Pursuant to Section 221 of the Trade Act of 1974, an investigation was initiated on September 5, 1995 in response to a worker petition which was filed on September 5, 1995 on behalf of workers at Don Shapiro Industries (aka Action West Jeans), El Paso, Texas.

**Fina Oil and Chemical Company
Exploration & Production Group
Offshore Division at Various Locations
in Texas; Certification Regarding
Eligibility To Apply for Worker
Adjustment Assistance**

And Also Operating in The Following
Other States:

TA-W-31,247A Louisiana
TA-W-31,247B Alabama
TA-W-31,247C Colorado
TA-W-31,247D Oklahoma

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) as amended by the Omnibus Trade and Competitiveness Act of 1988 (Pub. L. 100-418), the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is determined in this case that all of the requirements have been met.

The investigation was initiated in response to a petition received on July 17, 1995 and filed on behalf of workers at Fina Oil and Chemical Company, at various locations in Texas, and also operating in the following other states: Louisiana, Alabama, Colorado & Oklahoma. The workers are engaged in occupations related to the production of crude oil and natural gas.

The investigation revealed that production and employment declined at the subject firm in 1994 and in January through June 1995. Company imports of crude oil increased in these same periods.

The investigation also disclosed that crude oil produced by the subject firm is marketed through normal retail channels and has been impacted by the high penetration of imports into the crude oil market.

U.S. imports of crude oil increased absolutely and relative to domestic shipments and consumption in 1994 and again in the twelve month period ending in May 1995. The ratio of imports to domestic production is over 102 percent.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with crude oil and natural gas produced at Fina Oil and Chemical Company, at various

locations in Texas, and also operating in the following other states: Louisiana, Alabama, Colorado and Oklahoma contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

"All workers of Fina Oil and Chemical Company at various locations in Texas (TA-W-31,247) & operating in the following cited States, engaged in employment related to the production of crude oil and natural gas who became totally or partially separated from employment on or after October 8, 1994 through two years from the date of certification are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."

**Notice of Determinations Regarding
Eligibility To Apply for Worker
Adjustment Assistance and NAFTA
Transitional Adjustment Assistance**

In accordance with Section 223 of the Trade Act of 1974, as amended, the Department of Labor herein presents summaries of determinations regarding eligibility to apply for trade adjustment assistance for workers (TA-W) issued during the period of August and September, 1995.

In order for an affirmative to be made and a certification of eligibility to apply for worker adjustment assistance to be issued, each of the group eligibility requirements of Section 222 of the Act must be met.

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated,

(2) That sales or production, or both, of the firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Negative Determinations for Worker Adjustment Assistance

In each of the following cases the investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA-W-31,260; IBM Corp., Banks Manufacturing, Endicott, NY
TA-W-31,160; Noll Printing Co., Inc., Huntington, IN
TA-W-31,300; Omega News & Advertising, Inc., El Paso, TX

In the following cases, the investigation revealed that the criteria for eligibility have not been met for the reasons specified.

TA-W-31,301; Electron Wire, El Paso, TX
TA-W-31,316; Collegiate Pacific, Roanoke, VA
TA-W-31,353; Dura Convertible System, Adrian, MI
TA-W-31,295, TA-W-31,296; Portac, Inc. of Tacoma, Beaver, WA & Forks, WA
TA-W-31,286; Blairsville Machine Products Co., Blairsville, PA
TA-W-31,291; Lucas AU1, Hazleton Div., Hazleton, PA

Increased imports did not contribute importantly to worker separations at the firm.

TA-W-31,176; Handy & Harman, East Providence, RI

U.S. imports of gold declined in 1994 compared to 1993. The ratio of gold imports to domestic production declined in the same comparative periods.

TA-W-31,172; International Marine Carriers, Mineola, NY
TA-W-31,320; Associated Gas Services, Inc., (A subsidiary of Panhandle Eastern Corp.), Houston, TX

The workers' firm does not produce an article as required for certification under Section 222 of the Trade Act of 1974.
