

5. Section 13d(a)(3) provides that no registered investment company shall, unless authorized by the vote of a majority of its outstanding voting securities, deviate from any investment policy that is changeable only if authorized by shareholder vote. The relief requested from section 13(a)(3) would extend only to Future Funds for which Sierra Advisors becomes investment adviser subsequent to such Future Fund's initial public offering and that have investment policies prohibiting the purchase of investment company shares without shareholder approval. Applicants believe that relief from section 13(a)(3) is appropriate to enable the affected Funds to invest in Underlying Securities without a shareholder vote. Applicants will provide notice to shareholders in the prospectus of each affected Fund of the Deferred Compensation under the Plan. The value of the Underlying Securities will be *de minimis* in relation to the total net assets of the respective Fund, and will at all times equal the value of the Fund's obligations to pay deferred fees (plus any increase in value thereof.)

6. Rule 2a-7 imposes certain restrictions on the investments of "money market funds." as defined under the rule, that would prohibit a Fund that is a money market Fund from investing in the shares of any other Fund. Applicants believe that the requested exemption would permit the Funds to achieve an exact matching of Underlying Securities with the deemed investments of the Accounts, thereby ensuring that the deferred fees would not affect net asset value.

7. Section 6(c) provides, in relevant part, that the SEC may, conditionally or unconditionally, by order, exempt any person or class of persons from any provision of the Act or from any rule thereunder, if such exemption is necessary or appropriate in the public interest, consistent with the protection of investors, and consistent with the purposes fairly intended by the policy and provisions of the Act. Applicants submit that the relief requested from the above provisions satisfies this standard.

8. Section 17(a)(1) generally prohibits an affiliated person of a registered investment company from selling any security to such registered investment company. Funds that are advised by the same entity may be "affiliated persons" under section 2(a)(3)(C) of the Act by reason of being under common control. Applicants asserts that section 17(a)(1) was designed to prevent, among other things, sponsors of investment companies from using investment company assets as capital for enterprises with which they were associated or to

acquire controlling interest in such enterprises. Applicants submit that the sale of securities issued by the Funds pursuant to the Agreement does not implicate the concerns of Congress in enacting this section, but merely would facilitate the matching of each Fund's liability for deferred trustees' fees with the Underlying Securities that would determine the amount of such Fund's liability.

9. Section 17(b) authorizes the SEC to exempt a proposed transaction from section 17(a) if evidence establishes that the terms of the transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned, the transaction is consistent with the policies of the registered investment company, and the general purposes of the Act. Applicants assert that the proposed transaction satisfies the criteria of section 17(b). The finding that the terms of the transaction are consistent with the policies of the registered investment company is predicated on the assumption that relief is granted from section 13(a)(3). Applicants also request relief from section 17(a)(1) under section 6(c) to the extent necessary to implement the Deferred Compensation under the Plan and Agreement on an ongoing basis.

10. Section 17(d) and rule 17d-1 generally prohibit a registered investment company's joint or joint and several participation with an affiliated person in a transaction in connection with any joint enterprise or other joint arrangement or profit-sharing plan "on a basis different from or less advantageous than that of" the affiliated person. Participants will not receive a benefit, directly or indirectly, that would otherwise inure to a Fund or its shareholders. Participants will receive tax deferral but the Plan otherwise will maintain the parties, viewed both separately and in their relationship to one another, in the same position as if the deferred fees were paid on a current basis. When all payments have been made to a Participant, the Participant will be no better off (apart from the effect of tax deferral) than if he or she had received trustees fees on a current basis and invested them in Underlying Securities.

Applicants' Conditions

Applicants agree that the order granting the requested relief shall be subject to the following conditions:

1. With respect to the relief requested from rule 2a-7, any money market Fund, or series thereof, that values its assets in accordance with a method prescribed by rule 2a-7 will buy and

hold Underlying Securities that determine the value of the Accounts to achieve an exact match between such Fund's or series' liability to pay deferred fees and the assets that offset that liability.

2. If a Fund purchases Underlying Securities issued by an affiliated Fund, the Fund will vote such shares in proportion to the votes of all other shareholders of such affiliated Fund.

For the Commission, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,

Deputy Secretary.
