Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) or Superfund, Section 104; Announcement of Application Deadline for the Competition for Brownfields Economic Redevelopment Initiative Pilots'

AGENCY: Environmental Protection Agency.

ACTION: Notice of application deadlines, revised guidelines.

SUMMARY: The United States Environmental Protection Agency (EPA)

will continue to accept proposals for the national Brownfields Economic Redevelopment Pilots. EPA received over 100 applications for the deadlines of March 1, 1995 and April 17, 1995; from these applications EPA was able to select 15 national pilots which were announced on July 26, 1995. EPA will select a total of twenty additional pilots in 1996 during the next two rounds of the competition: The next two upcoming deadlines for these rounds are November 17, 1995 and March 4, 1996. All applications received by March 1, 1995 and April 17, 1995—but not chosen as national pilots in the July 26, 1995 announcement—will continue to be considered by EPA during the subsequent two rounds of this competition.

To further improve the competition process, EPA has made clarifications to the Application Guidelines for Demonstration Pilots (revised edition September 1995). However, those entities which submitted applications by March 1 and April 17 will not be required to re-submit their applications. Nonetheless, EPA urges these applicants to review the clarifications and determine whether they wish to revise and resubmit their applications.

DATES: This action is effective as of December 1, 1994, and expires on March 4, 1996. All proposals must be postmarked or sent to EPA via registered or tracked mail by the expiration dates cited above.

ADDRESSES: Applications booklets can be obtained by calling the Superfund Hotline at the following numbers: Washington, DC Metro Area at 703-412-9810, Outside Washington, DC Metro at 1-800-424-9346, TDD for the Hearing Impaired at 1-800-553-7672.

Booklets may also be obtained by writing to: U.S. EPA—Brownfields Application, Superfund Document Center 5201G, 401 M Street, SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: The Superfund Hotline, 800-424-9346.

SUPPLEMENTARY INFORMATION: The U.S. EPA is funding 50 two-year demonstration pilots up to \$200,000 for cleaning up and redeveloping brownfields. Eighteen national pilot projects already have been selected. EPA defines brownfields as abandoned, idled or under-used industrial and commercial facilities where expansion or redevelopment is complicated by real or perceived environmental contamination. EPA's Brownfields Initiative is an organized commitment to help communities revitalize such properties both environmentally and economically, mitigate potential health

risks and restore economic vitality to areas where these brownfields exist.

The goal of the Brownfields Initiative is to empower states, communities and other stakeholders in economic redevelopment to work together in a timely manner to prevent, assess, safely cleanup, and sustainably reuse brownfields. Experience gained from the pilots, along with partnerships and outreach activities, will provide a growing knowledge base to help direct EPA's Brownfields Initiative. EPA's Brownfields Pilots will test redevelopment models, direct special efforts toward removing regulatory barriers without sacrificing protectiveness, and facilitate coordinated efforts at the federal, state, and local levels. EPA will facilitate a coordinated federal strategy to help initiate a significant national effort to clean up and redevelop brownfields.

Cities, counties, towns, states, Territories, and Native American Tribes are all eligible to apply.

The Brownfields Economic Redevelopment Initiative is founded on the belief that "economic development and environmental protection must go hand in hand," (Carol Browner, Administrator, Environmental Protection Agency, Announcing the Cleveland Brownfields Pilot on November 8, 1993.)

In order to ensure a fair selection process, panels consisting of EPA Regional and Headquarters staff, as well as other Federal Agency representatives, evaluated all of the applications. These panels assess how well the proposals met the selection criteria outlined in The Brownfields Economic Redevelopment Initiative: Application Guidelines for Demonstration Pilots. These panels' evaluations will be presented to EPA Senior Management for final selection. Proposals will be evaluated on the following criteria (a more detailed and complete set of criteria are included in the application booklet):

- Demonstrated commitment of public and private leadership to brownfields redevelopment.
- Clear delineation of how federal support will make a difference.
- Plans for effective community involvement.
- Contributions to environmental justice goals.
- Government support and technical, legal, and political capacity to complete goals.
- Clearly outlined potential sources of cleanup funding.
- Potential for national replication.
- Well-defined approach to environmental assessment.

Dated: September 14, 1995.
