PENSION BENEFIT GUARANTY CORPORATION

29 CFR Parts 2619 and 2676

Valuation of Plan Benefits in Single-Employer Plans; Valuation of Plan Benefits and Plan Assets Following Mass Withdrawal; Amendments Adopting Additional PBGC Rates

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Final rule.

SUMMARY: This final rule amends the Pension Benefit Guaranty Corporation's regulations on Valuation of Plan Benefits in Single-Employer Plans and Valuation of Plan Benefits and Plan Assets Following Mass Withdrawal. The former regulation contains the interest assumptions that the PBGC uses to value benefits under terminating single-employer plans. The latter regulation contains the interest assumptions for valuations of multiemployer plans that have undergone mass withdrawal. The amendments set out in this final rule adopt the interest assumptions applicable to single-employer plans with termination dates in October 1995, and to multiemployer plans with valuation dates in October 1995. The effect of these amendments is to advise the public of the adoption of these assumptions.

EFFECTIVE DATE: October 1, 1995.

FOR FURTHER INFORMATION CONTACT: Harold J. Ashner, Assistant General Counsel, Office of the General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005, 202-326-4024 (202-326-4179 for TTY and TDD).

SUPPLEMENTARY INFORMATION: This rule adopts the October 1995 interest assumptions to be used under the

Pension Benefit Guaranty Corporation's regulations on Valuation of Plan Benefits in Single-Employer Plans (29 CFR part 2619, the "single-employer regulation") and Valuation of Plan Benefits and Plan Assets Following Mass Withdrawal (29 CFR part 2676, the "multiemployer regulation").

Part 2619 sets forth the methods for valuing plan benefits of terminating single-employer plans covered under title IV of the Employee Retirement Income Security Act of 1974, as amended. Under ERISA section 4041(c), all single-employer plans wishing to terminate in a distress termination must value guaranteed benefits and "benefit liabilities," *i.e.*, all benefits provided under the plan as of the plan termination date, using the formulas set forth in part 2619, subpart C. (Plans terminating in a standard termination may, for purposes of the Standard Termination Notice filed with PBGC, use these formulas to value benefit liabilities, although this is not required.) In addition, when the PBGC terminates an underfunded plan involuntarily pursuant to ERISA section 4042(a), it uses the subpart C formulas to determine the amount of the plan's underfunding. Part 2676 prescribes rules for valuing benefits and certain assets of multiemployer plans under sections 4219(c)(1)(D) and 4281(b) of ERISA.

Appendix B to part 2619 sets forth the interest rates and factors under the single-employer regulation. Appendix B to part 2676 sets forth the interest rates and factors under the multiemployer regulation. Because these rates and factors are intended to reflect current conditions in the financial and annuity markets, it is necessary to update the rates and factors periodically.

The PBGC issues two sets of interest rates and factors, one set to be used for the valuation of benefits to be paid as annuities and one set for the valuation of benefits to be paid as lump sums. The same assumptions apply to terminating single-employer plans and to multiemployer plans that have undergone a mass withdrawal. This amendment adds to appendix B to parts 2619 and 2676 sets of interest rates and factors for valuing benefits in single-employer plans that have termination dates during October 1995 and multiemployer plans that have undergone mass withdrawal and have valuation dates during October 1995.

For annuity benefits, the interest rates will be 6.30% for the first 20 years following the valuation date and 5.75% thereafter. For benefits to be paid as lump sums, the interest assumptions to

be used by the PBGC will be 4.785% for the period during which benefits are in pay status, and 4.0% during all years preceding the benefit's placement in pay status. The above annuity interest assumptions represent a decrease (from those in effect for September 1995) of .10 percent for the first 20 years following the valuation date and are otherwise unchanged. The lump sum interest assumptions represent a decrease (from those in effect for September 1995) of .25 percent for the period during which benefits are in pay status and the seven years directly preceding that period. They are otherwise unchanged.

Generally, the interest rates and factors under these regulations are in effect for at least one month. However, the PBGC publishes its interest assumptions each month regardless of whether they represent a change from the previous month's assumptions. The assumptions normally will be published in the **Federal Register** by the 15th of the preceding month or as close to that date as circumstances permit.

The PBGC has determined that notice and public comment on these amendments are impracticable and contrary to the public interest. This finding is based on the need to determine and issue new interest rates and factors promptly so that the rates and factors can reflect, as accurately as possible, current market conditions.

Because of the need to provide immediate guidance for the valuation of benefits in single-employer plans whose termination dates fall during October 1995, and in multiemployer plans that have undergone mass withdrawal and have valuation dates during October 1995, the PBGC finds that good cause exists for making the rates and factors set forth in this amendment effective less than 30 days after publication.

