

that would be implemented over the next 10–15 years.

This Draft GMP/DCP/EIS describes and analyzes alternatives for the Pecos and Glorieta units of Pecos National Historical Park. Proposed action and no-action alternatives have been developed for each unit. In addition to the proposed action and no-action alternatives, two additional action alternatives have been developed for the Pecos unit; and one additional action alternative has been identified for the Glorieta unit. These alternatives propose future management and use options for the newly established Pecos National Historical Park. Under Pecos Unit Alternative A (no action), present use and management would continue. The primary interpretive focus would continue to be at the Pecos Pueblo/mission ruins complex, and no new visitor facilities would be developed. Under Pecos Unit Alternative B (the proposed action), two visitor staging areas would be developed—the Fogelson visitor center area and Kozlowski's Stage Stop. New visitor facilities would include trails and trailheads and interpretive exhibits. Under Pecos Unit Alternative C, three visitor staging areas would be developed—the Fogelson visitor center, Kozlowski's Stage Stop, and the Gateway overlook. Staging areas and associated facilities would have easy vehicle access. Under Pecos Unit Alternative D, visitors would enter the park from the south; and a new visitor center would be developed at the Gateway overlook area. Other visitor facilities would continue to be provided at Kozlowski's Stage Stop and the Fogelson visitor center. Under Glorieta Unit Alternative 1 (no-action), no new facilities would be provided. Glorieta Unit Alternative 2 (proposed action) would incorporate a staffed visitor contact facility and interpretive trails and exhibits at Pigeon's Ranch and an exterior interpretive exhibit at a pulloff overlooking Cañoncito. Glorieta Unit Alternative 3 would incorporate the same facilities as Alternative 2; however, the staffed contact station would be at a different location. The major impact topics assessed for the proposals and the alternatives are cultural and natural resources and the socioeconomic environment, including the local economy and National Park Service operations.

This Draft GMP/DCP/EIS was prepared in order to evaluate a range of alternatives and an assessment of impacts of these alternatives and to provide the public with an opportunity to comment. This document will be on public review for 60 days. The park

would appreciate any comments on these alternatives or other ways to manage the park over the next 15 years.
