

Sweden for U.S. sales. We also adjusted FMV, where appropriate, for physical differences in the merchandise, in accordance with 19 CFR 353.57. Due to discrepancies found at verification, reporting errors, and unsupported adjustments, we disallowed and/or recalculated certain expenses and adjustments. See Analysis Memorandum to the File, August 31, 1995 for more information on these disallowed and/or recalculated adjustments.

Preliminary Results of Review

As a result of our comparison of USP to FMV, we preliminarily determine that the following margin exists for the period February 4, 1993, through July 31, 1994:

Manufacturer	Margin (percent)
SSAB	10.96

Interested parties may request disclosure within 5 days of the date of publication of this notice and may request a hearing within 10 days of publication. Any hearing, if requested, will be held 44 days after the date of publication or the first business day thereafter. Case briefs and/or written comments from interested parties may be submitted no later than 30 days after the date of publication. Rebuttal briefs and rebuttals to written comments, limited to issues raised in those comments, may be filed not later than 37 days after the date of publication of this notice. The Department will publish the final results of this administrative review including the results of its analysis of issues raised in any such written comments or at a hearing.

The Department shall determine, and the Customs Service shall assess, antidumping duties on all appropriate entries. Individual differences between the USP and FMV may vary from the percentages stated above.

Furthermore, the following deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided for by section 751(a)(1) of the Tariff Act. A cash deposit of estimated antidumping duties shall be required on shipments of Certain Cut-to-Length Carbon Steel Plate from Sweden as follows: (1) the cash deposit rate for the reviewed company will be the rate established in the final results of this review; (2) for previously reviewed or

investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, or the original LTFV investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this review, the cash deposit rate will be 24.23 percent, which is the "all others" rate from the LTFV investigation. See Final Determination of Sales at Less Than Fair Value: Certain Cut-to-Length Carbon Steel Plate from Sweden, (58 FR 37213, July 9, 1993).

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and this notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: September 13, 1995.

Assistant Secretary for Import Administration.