The PBGC has determined that this action is not a "significant regulatory action" under the criteria set forth in Executive Order 12866, because it will not have an annual effect on the economy of \$100 million or more or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities; create a serious inconsistency or otherwise interfere with an action taken or planned by another agency; materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or raise novel legal or policy issues arising out of legal mandates, the

President's priorities, or the principles set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this amendment, the Regulatory Flexibility Act of 1980 does not apply. See 5 U.S.C. 601(2).

PART 2619—[AMENDED]

1. The authority citation for part 2619 continues to read as follows:

Authority: 29 U.S.C. 1301(a), 1302(b)(3), 1341, 1344, 1362.

Appendix B to Part 2619—Interest Rates Used To Value Lump Sums and Annuities

Lump Sum Valuations

In determining the value of interest factors of the form $v^{0:n}$ (as defined in § 2619.49(b)(1)) for purposes of applying the formulas set forth in § 2619.49 (b) through (i) and in determining the value of any interest factor used in valuing benefits under this subpart to be paid as lump sums (including the return of accumulated employee contributions upon death), the PBGC shall employ the values of i_t set out in Table I hereof as follows:

TABLE I

Appendix B to Part 2676—Interest Rates Used To Value Lump Sums and Annuities

Lump Sum Valuations

In determining the value of interest factors of the form $v^{0:n}$ (as defined in § 2676.13(b)(1)) for purposes of applying the formulas set forth in § 2676.13 (b) through (i) and in determining the value of any interest factor used in valuing benefits under this subpart to be paid as lump sums, the PBGC shall use the values of i_t prescribed in Table I hereof. The interest rates set forth in Table

I shall be used by the PBGC to calculate benefits payable as lump sum benefits as follows:

(1) For benefits for which the participant or beneficiary is entitled to be in pay status on the valuation date, the immediate annuity rate shall apply.

(2) For benefits for which the deferral period is y years (y is an integer and $0 < y \leq n_1$), interest rate i_1 shall apply from the valuation date for a period of y years; thereafter the immediate annuity rate shall apply.

(3) For benefits for which the deferral period is y years (y is an integer and $n_1 < y \leq n_1 + n_2$), interest rate i_2 shall apply from the valuation date for a period of $y - n_1$ years, interest rate i_1 shall apply for the

following n_1 years; thereafter the immediate annuity rate shall apply.

(4) For benefits for which the deferral period is y years (y is an integer and $y > n_1 + n_2$), interest rate i_3 shall apply from the

valuation date for a period of $y - n_1 - n_2$ years, interest rate i_2 shall apply for the following n_2 years, interest rate i_1 shall apply for the following n_1 years; thereafter the immediate annuity rate shall apply.

Coast Guard

33 CFR Part 165

[CGD02-95-056]

RIN 2115-AA97

Safety Zone; Lower Mississippi River, Mile 727.0 to Mile 730.0

AGENCY: Coast Guard, DOT.

ACTION: Temporary rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone on the Lower Mississippi River between mile 727.0 and mile 730.0. The zone is needed to rig overhead power cables. Entry of vessels or persons into this zone is prohibited unless specifically authorized by the Captain of the Port.

DATES: This regulation is effective at 7 a.m. on September 13, 1995, and terminates at 5 p.m. on September 27, 1995.

FOR FURTHER INFORMATION CONTACT: ENS Bauer, Assistant Chief Port Operations Officer, Captain of the Port, 200 Jefferson Avenue, Suite 1301, Memphis, TN 38103, Phone: (901) 544-3941.

SUPPLEMENTARY INFORMATION:

Background and Purpose

At approximately 7:00 a.m. on September 13, 1995, the Tennessee Valley Authority will commence overhead cable rigging operations across the channel at Lower Mississippi River mile 727.8. The operation is expected to be completed within fourteen days from the commencement date. The navigable channel will be blocked during the operations. A safety zone has been established on the Lower Mississippi River from mile 727.0 to mile 730.0 in order to facilitate safe vessel passage. All vessels shall establish passing arrangements with the LOMRC Representative, via VHF Marine Band Radio, Channel 13, prior to entering the safety zone and shall abide by the conditions of the arrangement. Entry of

vessels or persons into this zone is prohibited unless specifically authorized by the Captain of the Port.

In accordance with 5 U.S.C. 553, a notice of proposed rulemaking was not published for this regulation and good cause exists for making it effective in less than 30 days after **Federal Register** publication. Publication of a notice of proposed rulemaking and delay of effective date would be contrary to the public interest because immediate action is necessary. Specifically, immediate action is necessary to facilitate overhead cable rigging operations during a period when vessel traffic will be least affected. Harm to the public or environment may result if vessel traffic is not controlled during the operations. As a result, the Coast Guard deems it to be in the public's best interest to issue a regulation immediately.

Regulatory Evaluation

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that order. It has not been reviewed by the Office of Management and Budget under
