**Transcontinental Gas Pipe Line Corporation; Notice of Petition For Declaratory Order**

September 15, 1995.

Take notice that on September 1, 1995, Transcontinental Gas Pipe Line Corporation (Transco) and certain traditional shippers<sup>1</sup> (herein collectively, with Transco, referred to as the Transco Group) filed a Petition for Declaratory Order.

The Transco Group requests that the Commission order Coastal Eagle Point Oil Company to comply with Transco's tariff provision requiring the payment of overrun penalty amounts incurred as a result of unauthorized takes of gas in excess of its maximum firm contract entitlement during December of 1992. In support thereof, the Transco Group seeks a declaratory order finding that (1) a shipper's intent at the time that it incurs an overrun is not relevant to the assessment of an overrun penalty; (2) a "harm" standard is not relevant to the assessment of an overrun penalty, and (3) Transco is not required to provide verbal or written notice to a shipper prior to the assessment of an overrun penalty.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before September 25, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. **WestGas InterState, Inc.; Notice of Proposed Changes in FERC Gas Tariff**

September 15, 1995.

Take notice that on September 12, 1995, WestGas Interstate, Inc. (WGI) tendered for filing certain revised tariff sheets to First Revised Volume No. 1 of its FERC Gas Tariff, as identified on the Appendix A attached to the filing. The proposed effective date of these tariff sheets is November 1, 1995.

WGI states that the tariff revisions reflect a decrease in all of the rates applicable under WGI's transportation rate schedules and would decrease overall revenues from WGI's jurisdictional services by \$105,510, based on the twelve-month period ended June 30, 1995, as adjusted for known changes through December 31, 1995. Specifically, WGI proposes to decrease its maximum reservation charge under Rate Schedule FT from \$2.2344 per dth to \$1.2828 per Dth and to decrease its maximum commodity charge under Rate Schedule IT from \$0.0492 per dth to \$0.0401 per dth. WGI further states that the revised tariff sheets also reflect certain revisions which update and clarify WGI's FERC gas tariff, and bring WGI's tariff into conformance with recent Commission Orders.

WGI states that a copy of its filing was served on each of its jurisdictional customers and affected state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20406, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). The owner is also asked to complete a multiple choice form of nine questions that summarize vehicle usage. There are two methods of soliciting the general public for participation in the Emission Factor Program (EFP):

1. Postal cards are sent to a random selection of vehicle owners using State motor vehicle registration lists.

2. A random selection of motor vehicle owners who arrive at State emission inspection stations on an annual or biennial schedule.
