

of development acceptable to BLM which offers a diversity of opportunities and services to the recreating public. The lease term is negotiable and will be based on the plan of development, the timetable for development, and the capital investment involved. The term of the lease is for an extended use of the public lands for development purposes and will provide a reasonable amortization of capital investment.

The concession lease will be offered through a competitive process under the regulations at 43 CFR 2920. The land use authorization will be awarded on the basis of the public benefits to be provided, a development plan acceptable to the BLM, the financial and technical capability of the bidder to undertake the project, feasibility of the proposal, impacts on the environment, assessment of applicants through the use of established applicant criteria, and the bid offered. No application will be considered for less than 4 percent of the total gross receipts to be derived annually from products and services offered at the concession. The high bid is part of the criteria for selecting a successful applicant, but it is not an overriding consideration.

All applications must include a reference to this Notice and a complete description (development plan) of the proposed facilities and services to be offered. Such development plan must be in sufficient detail to allow evaluation of the feasibility of the proposed land use, impacts on the environment, and public benefits from the land use. This can be accomplished by providing details of the proposed use and activities; a description of all facilities and access needs; a map of sufficient scale to be legible; a legal description of the proposed project location, including acreage; the approximate cost of the proposal; schedule of facility construction; and any other information (such as an analysis of projected performance) that may aid in evaluating the proposal. Applicants must furnish evidence satisfactory to BLM that they have, or will have prior to commencement of construction, the technical and financial capability to construct, operate, maintain, and discontinue the authorized land use.

Applications should be clearly marked on the exterior of the envelope or parcel, "Harvey's Fishing Hole Proposal." All applications received will be held as proprietary information unless released by the applicant. For more details of application content, refer to 43 CFR 2920, Copies of which are available at the BLM Yuma Resource Area Office. Also available is a prospectus containing more detailed

information about application content, such as parameters and constraints relating to development of the concession.

 The areas described aggregate approximately 310,295 acres in San Bernardino County.
- For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the California State Director of the Bureau of Land Management.
- Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested persons who desire a public meeting for the purpose of being heard on the proposed withdrawal must submit a written request to the California State Director within 90 days from the date of publication of this notice. Upon determination by the authorized officer that a public meeting will be held, a notice of time and place will be published in the Federal Register at least 30 days before the scheduled date of the meeting.
- The application will be processed in accordance with the regulations set forth in 43 CFR 2300.
- For a period of 2 years from the date of publication of this notice in the Federal Register, the lands will be segregated as specified above unless the application is denied or canceled or the withdrawal is approved prior to that date. The temporary uses which will be permitted during this segregative period are licenses, permits, cooperative agreements, discretionary land use authorizations of a temporary nature, and rights-of-way, including those associated with approved utility corridors BB and D.
