.7 parts per million (ppm) were required to submit, among other things, a State Implementation Plan revision, by November 15, 1992, that contains a forecast of VMT in the nonattainment area for each year before the year in which the SIP projects the NAAQS for CO to be attained and an attainment demonstration such that the plan will provide for attainment by December 31, 1995 for moderate CO nonattainment areas. The SIP revision is also required to provide for annual
