

\$20,000 of the principal and interest of such individual's educational loans for each year of commitment not to exceed one-half of the remaining loan balance. The CIR-LRP is designed to provide an incentive for health professionals to work in areas of reproductive research directly related to contraceptive development and/or infertility diagnosis and treatment by providing assistance in repaying educational loans for such individuals. The long-range objective of

the CIR-LRP is to stimulate the commitment of researchers to sustaining a career focus on contraception and/or infertility research.

The information proposed for collection will be used by the NICHD to determine an applicant's eligibility for participation in the CIR-LRP. The CIR-LRP application consists of two parts: Part I (Information About the Applicant) is completed by the applicant; Section A of Part II (Loan Information and

Permission for Disclosure) is also completed by the applicant; and Section B, Part II (Lender's Verification) is completed by the Lending Institution. It may also be necessary for a State or other entity to verify an outstanding service obligation. In these instances, written verification of the service obligation will be requested from the State or other entity.

The annual burden estimates are as follows:

	No. re-spond-ents	No. re-sponses per re-spondent	Avg. bur-den per response (hrs)
Applicant .....	50	1	5.5
Lender .....	200	1	0.5
State/Other Entity .....	8	1	0.5

Dated: September 5, 1995.  
 Benjamin E. Fulton,  
 Deputy Executive Officer, National Institute of Child Health and Human Development.

**Proposed Data Collection Available for Public Comment**

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the National Institutes of Health (NIH), National Cancer Institute (NCI) will publish periodic summaries of proposed projects. To request more information on the proposed project, call Frances E. Thompson, Ph.D., Epidemiologist, at (301) 496-8500.

Comment are invited on: (a) Whether the proposed collection of information is necessary for the proper performance

of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Frances E. Thompson, Ph.D., National Cancer Institute, EPN 313, 6130 Executive Blvd MSC 7344, Bethesda, MD 20892-7344. Written comments should be received by November 20, 1995.

Proposed Project: Checklist Validation of Dietary Questionnaire—New—This experiment will compare the performance of two self-administered food frequency questionnaires which use different approaches to collect the information. The purpose of the study is to determine which food frequency

approach more nearly replicates the information collected on the criterion Daily Checklist Instrument, which is a list of about 30 key food items selected especially for this comparative assessment. The Checklist will be completed daily for 30 days by each study participant. Following the 30-day period, one group will complete the NCI Health Habits and History Questionnaires (HHHQ), and the other group will complete the NCI Diet History Questionnaire (DHQ). Respondents to each data collection instrument will estimate how often they eat a series of food items in the last month. Complete questionnaires will be obtained on 250 subjects in each of the two study groups. Study participants will be compensated. The results of the study will be used to refine the NCI Diet History Questionnaire. Participants will be adult volunteers from the Washington, DC metropolitan area. Burden estimates are as follows:

	No. of re-spondents	Instrument type	No. of re-sponses per respondent	Avg. bur-den/re-sponse (hrs)
Group 1 .....	250	Checklist .....	30	.114
		HHHQ .....	1	.500
Group 2 .....	250	Checklist .....	30	.114
		DHQ .....	1	.667

Dated: September 13, 1995.  
 Philip D. Amoruso,  
 NCI Executive Officer.
