

The controversy between VA and the blind vendor community concerns application of the Randolph-Sheppard Act to VA canteen service operations at medical centers. The patient food service involved in this addition to the Procurement List is not connected to the medical center's canteen operation. Accordingly, the Committee does not believe this addition to the Procurement List will inject the JWOD Program into the controversy.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the service, fair market price, and impact of the addition on the current or most recent contractors, the Committee has determined that the service listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the service to the Government.
2. The action does not appear to have a severe economic impact on current contractors for the service.
3. The action will result in authorizing small entities to furnish the service to the Government.
4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the service proposed for addition to the Procurement List.

Accordingly, the following service is hereby added to the Procurement List: Food Service Attendant, Department of Veterans Affairs Medical Center, Mountain Home, Tennessee

This action does not affect current contracts awarded prior to the effective date of this addition or options exercised under those contracts.

Deputy Executive Director.

DEPARTMENT OF DEFENSE

Department of the Army

Intent To Prepare Environmental Impact Analyses for Defense Base Realignment and Disposal Actions Resulting from the 1995 Commission's Recommendations

AGENCY: United States Army, Department of Defense.

ACTION: Notice of intent.

SUMMARY: The Defense Base Closure and Realignment Commissions were established by Public Law 101-510, the Defense Base Closure and Realignment Act of 1990, to recommend military installations for realignment and closure. The 1995 Commission's recommendations were included in a report which was presented to the President on July 1, 1995. The President approved and forwarded this report to Congress on July 13, 1995. A joint resolution to disapprove these recommendations did not pass in Congress on September 8, 1995. Thus, if no further action is undertaken to disapprove such recommendations within the statutorily provided time period, then these recommendations will become law and must be implemented consistent with the requirements of the Defense Base Closure and Realignment Act of 1990, Public Law 101-510.

Public Law 101-510 exempts the decision-making processes of the Commission from the provisions of the National Environmental Policy Act of 1969 (NEPA). The law also relieves the Department of Defense from the NEPA requirement to consider the need for closing, realigning, or transferring functions and from looking at alternative installations to close or realign. Nonetheless, the Department of the Army must still prepare environmental impact analyses during the process of property disposal and during the process of relocating functions from a military installation being closed or realigned to another military installation after the receiving installation has been selected but before the functions are relocated. These analyses will include consideration of the direct and indirect environmental and socioeconomic effects of these actions and the cumulative impacts of other reasonably foreseeable actions affecting the installation during the same time.

The Army intends to prepare environmental impact analysis to assess the environmental effects of the actions listed below. Opportunities for public

participation will be announced in the local newspaper. Comments from the public will be considered before any action is taken to implement these actions.

a. Environmental Assessments are planned for the following realignment actions:

(1) Anniston Army Depot, Alabama, receiving: towed and self-propelled combat vehicle mission from Letterkenny Army Depot, Pennsylvania; and material remaining at Defense Distribution Depot Letterkenny (DDLDP) at the time of disestablishment from DDLDP, Chambersburg, Pennsylvania, to be combined at the Defense Distribution Depot Anniston, Alabama (DDAA).

(2) Detroit Arsenal, Michigan, receiving: automotive materiel management functions from Aviation-Troop Command, St. Louis, Missouri, to align with Tank-Automotive and Armaments Command.

(3) Fort Belvoir, Virginia, receiving: Concepts Analysis Agency from leased facilities in Bethesda, Maryland.

(4) Fort Bliss, Texas, receiving: U.S. Army Test and Experimentation Center missions and functions from Fort Hunter Liggett, California.

(5) Fort Detrick, Maryland, receiving: 1111th Signal Battalion and 1108th Signal Brigade from Fort Ritchie, Maryland.

(6) Fort Huachuca, Arizona, receiving: Information Systems Engineering Command elements from Fort Ritchie, Maryland.

(7) Fort Jackson, South Carolina, receiving: Defense Polygraph Institute from Fort McClellan, Alabama.

(8) Fort Meade, Maryland, receiving: Defense Investigative Service, Investigations Control and Automation Directorate from Fort Holabird, Maryland; and Information Systems Software Center from leased facilities in Fairfax, Virginia.

(9) Fort Monmouth, New Jersey, receiving: functions related to materiel management of communications-electronics from Aviation-Troop Command, St. Louis, Missouri, to align with Communications-Electronics Command.

(10) Fort Wainwright, Alaska, receiving: Cold Regions Test Activity and Northern Warfare Training Center from Fort Greely, Alaska.

(11) McAlester Army Ammunition Plant, Oklahoma, receiving: U.S. Army Defense Ammunition Center and School from Savanna Army Depot Activity, Illinois.

(12) Redstone Arsenal, Huntsville, Alabama, receiving: Aviation Research, Development & Engineering Center; Aviation Management; and Aviation
