

DOE issued a DARHT Draft EIS in May 1995 and invited comments on the adequacy and accuracy of the draft analysis. Over sixty parties provided comments on the Draft EIS. The Final EIS reflects changes made by DOE to respond to public comments received, to provide additional environmental baseline information, and to discuss additional technical considerations. The Final EIS also reflects the commitment made by the President on August 11, 1995, to seek a "zero-yield" Comprehensive Test Ban Treaty. The type of capability proposed for the DARHT facility is essential to assuring the continued safety and reliability of the nuclear weapons stockpile under a test ban. DOE made the following major changes between the Draft and Final EIS:

- A Phased Containment Option was added to the Enhanced Containment Alternative, and was designated as DOE's preferred alternative.
- DOE discovered the presence of the federally listed threatened species, the Mexican spotted owl, in the vicinity of the DARHT site, identified measures to mitigate any adverse effects to the owl, and received concurrence from the US Fish and Wildlife Service that operation of the facility is not likely to adversely effect the owl.
- Additional mitigation measures were added after consultation with affected American Indian tribes.
- The DOE proposal incorporates upgraded accelerator equipment within both the first and second axis of the proposed DARHT facility.
- DOE incorporated information regarding its Stockpile Stewardship and Management Programmatic Environmental Impact Statement (60 FR 31291, June 14, 1995).
- The Final EIS includes unclassified information from the impact analysis in the classified supplement, which had been made available to the public during the comment period on the Draft EIS.

DOE has distributed copies of the DARHT Final EIS to appropriate Congressional members and committees, the State of New Mexico, affected American Indian tribes, local county governments, other federal agencies, and other interested parties. DOE expects to issue a Record of Decision on the DARHT proposal in October, 1995.

Signed in Washington, DC, this 15th day of September, 1995, for the United States Department of Energy.

Everet H. Beckner,

Principal Deputy Assistant Secretary for Defense Programs.

BILLING CODE 6450-01-P

Financial Assistance: Institute of Paper Science and Technology (IPST), Atlanta, GA

AGENCY: U.S. Department of Energy (DOE).

ACTION: Notice of intent.

SUMMARY: The U.S. Department of Energy, Idaho Operations Office, announces that pursuant to the DOE Financial Assistance Rules 10 CFR 600.7, it intends to renew Grant Number DE-FG02-90CE40936 to Institute of Paper Science and Technology, Atlanta, Georgia. It is DOE's intent to provide funds for the renewal of a project entitled: "Black Liquor Combustion-Validated Recovery Boiler Modeling". The project goal is to develop various submodels that incorporate all of the available knowledge of the chemical reactions occurring in a recovery boiler, together with a specially developed computational fluid dynamics (CFD) modeling code, to obtain an overall (global) computer model useful for the analysis, design, and optimization of recovery boilers. The original proposal "Black Liquor Combustion—Validated Recover Boiler Modeling" was submitted to DOE by IPST in April 1990 as an unsolicited proposal. The project has previously been funded for a cost of \$5,143,000 with a 29% IPST cost share. The proposed renewal will have a duration of 15 months. IPST proposed total cost is \$1,219,740 of which the proposed DOE cost is \$849,999 and IPST's and associated partner's proposed cost-share is \$370,740 (30%) of the total cost.

The Federal Domestic Catalog Number is 81.078.

FOR FURTHER INFORMATION CONTACT:

Kara Twitchell, U.S. Department of Energy, Drive, MS 1221, Idaho Falls, Idaho 83401-1563, (208) 526-4958.

SUPPLEMENTARY INFORMATION: The statutory authority for the proposed award is the Energy Conservation Program begun in 1975 under the mandate of the Federal Non-Nuclear Energy Idaho Operations Office, 850 Energy Research and Development Act of 1974 (Pub. L. 93-577). The proposal meets the criteria for "non-competitive" financial assistance as set forth in 10 CFR Part 600.7(b)(2)(i)(A). The applicant is an institution of higher education. The anticipated period to complete the renewal is fifteen (15) months. The total estimated cost of this renewal project is \$1,219,740 of which the proposed DOE cost is \$849,999 and IPST's and

associated partner's proposed cost-share is \$370,740 (30%) of the total cost.

B.G. Bauer,

Acting Director, Procurement Services Division.

BILLING CODE 6450-01-M

Financial Assistance: Institute of Paper Science and Technology (IPST), Atlanta, GA

AGENCY: U.S. Department of Energy (DOE).

ACTION: Notice of intent.

SUMMARY: The U.S. Department of Energy, Idaho Operations Office, announces that pursuant to the DOE Financial Assistance Rules 10 CFR 600.7, it intends to renew Grant Number DE-FG02-85CE40738 to Institute of Paper Science and Technology, Atlanta, Georgia. It is DOE's intent to provide funds for the renewal of a project entitled: "Advanced Water Removal Processes for Drying in the Pulp and Paper Industry—Impulse Drying". The project goal is to demonstrate through pilot testing a novel water removal process, Impulse Drying, for the manufacture of paper. Utilizing this process would greatly reduce the energy and associated costs required for the full cycle of drying required for paper manufacture. The original proposal "Advanced Water Removal Processes for Drying in the Pulp and Paper Industry" was submitted to DOE by IPST in May 1984 as an unsolicited proposal. The project has previously been funded at a cost of \$5,152,000 with a 35% IPST cost share. The proposed renewal will have a duration of two (2) years. IPST proposed total cost is \$2,446,250 of which the proposed DOE cost is \$1,957,000 and IPST's and associated partner's proposed cost-share is \$489,250 (20%) of the total cost.

The Federal Domestic Catalog Number is 81.078.

Senior Executive Service; Performance Review Board

AGENCY: Department of Energy.

ACTION: SES Performance Review Board Standing Register.

SUMMARY: This notice provides the Performance Review Board Standing Register for the Department of Energy. This listing supersedes all previously published lists of PRB members.

EFFECTIVE DATE: These appointments are effective as of September 30, 1995.
