BILLING CODE 4510-29-P

Work Group on Defined Contribution Adequacy; Advisory Council on Employee Welfare and Pension Benefits Plan; Notice of Meeting

Pursuant to the authority contained in Section 512 of the Employee Retirement Income Security Act of 1974 (ERISA), 29 U.S.C. 1142, public meetings of the Work Group on Defined Contribution Adequacy of the Advisory Council on Employee Welfare and Pension Benefit Plans will be held on October 11, 1995, in Room S-3215 A-B, U.S. Department of Labor Building, Third and Constitution Avenue, N.W., Washington, DC 20210.

The propose of the meetings, which will run from 9:30 a.m. to noon and from 1:00 until approximately 3:30 p.m., is to allow work group members to begin formulating their recommendations to the Secretary of Labor as they relate to various policy issues surrounding retirement income adequacy.

Members of the public are encouraged to file a written statement pertaining to any topic concerning ERISA by submitting 20 copies on or before October 1, 1995 to Sharon Morrissey, Acting Executive Secretary, ERISA Advisory Council, U.S. Department of Labor, Suite N-5677, 200 Constitution Avenue, N.W., Washington, DC 20210. Individuals or representatives of organizations wishing to address the Defined Contribution Adequacy Work Group of the Advisory Council should forward their request to the Acting Executive Secretary or telephone (202) 219-8753. Oral presentations will be limited to ten minutes, but an extended statement may be submitted for the record. Individuals with disabilities, who need special accommodations, should contact Sharon Morrissey by October 1 at the address indicated in this notice.

Organizations or individuals may also submit statements for the record without testifying. Twenty (20) copies of such statements should be sent to the Acting Executive Secretary of the Advisory Council at the above address. Papers will be accepted and indicated in the record of the meeting if received on or before October 1, 1995.

Signed at Washington, DC this 19th day of September, 1995.

Olena Berg,

Assistant Secretary, Pension and Welfare Benefits Administration.

BILLING CODE 4510-29-M

Pension and Welfare Benefit Administration

Work Group on Pension Education; Advisory Council on Employee Welfare and Pension Benefits Plan; Notice of Meeting

Pursuant to the authority contained in Section 512 of the Employee Retirement Income Security Act of 1974 (ERISA), 29 U.S.C. 1142, a public meeting of the Work Group on Pension Education of the Advisory Council on Employee Welfare and Pension Benefit Plans will be held on October 10, 1995, in Room S-3215 A-B, U.S. Department of Labor Building, Third and Constitution Avenue, N.W., Washington, DC 20210.

The purpose of the meeting, which will begin at 9:30 a.m. and end at approximately noon on October 10, is to allow Work Group members the opportunity to begin formulating their final recommendations to be made to the Secretary of Labor on the necessity of the Department's continuing efforts to better educate the public to save for retirement and to assist in identifying additional ways in which the Department may meet this challenge.

Members of the public are encouraged to file a written statement pertaining to any topic concerning ERISA by submitting 20 copies on or before October 1, 1995 to Sharon Morrissey, Acting Executive Secretary, ERISA Advisory Council, U.S. Department of Labor, Suite N-5677, 200 Constitution Avenue, N.W., Washington, DC 20210. Individuals or representatives of organizations wishing to address the Pension Education Work Group of the Advisory Council should forward their request to the Acting Executive Secretary or telephone (202) 219-8753. Oral presentations will be limited to ten minutes, but an extended statement may be submitted for the record. Individuals with disabilities, who need special accommodations, should contact Sharon Morrissey by October 1 at the address indicated in the notice.

Organizations or individuals may also submit statements for the record without testifying. Twenty (20) copies of such statements should be sent to the Acting Executive Secretary of the Advisory Council at the above address. Papers will be accepted and included in

the record of the meeting if received on or before October 1, 1995.

Signed at Washington, DC this 19th day of September, 1995.

Olena Berg,

Assistant Secretary, Pension and Welfare Benefits Administration.

BILLING CODE 4510-29-M

Pension and Welfare Benefits Administration

Work Group on Real Estate Investment; Advisory Council on Employee Welfare and Pension Benefits Plan; Meeting

Pursuant to the authority contained in Section 512 of the Employee Retirement Income Security Act of 1974 (ERISA), 29 U.S.C. 1142, a public meeting of the Work Group on the Real Estate Investment of the Advisory Council on Employee Welfare and Pension Benefit Plans will be held on October 10, 1995, in Room S-3215 A-B, U.S. Department of Labor Building, Third and Constitution Avenue, N.W., Washington, DC 20210.

The purpose of the meeting, which will begin at 1:00 p.m. and will last until approximately 4:30 p.m., is to hear any final testimony on regulatory issues that impact on real estate investments for pension funds and allow members to begin formulating their final recommendations for the Secretary of Labor on this issue.

