NUCLEAR REGULATORY COMMISSION

Availability of Draft Application Format and Content Guidance and Review Plan and Acceptance Criteria for Non-Power Reactors

The U.S. Nuclear Regulatory Commission (NRC) is in the process of developing for Non-Power Reactors (NPRs) a "Format and Content for Applications for the Licensing of Non-Power Reactors" (F&C) and a "Standard Review Plan and Acceptance Criteria for Applications for the Licensing of Non-Power Reactors" (SRP). The NRC has made available a draft of Chapter 11, "Radiation Protection Program and Waste Management," of the F&C and SRP documents for comment.

A copy of this chapter has been placed in the NRC Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555. Single copies of this chapter may be requested in writing from Alexander

Adams, Jr., Senior Project Manager, U.S. Nuclear Regulatory Commission, MS: 0-11-B-20, Washington, DC 20555.

Comments on this chapter should be sent by December 12, 1995, to the Director, Non-Power Reactors and Decommissioning Project Directorate at the above address.

Dated at Rockville, Maryland, this 15th day of September 1995.

For the Nuclear Regulatory Commission.
Seymour H. Weiss,

Director, Non-Power Reactors and Decommissioning Project Directorate, Division of Reactor Program Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-M

[Docket Nos. 70-7001; 70-7002]

United States Enrichment Corporation: Paducah Gaseous Diffusion Plant; Portsmouth Gaseous Diffusion Plant; Notice of Receipt of Application for Certification for the Gaseous Diffusion Plants, Notice of Comment Period, and Notice of Public Meetings

I. Receipt of Application and Availability of Documents

Notice is hereby given that the U.S. Nuclear Regulatory Commission (NRC or the Commission) has received by letter dated September 15, 1995, an application in its entirety to replace the application dated April 18, 1995, from the United States Enrichment Corporation (USEC) for the initial certification of the gaseous diffusion plants (GDPs) located near Paducah, Kentucky and Piketon, Ohio. The Energy Policy Act of 1992 established the USEC to operate the GDPs under lease from the U.S. Department of Energy, and required the NRC to establish a certification process and standards for the GDPs to assure protection of public and workers' health and safety and adequate safeguards and security. NRC determined that USEC's April submittal did not adequately address the standards NRC had established for the GDPs and therefore rejected the application on May 5, 1995. NRC's decision to reject the application was not a determination that the operations of the plants were unsafe. NRC originally intended to issue a certification decision in October 1995. However, because the original application was rejected, NRC now plans to issue a decision in February, 1996.

Copies of the application for certification (except for classified and proprietary portions withheld in accordance with 10 CFR 2.790,

“Availability of Public Records”) are available for public inspection and copying at the Commission’s Public Document Room (PDR) in the Gelman Building, 2120 L Street, NW., Washington, DC 20555 and in the Local Public Document Rooms (LPDRs) established for these facilities. A copy of the application for the Paducah plant is available at the Paducah Public Library, 555 Washington Street, Paducah, Kentucky 42003. A copy of the application for the Portsmouth plant is available at the Portsmouth Public Library, 1220 Gallia Street, Portsmouth, Ohio 45662. Copies of related correspondence and staff evaluations (except for portions withheld in accordance with 10 CFR 2.790) will also be made available at these locations. A copy of the original application continues to be available at these public document rooms.

The Energy Policy Act also requires USEC to submit a compliance plan, prepared by the Department of Energy, which addresses areas where the USEC facilities are not yet in compliance with NRC requirements. The compliance plan is expected in early November. A separate notice of its availability and comment period will be issued when it is received.

II. Notice of Comment Period

Any interested party may submit written comments on the September application for certification for either the Paducah plant or the Portsmouth plant for consideration by the staff. To be certain of consideration, comments must be received by November 6, 1995. Comments received after the due date will be considered if it is practical to do so, but the Commission is able to assure consideration only for comments received on or before this date. Written comments on the application should be mailed to the Chief, Rules Review and Directives Branch, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 or hand delivered to 11545 Rockville Pike, Rockville, MD 20852 between 7:45 am and 4:15 pm Federal workdays. Comments should be legible and reproducible, and include the name, affiliation (if any), and address of the commenter. All comments received by the Commission will be made available for public inspection at the Commission’s Public Document Room located in Washington, DC and the Local Public Document Rooms located in Paducah, Kentucky and Portsmouth, Ohio. In accordance with 10 CFR 76.62 and 76.64, a member of the public must submit written comments or provide oral comments at a public meeting

described below to petition the Commission requesting review of the Director’s decision on certification.

III. Notice of Public Meetings

The NRC will hold two meetings concerning the application for certification for the Portsmouth and Paducah GDPs. These meetings are being held to solicit public input on the initial certification of these facilities. The meeting on the Paducah Gaseous Diffusion Plant will be held at the Paducah Information Age Park Resource Center, 200 McCracken Boulevard in Paducah, Kentucky on December 5, 1995, 7 pm. The meeting on the Portsmouth Gaseous Diffusion Plant will be held at the Vern Riffe Joint Vocational School, 23365 State Rt. 124 in Piketon, Ohio on November 28, 1995, 7 pm.

In order to allow a maximum number of speakers, statements by the public will be limited to 5 minutes per individual. Those interested in speaking at the meetings may register in advance or may register at the meeting. Any person interested in registering in advance may do so by sending a written request to Ms. Rocio Castaneira, U.S. Nuclear Regulatory Commission, T-8A33, Washington, DC 20555. The request should clearly state the individual’s name and for which meeting the individual is registering. Written requests must be received by November 16, 1995. Speakers will be taken in the order the requests are received. After all pre-registered speakers have presented their comments, those individuals that register at the door will be taken in the order of sign-up. A record of the public meeting will be placed in the PDR and the LPDR. Written comments will also be accepted at the meetings.

FOR FURTHER INFORMATION CONTACT: Ms. Rocio Castaneira, (301) 415-8103; Mr. Carl B. Sawyer, (301) 415-8174; or Ms. Merri Horn, (301) 415-8126; Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

Dated at Rockville Maryland, this 15th day of September 1995.

For the Nuclear Regulatory Commission,
John W. N. Hickey,

Chief Enrichment Branch Division of Fuel Cycle Safety and Safeguards.
