

Where the priority of requests will be in the following order: 1(a), 1(b), 1(c); 2(a), 2(b), 2(c); 3(a), 3(b), 3(c).

Where if any one path is oversubscribed, the allocations will be prorated.

Marketable Resource

Point of receipt	Point of delivery	Capacity
Perkins Switch-yard.	Mead Sub-station.	412 MW.
Mead Sub-station.	Perkins Switch-yard.	412 MW.
Mead Sub-station.	Marketplace Switching Station.	580 MW.
Marketplace Switching Station.	Mead Sub-station.	580 MW.
Marketplace Switching Station.	Adelanto Switching Station.	100 MW.
Adelanto Switching Station.	Marketplace Switching Station.	100 MW.

Selection Process

Based on the comments received on this proposal, Western will furnish the terms, conditions, and procedures governing the selection of allotees in the next Federal Register notice to be published by mid-October 1995. The mid-October Federal Register notice will also provide a mechanism for applications of requests for transmission capacity.

Applicant deadline and Western's schedule will also be published in the mid-October Federal Register notice.

Other Issues

The proposed rate for the additional capacity resulting from the completion of MPP and MAP will be set forth in a public rate process currently under way in the Phoenix Area Office. The proposed rate will be based on Western's expectation that the Marketable Capacity used in the proposed rate calculation for the 500-kV transmission lines will be 668 MW. A rate for firm transmission service will be determined in the public rate process.

Determination Under Executive Order 12866

DOE has determined that this is not a significant regulatory action because it does not meet the criteria of Executive Order 12866 (58 FR 51735). Western has an exemption from centralized regulatory review under Executive Order 12866; accordingly, no clearance of this notice by the Office of Management and Budget is required.

Environmental Evaluation

Western will comply with the National Environmental Policy Act (NEPA) of 1969, 42 U.S.C. 4321 *et seq.*; Council On Environmental Quality (40 CFR Parts 1500-1508) and DOE NEPA regulations (10 CFR Parts 1500-1508) and DOE NEPA regulations (10 CFR Part 1021). Western has determined that this action is categorically excluded from the preparation of an environmental assessment or an environmental impact statement.

Issued in Golden, Colorado, September 7, 1995.

J. M. Shafer,

Administrator

Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before September 27, 1995.

FOR FURTHER INFORMATION CONTACT: For further information, or a copy of this ICR, contact Sandy Farmer at (202) 260-2740, please refer to EPA #ICR 1230.08.

SUPPLEMENTARY INFORMATION:

Office of Air and Radiation

Title: New Source Review and Prevention of Significant Deterioration Permitting Programs (EPA ICR #1230.08; OMB #2060-0003). This ICR requests an 18 month renewal of the existing clearance while the Agency revises the underlying regulations at 40 CFR parts 51 and 52.

Abstract: New and modified stationary sources must supply information on estimated emissions, proposed control technology, and air quality impact when applying for a preconstruction permit. EPA or the State

or local air pollution control agency uses the information in the permit application to ensure that all regulatory requirements are being met and that the new emissions, in conjunction with existing source emissions in the same area, will not interfere with the attainment or maintenance of the national ambient air quality standards.

The average annual burden to respondents for this collection of information is approximately 5,000 hours per year. This includes time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Respondents: Owners or operators of new or modified sources of air pollution.

Estimated Number of Respondents: 20,410.

Estimated Total Annual Burden on Respondents: 1,006,070 hours.

Frequency of Collection: On occasion.

Send comments regarding the burden estimate, or any other aspect of this information collection, including suggestions for reducing the burden, (please refer to EPA ICR #1230.08 and OMB #2060-0003) to:

Sandy Farmer, EPA ICR #1230.08, U.S. Environmental Protection Agency, Information Policy Branch (2136), 401 M Street, SW, Washington, DC 20460. and

Chris Wolz, OMB #2060-0003, Office of Management and Budget, Office of Information and Regulatory Affairs, 725 17th Street, NW., Washington, D.C. 20503.

Dated: September 13, 1995.

Joseph Retzer,

Regulatory Information Division.