Members of the public are encouraged to file a written statement pertaining to any topic concerning ERISA by submitting 20 copies on or before October 1, 1995, to Sharon Morrissey, Acting Executive Secretary, ERISA Advisory Council, U.S. Department of Labor, Suite N-5677, 200 Constitution Avenue, N.W., Washington, DC 20210. Individuals or representatives of organizations wishing to address the Real Estate Investment Work Group of the Advisory Council should forward their request to the Acting Executive Secretary or telephone (202) 219-8753. Oral presentations will be limited to ten minutes, but an extended statement may be submitted for the record. Individuals with disabilities, who need special accommodations, should contact Sharon Morrissey by October 1 at the address indicated in this notice.

Organizations or individuals may also submit statements for the record without testifying. Twenty (20) copies of such statements should be sent to the Acting Executive Secretary of the Advisory Council at the above address. Papers will be accepted and included in

the record of the meeting if received on or before October 1, 1995.

Signed at Washington, DC this 19th day of September, 1995.

Olena Berg,

Assistant Secretary, Pension and Welfare Benefits Administration.

BILLING CODE 4510-29-M

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-334 and 50-412]

Duquesne Light Company, Ohio Edison Company, Pennsylvania Power Company, the Cleveland Electric Illuminating Company, the Toledo Edison Company Beaver Valley Power Station, Unit Nos. 1 and 2; Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to Facility Operating Licenses Nos. DPR-66 and NPF-73 Duquesne Light Company, et al. (the licensee) for operation of Beaver Valley Power Station, Unit Nos. 1 and 2 (BVPS-1 and BVPS-2), located in Beaver County, Pennsylvania.

The proposed amendments would revise the Administrative Controls section and the Bases section of the BVPS-1 and BVPS-2 technical specifications to be consistent with the requirements of the Offsite Dose Calculation Manual (ODCM). The ODCM was recently updated to reflect the radioactive liquid and gaseous effluent release limits and the liquid holdup tank activity limit of BVPS-1 License Amendment No. 188 and BVPS-2 License Amendment No. 70 which were issued June 12, 1995.

Before issuance of the proposed license amendments, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

The Commission has made a proposed determination that the amendment requests involve no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendments would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of

a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. Does the change involve a significant increase in the probability or consequences of an accident previously evaluated.

The likelihood that an accident will occur is neither increased or decreased by this proposed technical specification change which modifies the liquid and gaseous effluent release limits and the Liquid Holdup Tank activity limit. This technical specification change will not impact the function or method of operation of plant equipment. Thus, there is no significant increase in the probability of a previously analyzed accident due to this change. No systems, equipment, or components are affected by the proposed change. Thus, the consequences of a malfunction of equipment important to safety previously evaluated in the Updated Final Safety Analysis Report are not increased by this change.

The proposed change affects the liquid and gaseous effluent release limits and Liquid Holdup Tank activity limit. As such, the proposed change has no impact on accident initiators or plant equipment, and therefore, does not affect the probabilities or consequences of an accident.

Therefore, the proposed change will not involve a significant increase in the probability or consequences of an accident previously evaluated.

2. Does the change create the possibility of a new or different kind of accident from any accident previously evaluated?

The proposed technical specification revisions do not involve changes to the physical plant or operation of equipment considered as a potential accident initiator or equipment necessary to mitigate the consequences of an accident. The new Beaver Valley Power Station-Emergency Action Levels do use multiples of Offsite Dose Calculation Manual liquid release criteria for initiation of an unusual event or alert. However, there are no protective actions required when reaching either the unusual event or alert levels. The protective actions are performed when Environmental Protection Agency Drinking Water Standards are met or exceeded. Since limitations on concentrations of radioactive material released in liquid and gaseous effluents to unrestricted areas does not contribute to accident initiation, a change related to the requirement cannot produce a new accident scenario or produce a new type of equipment malfunction, as such, this change does not alter any existing accident scenarios.

Therefore, the proposed change does not create the possibility of a new or different kind of accident from any accident previously evaluated.

3. Does the change involve a significant reduction in a margin of safety?

The proposed change concerns the liquid and gaseous effluent release limits and Liquid Holdup Tank activity limit and does

not directly affect plant equipment or operation related to design basis accident prevention or mitigation. Safety limits and limiting safety system settings are not affected by this proposed change.

Therefore, use of the proposed technical specification would not involve a significant reduction in the margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination.

Normally, the Commission will not issue the amendments until the expiration of the 30-day notice period. However, should circumstances change during the notice period such that failure to act in a timely way would result, for example, in derating or shutdown of the facility, the Commission may issue the license amendments before the expiration of the 30-day notice period, provided that its final determination is that the amendments involve no significant hazards consideration. The final determination will consider all public and State comments received. Should the Commission take this action, it will publish in the Federal Register a notice of issuance and provide for opportunity for a hearing after issuance. The Commission expects that the need to take this action will occur very infrequently.

Written comments may be submitted by mail to the Rules Review and Directives Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and should cite the publication date and page number of this Federal Register notice. Written comments may also be delivered to Room 6D22, Two White Flint North, 11545 Rockville Pike, Rockville, Maryland, from 7:30 a.m. to 4:15 p.m. Federal workdays. Copies of written comments received may be examined at the NRC Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC.

The filing of requests for hearing and petitions for leave to intervene is discussed below.

By October 23, 1995, the licensee may file a request for a hearing with respect
