Selection Process

Based on the comments received on this proposal, Western will furnish the terms, conditions, and procedures governing the selection of allotees in the next Federal Register notice to be published by mid-October 1995. The mid-October Federal Register notice will also provide a mechanism for applications of requests for transmission capacity.

Applicant deadline and Western's schedule will also be published in the mid-October Federal Register notice.

Other Issues

The proposed rate for the additional capacity resulting from the completion of MPP and MAP will be set forth in a public rate process currently under way in the Phoenix Area Office. The proposed rate will be based on Western's expectation that the Marketable Capacity used in the proposed rate calculation for the 500-kV transmission lines will be 668 MW. A rate for firm transmission service will be determined in the public rate process.

Determination Under Executive Order 12866

DOE has determined that this is not a significant regulatory action because it does not meet the criteria of Executive Order 12866 (58 FR 51735). Western has an exemption from centralized regulatory review under Executive Order 12866; accordingly, no clearance of this notice by the Office of Management and Budget is required.

Environmental Evaluation

Western will comply with the National Environmental Policy Act (NEPA) of 1969, 42 U.S.C. 4321 *et seq.*; Council On Environmental Quality (40 CFR Parts 1500-1508) and DOE NEPA regulations (10 CFR Parts 1500-1508) and DOE NEPA regulations (10 CFR Part 1021). Western has determined that this action is categorically excluded from the preparation of an environmental assessment or an environmental impact statement.

The ICR describes the nature of the information collection and its expected cost and burden; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before September 27, 1995.

FOR FURTHER INFORMATION CONTACT: For further information, or a copy of this ICR, contact Sandy Farmer at (202) 260-2740, please refer to EPA #ICR 1230.08.

SUPPLEMENTARY INFORMATION:

Office of Air and Radiation

Title: New Source Review and Prevention of Significant Deterioration Permitting Programs (EPA ICR #1230.08; OMB #2060-0003). This ICR requests an 18 month renewal of the existing clearance while the Agency revises the underlying regulations at 40 CFR parts 51 and 52.

Abstract: New and modified stationary sources must supply information on estimated emissions, proposed control technology, and air quality impact when applying for a preconstruction permit. EPA or the State

or local air pollution control agency uses the information in the permit application to ensure that all regulatory requirements are being met and that the new emissions, in conjunction with existing source emissions in the same area, will not interfere with the attainment or maintenance of the national ambient air quality standards.

The average annual burden to respondents for this collection of information is approximately 5,000 hours per year. This includes time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Respondents: Owners or operators of new or modified sources of air pollution.

Estimated Number of Respondents: 20,410.

Estimated Total Annual Burden on Respondents: 1,006,070 hours.

Frequency of Collection: On occasion.

Send comments regarding the burden estimate, or any other aspect of this information collection, including suggestions for reducing the burden, (please refer to EPA ICR #1230.08 and OMB #2060-0003) to:

Notice of Open Meeting of the Office of Water, Environmental Protection Agency on Alternative Financing Options for Water Infrastructure

The Office of Water of the Environmental Protection Agency (EPA) will hold an open meeting on alternative financing options for water infrastructure. The meeting is scheduled for October 10, 1995, in the Conference Center of the Region II Office of EPA located at 290 Broadway in New York City. The meeting will run from 10:00 am to 5:00 pm.

This meeting is the fourth in a series to collect public input on alternative financing options to help pay for

wastewater and drinking water infrastructure. The study is being prepared by the Environmental Finance Center at the Maxwell School of Citizenship and Public Affairs at Syracuse University at the direction of EPA's Office of Wastewater Management (OWM), in response to a congressional request for an evaluation of alternative financing options for water and wastewater projects in EPA's FY 95 appropriations legislation.

The first three meetings have focused primarily on options for a wide variety of fee systems. This meeting will consider other financing options that include encouraging increased investments by the private sector in public purpose water infrastructure, and examining ways to lower the costs of public borrowing for water infrastructure.

Following a discussion among invited panel members, interested parties who wish to speak at the meeting will be allowed to do so. These parties are encouraged to notify the Syracuse University Environmental Finance Center by calling Ms. Ronda Garlow at (315) 443-5612. There will also be a sign-in list for speakers at the meeting. Ten minutes will be available for each presentation. Written comments in advance are encouraged. Please send all written material to: Victoria Kennedy, Syracuse University, Environmental Finance Center, 219 Maxwell Hall, Syracuse, NY 13244-1090.

Dated: September 13, 1995.
